Hyatt proves promising for Eastern Shore community

By John Cherry

The skyline of Cambridge is changing as construction continues on the Hyatt Regency Chesapeake Bay Resort, Spa and Marina, which will open December 2001 on the site of the former Eastern Shore Hospital Center.

The 351-acre site has gone through strict environmental assessment and cleanup requirements for hazardous substances mandated by the Maryland Department of the Environment's (MDE) Voluntary Cleanup Program (VCP) in order to accommodate the \$140 million project with 400-room hotel and conference center, an 18-hole golf course and a 400-slip marina. Future development includes 94 single-family building lots, 190 townhouses and 425 timeshare units.

The VCP provides a way for property owners and prospective purchasers to work voluntarily under MDE's oversight to investigate and remediate properties. At the successful completion of a VCP project, the program participant receives either a No Further Requirements Determination or a Certificate of Completion for the eligible property.

A No Further Requirements Determination states that MDE does not have further requirements related to the investigation or remediation of controlled hazardous substances at the property. Where a cleanup is required, a Certificate of Completion is issued upon successful completion of an approved response action plan. The liability release provided by MDE's signoff en-

Gov. Parris N. Glendening speaks on Greenbuilding/Green Energy policies.

Governor signs order setting new 'green' standard

Setting a new "green" standard for state government, Gov. Parris N. Glendening issued an executive order March 13 creating a commission to make recommendations and set criteria for constructing and maintaining energy efficient and environmentally responsible state facilities, setting goals for the purchase of "green power" and outlining a comprehensive energy conservation strategy.

"State government has a responsibility to maximize our resources and minimize the impact on our environment," Glendening said. "While Smart Growth focuses on *where* we build, our green build-

ing initiative focuses on *how* we build. It is the next step in our efforts to grow smarter, live more in balance with our environment and help protect and restore the Chesapeake Bay."

The Executive Order sets a new goal for the procurement of electricity, calling for at least 6 percent of consumption in state-owned facilities to be produced from "green energy," which includes wind power, solar, biomass and landfill gas generated sources. To promote a diversity of "green energy" resources, no more than 50 percent of the procurement goal may be from the combustion of

municipal solid waste.

The Governor's Order also establishes a 16-member Maryland Green Buildings Council to develop a High Efficiency Green Buildings Program which will guide the design, construction, operations and maintenance of all new state-built facilities, as well as the renovations of existing state owned and leased buildings.

Glendening made the announcement from Montgomery Park Business Center, a 1925 Montgomery Ward Catalog Warehouse Building and the future home of the Maryland Department of the Environment,

Panel looks at environmental justice issues

On March 9, Gov. Parris N. Glendening signed an Executive Order establishing the Maryland Commission on Environmental Justice and Sustainable Communities (CEJSC), reaffirming the state's commitment to protecting communities disproportionately burdened by environmentally-damaging facilities and projects.

Maryland is the first state in the nation to issue an executive order creating a commission that will identify the extent of the problem and make recommendations for legislative or administrative action.

"There are communities across Maryland that lack the political power and resources to fight decisions likely to threaten their health and quality of life," Glendening said. "This commission will give citizens, particularly those in minority and low-income neighborhoods, a voice and the opportunity to actively participate in determining what is best for their communities."

The Executive Order strengthens the state's commitment to environmental protection and its efforts to foster a greater sense of justice, fairness and inclusion. The commission will advise state agencies on environmental justice and community health issues, evaluate the impact and effectiveness of current state regulations, coordinate with children's health groups, and recommend strong environmental protections while promoting economic growth.

Sawyers joins MDE's staff

By Tracy Newman

The Maryland Department of the Environment recently welcomed Andrew Sawyers to its staff as its Environmental Justice Coordinator.

Sawyers came to MDE on Feb. 7 from the Baltimore Urban League, where he worked while earning his doctorate in environmental policy from Johns Hopkins University. Sawyers said his desire to improve communication between the state government and the community was one of the things that attracted him most to the position.

"When the department became interested in environmental justice, I thought this would be a perfect fit," Sawyers said. "I wanted to look into ways and means to provide a bridge ... how to communicate and articulate an environmental agenda. People have a difficult time accepting even the basic environmental regulations. [I also want to] help MDE understand the character of the communities."

