# Businesses for the Bay Mentors Offer Free Assistance

*Will your Business Make the Commitment this Earth Day?*

Do you feel overwhelmed by the explosion of information on new technologies, materials, and processes promising to help reduce your waste streams? Free assistance is available

through programs at the Maryland Department of the Environment, the Maryland Center for Environmental Training, and the University of Maryland Technology Extension Service. But maybe you need to hear directly from a colleague who's been through the evaluation and implementation stage of various pollution prevention techniques. That connection is just a phone call away.

*Businesses for the Bay*, a voluntary pollution prevention recognition program, has over seventy participating businesses that will share their waste reduction expertise through a phone consultation or even a site visit. From large corporations like Grace Davison, and Millenium Organic Chemicals in Baltimore to federal facilities such as the U.S. Naval Academy in Annapolis, and small

businesses like Rosario's Restoration, a furniture stripping and refinishing businesses in Gaithersburg Maryland, these businesses are eager to help. Participating mentors and their specialties are listed below. Call Kelly Mecum of the Chesapeake Bay Program for more information and to make arrangements for mentoring assistance. She may be reached at 1-800-YOURBAY, ext. 719.
