Member since February 2017

## Management and Leadership

### Environmental Policy Statement

*NewWave implements the same innovative approach to sustainability that we do with our services. We believe that technology empowers people and organizations to achieve a more sustainable future.*

### Environmental Team

*NewWave's growing Green Committee meets approximately 3 times per month. Together, the committee strives to identify environmental needs and opportunities to encourage better environmental practices inside and outside the workplace. These measures and initiatives are managed through NewWave's Corporate Social Responsibility Department.*

*In 2016, the Green Committee led a "Green Week" focused on waste reduction. In 2017, the committee is planning for a "Bring Your Bottle to Work" initiative in the spring and for our second "Green Week" leading up to Earth Day in April.*

## Waste

### Recycling

*NewWave is committed to Reducing, Reusing and Recycling for a better future. In 2016, we went from 10 Recycling bins around the office to ensuring that all of our 200 employees have recycling bins.*

*We recycle old computer equipment by donating to local charities and have recently launched a new battery recycling program in order to reduce overall waste.*

## Energy

**Energy Efficiency**

*NewWave uses motion-detector lights in our offices. In addition, our conference rooms use energy efficient lights.*

## Transportation

**Employee Commute**

*NewWave uses the power of technology to minimize our environmental impact by offering employees the option to telecommute, creating a digital workforce.*

## Water

**Water Conservation**

*Our water-efficient restroom fixtures alleviate the burden on local municipal water supply and waste-water systems by 30%.*

## Green Building

**LEED Gold BD+C**

*We lease space in building that was certified LEED Gold BD+C for Core and Shell v.1 in 2008.*

*Help build a greener, more sustainable Maryland through voluntary practices that reduce environmental impacts and save money.*