Sawyers, who has wasted little time getting his feet wet, has already started laying the framework for a project he detailed in his dissertation — a program intended

PHOTO BY DICK TOMLINSON/GOVERNOR'S PRESS OFFICE

Gov. Parris N. Glendening, Del. Mary Rosso and community activist Doris McQuigan stroll the streets of Wagner's Point days prior to the community's demolition. The community was abandoned due to environmental threats.

The governor made the announcement in front of homes in the Wagner's Point section of Baltimore, citing the neighborhood as one of Maryland's most notorious examples of environmental injustice. Through the combined efforts of residents, city and state officials and Maryland's Congressional delegation, funds were allocated to aid families in their relocation efforts.

State Sen. Ulysses Currie and Del. Mary Rosso represent the General Assembly on the 15-member commission, while Health Secretary Georges Benjamin, Secretary of Planning Harriett Tregoning and Secretary of the Environment Jane Nishida represent their respective departments. The other 10 members, appointed by the Governor, include University of Maryland Law professor Sherilynn Ifill; Stephanie Prange

Proestel, deputy director of Housing Initiatives Partnership, a Prince Georges County non-profit; commercial developer Tim Pula of Streuver Bros. Eccles & Rouse; children's environmental health advocate Tracy Newsome-Smith of the Center for Poverty Solutions; William Stack, program administrator with the Baltimore City Department of Public Works; Baltimore City resident Scot Spencer, transportation specialist with Environmental Defense in Washington, DC; Salisbury Mayor Barrie Parsons Tilghman; Jim Upchurch, president of Interfaith Housing of Western Maryland; waste hauling industry representative Bonnie Wilson of Safety Kleen, Inc.; and community representative Jean Yarborough, a former administrator with the Johns Hopkins School of Medicine.

State, national agencies re-sign partnership

Recently the Maryland Department of the Environment (MDE), Department of Natural Resources (DNR) and the U.S. Environmental Protection Agency (EPA) have re-affirmed their commitment to ensuring cooperative environmental results-based planning and management by signing their fourth Environmental Performance Partnership Agreement (EnPA).

The four signed partnership agreements reflect a multi-year strategic planning process in which the agencies have set forth their respective environmental and public health protection goals, established indicators to measure and communicate progress, and defined the state/EPA relationship. Stakeholder input and public participation are key components of the effort. If your group or community association would like to learn more about Maryland's partnership agreements, contact Regina Rochez, MDE Program Administrator, at (410) 631-3314.

Sawyers

to assist the department in developing an environmental equity and participation plan.

"The Community Characterization Project will help MDE to understand the communities we regulate ... to make much more informed decisions," Sawyers said. "The tool is used to make environmental

Bike to work event is in May, help preserve the environment

By Bob Maddox

May is both Clean Air Month and National Bike Month. What is the connection between air and bikes, you may ask? With major traffic congestion and air pollution problems in the Baltimore-Washington region, one way to relieve these troubles is to turn car commuters into bike commuters.

The Maryland Department of the Environment, Baltimore Metropolitan Council, the Baltimore Bike Club and local businesses are organizing Baltimore's Bike to Work Day 2001. The event, being held Friday, May 11, is intended to:

- ◆ Educate people that the bicycle is a clean and beneficial means of transportation.
- ◆ Encourage people to try bicycle commuting.
- ◆ Increase the public's awareness and respect for bicyclists.

Bike to Work Day events have been held in cities across the U.S. — Boulder, Colo., Madison Wis., and Portland, Ore. — to name just a few, and bicycle commuting is growing in popularity. Both employers and employees recognize the benefits — reduced commuter costs, reduced traffic congestion and improved fitness.

Baltimore's event will include a morning rally at the Hard Rock Café in downtown Baltimore from 7:30 to 8:30 a.m. and

giveaways to riders. Several Baltimore businesses, sports teams and cultural attractions have donated free admission passes, tee shirts, autographed photos, bicycle equipment and other fun items to give to those who pledge to commute by bike on May 11.

"Baltimore is really becoming a bike-friendly environment," said Penny Troutner of Light Street Cycles, one of the event's organizers. "There are several bike events planned this year and the two trails are coming together nicely."

Troutner is referring to the Bike Jam and the Tour du Port events and the Gwynns Falls and Jones Falls pedestrian and bicycle trails.

