Management and Leadership

Environmentally Preferable Products and Services

Green Coast Fuel Management cleans/polishes fuel so it can be reused. Our 8-step process is designed to increase fuel efficiency and maximize cost effectiveness.

Environmentally Preferable Purchasing

We buy recycled paper products and the diesel fuel we polish/clean and reuse.

Waste

Solid Waste Reduction and Reuse

We reuse the back side of unusable printed paper and print double-sided.

Recycling

We recycle, paper, plastics and metals.

Energy

Energy Efficiency

We have geothermal heating, cooling and hot water. Our utility bills have decreased by 40-45%.

Transportation

Employee Commute

Employees meet and ride together to save on fuel usage

Water

Water Conservation

We have an underground sprinkler system with a rain sensor and water saver spray nozzles.

Other

[Green Business Certified](#), 2015-2017, by the Institute for Green Business Certification

Help build a greener, more sustainable Maryland through voluntary practices that reduce environmental impacts and save money.
