Re: Groundwater Remediation
2015/2016 Action Plan Summary Report
Case No. 1987-2534-KE
Facility ID No. 3168
Project No: 14004.00

Dear Mr. Ralston:

The Shore Medical Center at Chestertown (SMCC) Team is pleased to present the attached 2015/2016 Action Plan Summary Report in accordance with Maryland Department of the Environments (MDE) Revised 2015 Action Plan approval letter of July 22, 2015.

As documented in the 2015/2016 Action Plan Summary Report, the twenty-seven (27) week endeavor proved to be very successful with furthering the cleanup effort and to move the project towards case closure.

As required by the MDE, the pump and treat system remains operational, monthly and quarterly sampling/reporting is being conducted, and we have initiated the Subsurface Investigation Work Plan effort. Once the Subsurface Investigation has been completed another report of findings on this effort will be submitted under separate cover.

We look forward to continuing our combined efforts for a successful site remediation and the opportunity to work with the Department on resolution of this matter.

Sincerely,

H&B Solutions, LLC