There is also a Bike to Work Day event being held in the Washington metropolitan area on Friday, May 4, organized by the Washington Area Bicyclist Association (WABA) and Commuter Connections/Metropolitan Washington Council of Governments (COG). There will be rallies at several locations in north-

ern Virginia, Montgomery County and downtown Washington D.C.

"The Washington Area Bicyclist Association has organized bike to work events for more than 10 years," said Muriel Bowser of COG. "This is the first year Commuter Connections and WABA have partnered to expand the event to include four suburban celebrations in addition to the downtown D.C. rally."

Benefits of Bicycling

- ◆ Improved health and fitness. Physically fit employees are more productive and miss fewer days of work.
- ◆ Saves money. Bicycle commuting saves parking fees, fuel and maintenance costs. The average cost per year to commute to work by car five miles each way is \$3,690.
- ◆ Avoid traffic congestion.

Environmental Benefits

As more of America's cities are faced

with the environmental, traffic, health, land use and safety problems that come with increased auto dependency, alternative ways must be found to meet transportation needs without further sacrificing the quality of the environment. Promoting bicycling and walking can be the most cost-effective ways to meet these needs. Overcoming the reliance on a car to travel the three miles to work or three blocks to the library or drugstore is an important first step in broadening the base of bicyclists and walkers.

Registration

Please register if you will participate in Baltimore's Bike to Work Day 2001 on May 11 and get your name entered in a drawing for great prizes. E-mail or fax your name, employer, length of your commute each way and a daytime telephone number or e-mail address to the attention of Bob Maddox or Reider White: Maryland Department of the Environment at 410-631-3265; by fax at 410-631-3391; and rwhite@mde.state.md.us. You can also register online at www.cleancommute.com. Deadline is Monday, May 7.

To learn more about Bike to Work in the Washington region, contact Muriel Bowser at 202-962-3383 and mbowser@mwcog.org. To register online for the Washington event, visit www.waba.org.

Shop S.M.A.R.T. — save money, reduce trash

By Kelly Schaefer

Celebrations are being planned all over the nation for April 22 in honor of Earth Day. Though not everyone has time to participate in a cleanup event, there are many ways to make a difference in preserving the environment and help make each day an unofficial Earth Day.

You can begin by reducing what you consume, reusing the items you already have, recycling properly and looking for items that contain recycled materials for use at home and at work.

Buying earth-friendly products is now even easier with the increased availability of recycled items, especially on the Internet, which has played a role in expanding opportunities for people to purchase a variety of products from around the world. To find unique, recycled, earth-friendly brands, go to any search engine and type in the key words "recycled products."

Recyclables are truly everywhere. In an office, paper can be printed on old money or denim blue jeans. Some companies offer pendulum desk clocks made from recycled bike parts and tire rubber or an assortment of jewelry made from recycled plastic bottles, aluminum cans and old car parts. To complement the recycled

jewelry, purses made from recycled license plates (available from the state of your choice), bottle caps and a tire inner tube, are also available online.

Buying products containing recycled content:

- ◆ Reduces solid waste.
- ◆ Provides markets for recyclable materials.
- ◆ Conserves energy.
- ◆ Preserves natural resources.

Another way to shop S.M.A.R.T. (Save Money And Reduce Trash) in addition to buying recycled is to reduce waste throughout the average workday. When going to grab that first cup of coffee in the morning, consider using a durable coffee mug that can be washed and used again, instead of using a Styrofoam or paper cup. While at work, encourage the use of recycled paper and other materials at the workplace. And when heading out to the local supermarket, be sure to choose items in packages made of recycled materials and consider using a canvas reusable bag for the groceries to reduce the use of plastic and paper bags.

The "green" market is expanding and more people are demanding environmentally friendly products and services. Get in the recycling loop, shop S.M.A.R.T. and buy recycled!

These earrings are made from bottles, caps, wire, car parts, and tin cans.

The Pendulum desk clock above is made from recycled bicycle parts.

The purses at left are made of recycled license plates, tire inner tubes, and bottle caps. These and other S.M.A.R.T. products can be found at:

MDE earns top honors at home show

The Maryland Department of the Environment's (MDE) educational outreach efforts garnered some praise recently. At right, Don Mauldin, MDE's exhibit coordinator, along with fellow co-workers Sandy McVicker and Valerie Burley, left, show the blue ribbon won by the agency for Best Government Exhibit and the Silver "Producer's Award" Bowl for Best Educational Exhibit won at the 2001 Maryland Home and Flower Show held at the State Fairgrounds in Timonium in March. McVicker and Burley were staffing MDE's "Your Backyard," exhibit that focused on eco-friendly gardening and maintenance.

