Management and Leadership

Environmental Team

Belair Swim and Racquet Club (BSR) has a committee member who is tasked with sustainability and energy efficiency programs.

Annual Environmental Goals

We plan to create a living wall by planting American Grape and other native plants on an existing fence to attract pollinators, reduce noise, and create visual appeal for our club. We are also replacing our HVAC system with more efficient equipment.

Environmentally Preferable Purchasing

BSR purchases Energy Star, LED and energy efficient products.

Environmental Restoration and Community Environmental Projects

BSR is holding a Bowie Appreciation Day on June 4, 2023 to recognize elected officials and city employees, including those from Public Works that have supported BSR's recycling efforts over the years.

Waste

Recycling

BSR recycles all cans, plastics and paper which is collected weekly by the City of Bowie.

Energy

Energy Efficiency

In the summer of 2022, BSR replaced all incandescent interior lighting with LEDs, saving 20% in operating costs. We are also installing a Mitsubishi energy efficient split HVAC system.

Water

Stormwater Management

BSR has a dedicated landscaping and groundskeeping partner that ensures that plantings, landscaping, and chemical use is environmentally safe and used minimally.

Help build a greener, more sustainable Maryland through voluntary practices that reduce environmental impacts and save money.
