Wastewater Removal and Portable Toilet Rentals

Member since May 2010

Management and Leadership

Environmentally Preferable Products and Services

We provide septic, pumping and portable toilet services and are available for 24-hour emergency services. We instruct homeowners on how to maintain their systems and encourage them to have their septic systems pumped out on a regular basis in order to protect the environment and Chesapeake Bay. We also provide commercial grease trap maintenance to help facilities keep grease and oil out of their wastewater.

Waste

Solid Waste Reduction and Reuse

We use reusable shopping bags or reuse plastic bags until they wear out and then recycle them.

Recycling

We recycle cardboard, glass, cans, skids, newspaper, computer paper and ink cartridges

Energy

Energy Efficiency

We tune up our HVAC equipment yearly and change air filters on a regular basis. We have also sealed the heating and cooling ducts.

Transportation

Efficient Business Travel

We reduce vehicle mile travel by at least five miles per day through efficient scheduling of customer visits. On an annual basis, this reduces air emissions by the following amount:

Total Hydrocarbons: 8 lbs

Total Carbon Monoxide: 60 lbs

Total Carbon Dioxide: 1,191 lbs

Total Nitrous Oxide: 4 lbs

Total Gas: 52 Gal

Profile Updated February 2011

Maryland

Help build a greener, more sustainable Maryland through voluntary practices that reduce environmental impacts and save money.