GREEN Continued from Page 1

which is currently being renovated into a green building.

When complete, Montgomery Park will feature an ice pond cooling system, 100 percent recycled floor coverings with zero or low VOC sealants, 100 percent recycled paper and 20 percent recycled core for dry-wall and a green roof to reduce and delay stormwater runoff and prevent the roof from heating up.

Green buildings are designed to have lower energy consumption, produce less waste, and reduce the impact on the land. Common components of green buildings include incorporation of the natural, local ecosystem into the site plan, water conservation, on-site storm water treatment and use of local materials in construction. Other green strategies include reduction of heat-

ing and cooling costs by optimizing site orientation and design for local climates, integrating natural lighting and ventilation, reducing light pollution from poorly placed and improperly shielded outdoor security lighting, and using recycled materials for construction.

The Executive Order will also encourage wider adoption of energy-efficient office products, use of renewable energy components (such as solar roofs), and reduction of waste production. Specific goals include reducing energy consumption in state buildings by 10 percent per square foot by 2005, and by 15 percent per square foot by 2010 (based on 2000 average consumption figures). All new energy-using products are to carry the "Energy Star" label developed by the

federal Environmental Protection Agency, or must be in the top 25 percent of energy-efficiency when labeled products are unavailable. Beginning on Jan. 1, 2003, all state agencies have been directed to divert or recycle at least 20 percent of the waste they generate.

The Executive Order also makes it easier for the state to purchase alternative-fuel and low-emission vehicles for its fleet.

This comprehensive green initiative will help Maryland meet the goals of the Chesapeake 2000 Agreement, the

landmark regional pact that requires aggressive new efforts by states in the mid-Atlantic to redirect land use and conservation policies to significantly reduce the release of noxious pollutants into the Bay.

RESORT Continued from Page 1

ables a current or prospective property owner to successfully market a property or secure financing to redevelop the site.

MDE issued a certificate for the former Eastern Shore Hospital Center property in October 1999. The certificate cleared the way for the sale of the property and construction of the Hyatt Regency Chesapeake Bay Resort, Spa and Marina, said Karl Kalbacher of MDE's Waste Management Administration.

"However, it is conditioned on use of the property for limited residential purposes, which provides for unrestricted use of the property except for a prohibition of the use of shallow groundwater for any purpose. Use of the deep groundwater beneath the property is unrestricted, but must be monitored annually for a minimum of five years."

When the Maryland General Assembly was debating the merits of creating a VCP in 1997, much of the attention was directed toward addressing the cleanup and reuse of

abandoned or underutilized industrial areas that were located predominantly in urban centers. In parts of Baltimore City, there was ample evidence of decline in communities from diminished industrial activity. However, in rural areas of the state with an agriculturally-based economy, the value of developing a VCP was not as readily apparent.

The former Eastern Shore Hospital Center has created an opportunity to make use of the VCP in a rural area of Maryland.

"In this important development, we found MDE dedicated - as we were - with utilizing Brownsfield and related programs to assist us to recycle antiquated institutional property into a resort development which will be a source of pride for the entire state," said Christian Chambers, the resort's project director of the Quadrangle Development Corporation.

Dorchester County Economic Development Office estimates that the Hyatt Regency Chesapeake Bay Resort, Spa and Marina will

funnel \$30 to \$34 million annually into the region and employ about 400 people. According to the county Economic Development Office, the Hyatt project has been a catalyst for the development of new businesses in the surrounding area, as well as improving the commercial and residential real estate markets.

Even the local airport is in for a change. Dorchester County is expanding the local airport to accommodate an expected 15,000 to 20,000 annual airline passengers. Although the population of the county has remained fairly constant for the past 50 years, the Economic Development Office expects the recent census totals to reflect a new population growth trend for the area, which in large part can be attributed to the Hyatt Regency project.

To see changes the VCP is making in Maryland, visit MDE's web page at www.mde.state.md.us/environment/was/brownfields/factsheets/.

By Andrew Gosden

Q. I obtained all the permits I needed to start my business. Do I need to do anything else for MDE?

A. Last month's column addressed air issues associated with this question. This month it will address waste related issues with a focus on the record keeping for hazardous waste. Many types of small businesses are controlled hazardous substance generators.

