# Wasted food and food recovery in Maryland

Carrie Burns,
Johns Hopkins Center for a Livable Future
Food System Mapping

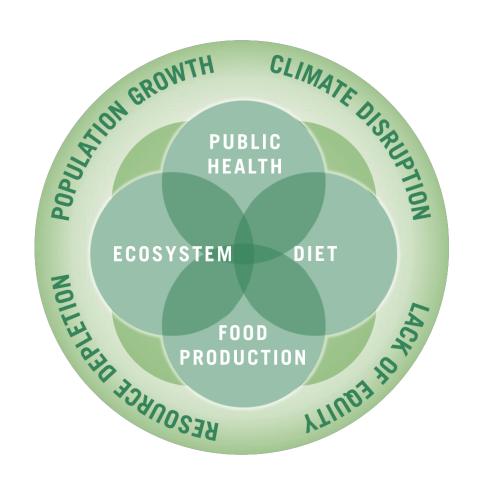

### Mission

#### The mission of the Center for a Livable Future is to:

- promote research and to develop and communicate information about the complex interrelationships among diet, food production, environment and human health,
- advance an ecological perspective in reducing threats to the health of the public
- promote policies that protect health, the global environment and the ability to sustain life for future generations.

### Concept Model

### What we do

- Support and conduct interdisciplinary research through collaboration with experts in a variety of fields
- Educate and train students and professionals through doctoral fellowships, graduate courses and curricula
- Communicate projects and activities to a wide range of internal and external CLF constituents
- Generate resource materials and provide technical expertise for policy, advocacy, and outreach initiatives
- Partner with organizations which complement the Center's resources and expertise in order to improve our food system overall and strengthen local and regional capacity.

Public Health

### Food System Sustainability and Public Health

### Global Greenhouse Gas Emissions (2005)

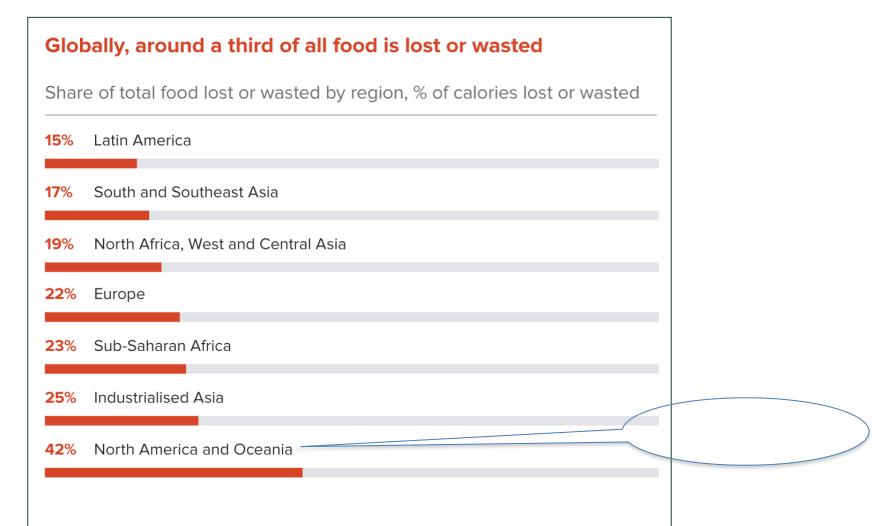

### About 1/3 food globally is lost or wasted

# By the numbers: wasted food & food insecurity in Maryland

- Wasted food:
  - Nationally: about 40% of all food harvested in the US
  - Maryland: 700,000 tons (based on % of US population)

- Food Insecurity:
  - 757,430 food insecure people in Maryland in 2013

 Nearly one ton of wasted food per food insecure person! (1848 lbs)

### Food Recovery

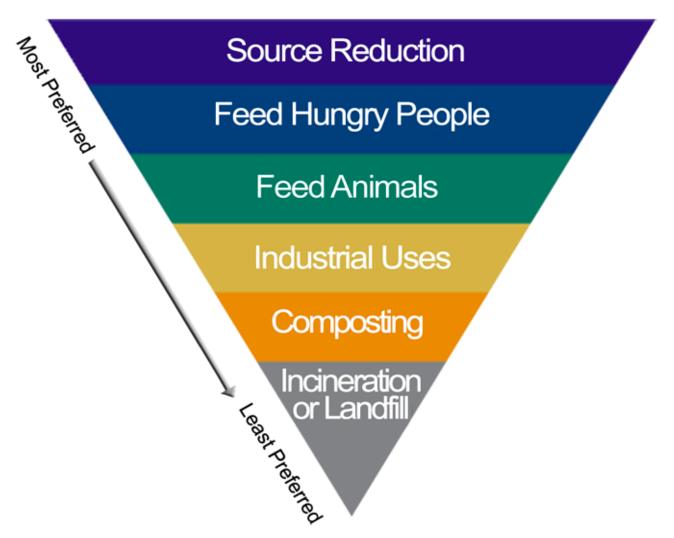

- Gathering edible food that would be wasted, for distribution to emergency food programs
- Edible food
  - Older, near sell-by date
  - Imperfect
  - Over-ordering/overproducing

#### **Hub and Spoke Program**

The Hub and Spoke model of food distribution is designed to increase the availability of fresh, locally grown farm food to the hunger community in the five counties of Southern Maryland.

