Member since August 2016

Management and Leadership

Environmentally Preferable Products and Services

MD MEP staff are dedicated to providing expertise on safe environmental practices and pollution prevention to the Maryland manufacturing industry. Our sustainability programs provide pollution prevention assessments, engineering assistance with selecting new and more efficient technologies, and training and consulting assistance in helping Maryland manufacturers maintain their ISO certifications.

Waste

Solid Waste Reduction and Reuse

Where possible, MD MEP provides reports electronically to clients to reduce paper use.

Recycling

MD MEP recycles aluminum, paper and electronics equal to about 3,000 pounds per year.

Energy

Energy Efficiency

MD MEP makes efficient use of daylighting in the office area, and enforces a policy of lights and computers off when leaving the office.

Transportation

Employee Commute

MD MEP encourages employees to carpool to and from client meetings when appropriate.

Efficient Business Travel

MD MEP makes effective use of teleconferencing and web conferencing.

Help build a greener, more sustainable Maryland through voluntary practices that reduce environmental impacts and save money.