Proper record keeping is of critical importance since this paperwork is one of the key things under review when a business is inspected. All of these records are used to demonstrate that the business is operating in compliance when the inspector is not there. The inspector will also check the facility to make sure it is meeting all of its storage, handling and labeling requirements.

Hazardous waste generators must meet several important record keeping requirements, the manifest being one of the most critical elements. When sending hazardous waste for disposal, a hazardous waste manifest must be used and a copy should be retained after the waste is shipped.

Business owner(s) should also receive a signed copy from the destination facility within 30 days. If not, then an "exception report" must be filed with the both the Maryland Department of the Environment (MDE) and the destination state. The exception report must include a legible copy of the manifest for which the generator does not have confirmation of delivery, and a discussion of efforts that have been undertaken to locate the shipment. When the signed copy is received, it may be helpful to attach it to the matching original manifest. This will make it easier to keep track of these records and to use them for the Biennial Report of Hazardous Waste Activity.

The Hazardous Waste Biennial Report, which reports a business's hazardous waste activity for the previous year, is filed with MDE every other year. The reports are due in even numbered years and cover the activity for the preceding odd numbered year. Information needed for this report can be obtained from the manifests.

As a hazardous waste generator, storage areas must be inspected on a weekly basis. This inspection, which needs to be documented in writing, must check for leaks or any deterioration of the containers or containment area. Inspection records must be retained for at least three years from the date of inspection, though the requirements are different if the waste is accumulated in tanks. Contact MDE if the generator uses tanks to manage hazardous waste.

See ASK, Page 6

Maryland Earth Day Events 2001

April 22 marks the 31st anniversary of the first Earth Day. Originally called "The First National Environmental Teach-in," Earth Day was modeled after the anti-Vietnam war teach-ins of the late 1960s. Earth Day's aim is to foster a greater appreciation for the planet and encourage everyone to take steps to restore and preserve it. The theme of Earth Day 2001 is clean energy. Here is a partial list of Earth Day 2001 events currently scheduled for cities in **Maryland**. For complete details and other listings search the Internet at www.earthday.net and earthday.org.

Event Name: Earth Day Fair — School-aged children from the Jones Falls Watershed area will come together to celebrate the achievements of our partnering environmental organizations, and to increase their awareness of these programs. A Scavenger Hunt will be held in the park, as well as tree planting lessons and cleanups.

Where: Wyman Park, Baltimore

When: April 27, 12 - 3 p.m.

Sponsor/Organizer: Jones Falls Watershed Association, 3503 North Charles

St., Baltimore, MD 21218, Telephone 410-261-3515

Event Name: Herring Run Spring Fest — The 7th Annual Spring Migration Celebration has moved to BelAir Road in collaboration with BelAir neighborhood festival. Tree plantings, stream reconstruction, water sampling and environmental exhibits will mix with music, food, and a flea market, as thousands celebrate the Herring Run Park and take a chance on 50/50 cash raffle.

Where: Herring Run Park, BelAir Road at Chesterfield Avenue, Baltimore

When: April 28, 10 a.m. - 4 p.m.

Sponsor/Organizer: Herring Run Watershed Association, 4337 Harford Road, Baltimore, MD 21214, Telephone 410-254-1577

Event Name: Celebrate Earth Day 2001 — Celebrate the Earth and come play outdoors at Pemberton Historical Park. There will be games, activities, tree plantings, nature hikes and fun for the whole family.

Where: Pemberton Historical Park, Salisbury

When: April 22, 12 - 4 p.m.

Sponsor/Organizer: Pemberton Historical Park, 500 Glen Ave., Salisbury, MD 21804, Telephone 410-860-2447

Event Name: Howard's Branch Project — With the help of national and state leaders, four schools will plant 500 globally threatened Atlantic White Cedar (AWC) trees in a recently restored cedar wetland. The wetland is the first of its kind in the State of Maryland, specifically designed as a recovery site for threatened species. The planting will double the number of AWC on the Western Shore of Maryland and will become the largest AWC forest in the Western Hemisphere.

Where: 134 Sherwood Forest Road, Sherwood Forest

When: April 20, 10 a.m. to 12 p.m.