While many local anti-hunger organizations are providing food for those in need, donations to these organizations tend heavily toward packaged

### WHAT IS THE FARM TO FOOD BANK PROGRAM?

The Farm To Food Bank Program engages a network of farms across the state in a partnership to provide hungry Marylanders with fresh, local produce. Through a combination of field gleanings, donations and contract growing, these farms help us supply good,

#### WANT TO HELP HARVEST FOR THE HUNGRY?

The Farm to Food Bank Program is now recruiting volunteers for the upcoming harvest.

To be an expected as a few states of the states of

A PROJECT OF JOHNS HOPKINS CENTER FOR A LIVABLE FUTURE

 Mission: To use GIS to explore, assess, and inform the food system

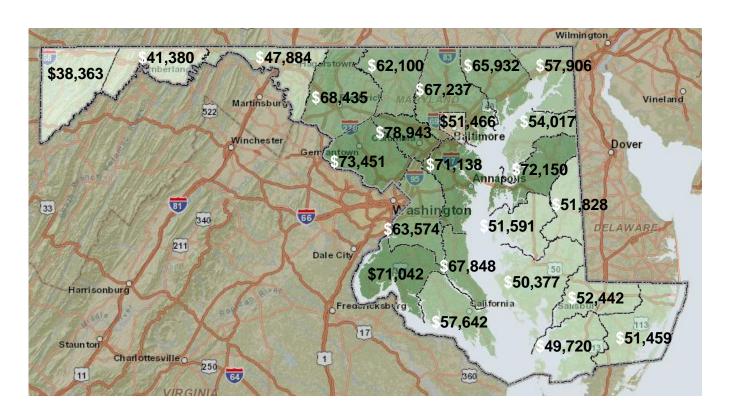

### **Data collected:**

- ★ Agriculture
- ★ Land Conservation
- ★ Environmental Indicators
- Food Processing and Distribution
- ★ Food Retail
- Nutrition Assistance: SNAP, WIC, School food
- ★ Farm-to-Institution: K-12, Universities, Hospitals
- ★ Demographics, Health
- ★ Community Resources: libraries, recreation centers

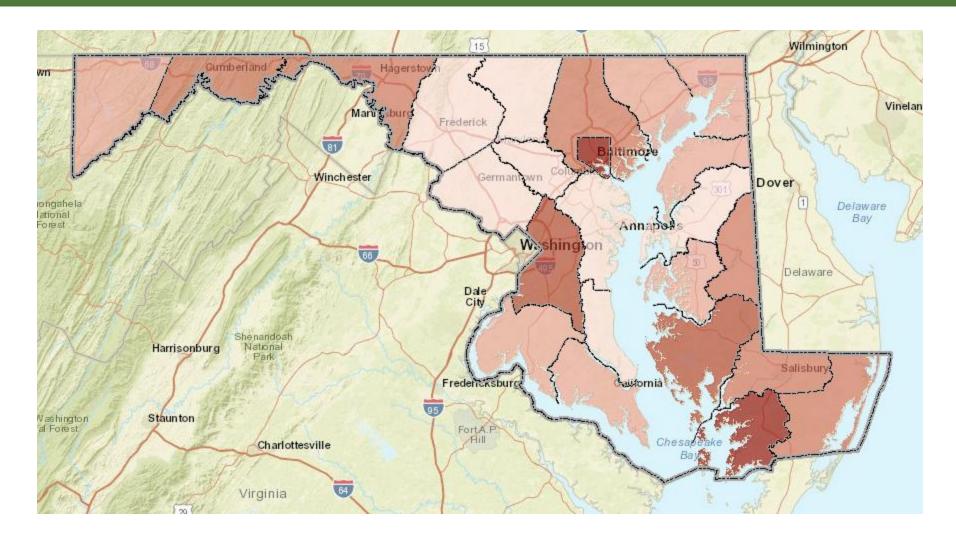

## Where is the need? Self Sufficiency Standard

The amount of income necessary to meet basic needs (including taxes) without public subsidies (e.g., public housing, food stamps, Medicaid or child care) and without private/informal assistance (e.g., free babysitting by a relative or friend, food provided by churches or local food banks, or shared housing).
