

## Maryland Green Registry MEMBER

The Maryland Green Registry promotes and recognizes sustainable practices at organizations of all types and sizes. Members agree to share at least five environmental practices and one measurable result while striving to continually improve their environmental performance.

# The Grass People, Inc.

3719 Mohawk Ave  
Baltimore, MD, 21207  
(410) 499-2163  
Outdoor Services  
Member since June 2015

## Management and Leadership

### Environmental Team

*Our Team is comprised of employees who are local citizens in our community. The same way we look at trash as another man's treasure, we value our employees the same exact way. Regardless of background, nationally, sexuality, religion, race, or gender we are an equal opportunity employer. Every employee is given an extensive amount of training in both customer service and service delivery.*

### Environmentally Preferable Products and Services

*We are dedicated to beautifying our environment by any means possible, whether it be cleaning alleys, cutting grass, or planting flowers. Our company provides many outdoor services including grounds maintenance, bulk trash removal, litter pick-up, and landscaping. We use brown bags for recyclable materials.*

### Environmental Restoration or Community Environmental Projects

*After the riots in Baltimore, The Grass People were a vital part of the area restoration. A crew was dispatched to clean the area of Pennsylvania Ave. and North Ave. Behind both the protesters line and police lines, The Grass People had one goal: KEEPING THE AREA CLEAN. Sweeping and bagging all the trash, we did just that.*

## Waste

**Recycling**

*Material received from bulk trash that is in good condition is donated to a local thrift store. So far this year, we have donated 67 second-hand items and distributed 24 bikes to youth in the community.*

**Composting**

*We transport tree trimmings and other yard waste to a local landscape supplier for mulch production.*

## Transportation

**Employee Commute**

*All employees are given weekly bus passes to reduce air pollution.*

## Water

**Stormwater Management and Site Design**

*Under no circumstance will you ever find any employee of The Grass People, Inc. ever blowing trash or yard debris into any stormwater drains or run off areas. It's against our rules and we train our employees to prevent this.*

*Help build a greener, more sustainable Maryland through voluntary practices that reduce environmental impacts and save money.*