Sponsor/Organizer: Samuel Ogle Elementary, 4111 Chelmont Lane, Bowie, MD 20715, Telephone 301-805-2641

Event Name: Jefferson Patterson Park & Museum Opening Celebration — Celebrate Earth Day with Jefferson Patterson Park & Museum and the Acad-

emy of Natural Sciences. Activities will include demonstrations of prehistoric technology, kite flying with the Optimist Club and soil conservation activities.

Where: Jefferson Patterson Park & Museum and the Academy of Natural Sciences

When: April 21, 10 a.m. to 5 p.m.

Sponsor/Organizer: Jefferson Patterson Park & Museum, 10515 Mackall Road, St. Leonard, MD 20685, Telephone 410-586-8501 or 410-586-8502

Event Name: Howard County Earth Day 2001 — Howard County's Earth Day 2001 will be a family-oriented celebration, featuring exhibits and hands-on activities celebrating the wonders of our natural environment. Nature walks, games, and educational activities for all ages will be available.

Where: Woodstock, 10520 Old Frederick Road (Rt. 99)

When: April 22, 9 a.m. to 4 p.m.

Sponsor/Organizer: Howard County Conservancy, 10968 Swansfield Road, Columbia, MD 21044, Telephone 410-730-4994

Tire amnesty days roll into communities across the state

Keep an eye out for Tire Amnesty Day in your county! During this one-day event, county/city residents (excludes businesses) are permitted to deliver up to 10 scrap tires per vehicle free of charge to approved collection facilities. The Maryland Department of the Environment, Maryland Environmental Service (MES) and participating counties sponsor Tire Amnesty Day on an annual basis.

Because of the strong level of participation by residents in past years, several counties have actually exceeded the predicted amount of tires collected. In 1999 a total of 190,000 scrap tires were collected, which would otherwise be located in small piles throughout the state. As part of this project, residents are given information regarding Maryland's laws and regulations governing the collection and disposal of scrap tires. It is hoped that such public education will deter residents from accumulating scrap tires in the future. For a list of County coordinators visit MDE's website at

<http://www.mde.state.md.us/was/recycle/coordinators.html>

Intensive Potomac River monitoring efforts continue

By Amy Svrjcek

The Maryland Department of the Environment's (MDE) Technical and Regulatory Services Administration (TARSA) recently designed an intensive water quality monitoring study to assess environmental conditions in the estuarine and free-flowing tributaries of the Potomac River.

A series of weekly surveys involves dispatching two- or three-person boat and land

teams to collect water quality samples that will assist in characterizing eutrophication-related constituents in the watershed.

The Potomac River is the second largest watershed that feeds the Chesapeake Bay and extends 383 miles from its headwaters at Fairfax Stone in West Virginia to its mouth at Point Lookout in Maryland. The Potomac drainage area of 14,670 square miles includes portions of four states: Maryland, West Virginia, Virginia, Pennsylvania and the District of Columbia. The monitoring study, conducted by TARSA's Field Operations Program - Water Quality Monitoring Division, was designed to focus on assessing water quality conditions in the Maryland portion of the Potomac River watershed.

Six intensive surveys that each requires a three-week time frame to complete, will examine more than 150 station locations in the watershed. The surveys conducted will assess the water quality under varying hydrological conditions in an effort to capture wet and dry season dynamics char-

acteristic of Maryland. In addition, measurements of the bathymetries of estuarine locations and streambed geometry of free-flowing locations will be conducted as a part of the survey.

The primary study objective was designed to support the development of Total Maximum Daily Loads (TMDLs) as required by the Clean Water Act. TMDLs are designed as a mechanism to determine limits on allowable point and non-point source loadings to a body of water designated as "impaired" under state water quality standards. The information collected throughout the watershed will be used in computer models that support the development of TMDLs. However, flexibility was built in to support collaborative efforts with other agencies, such as the US Geological Survey.

Scheduled to begin during the second week of March, monitoring was delayed due to strong winds with gusts more than 35 mph that prevented the dispatching of boat teams.

"These types of severe weather conditions can shut a monitoring program down at any time," said John Steinfort, Division Head of the Field Operation's Water Quality Monitoring Division. "While a lot of planning goes into these studies and timing is key, March is historically the windiest time of year and weather can mean the difference between success and failure"

Monitoring teams were dispatched the following week to resume sampling; however, two of the remotely stored boat trailers became mired in dirt-covered parking areas soaked by the winter rains.

"At one point we figured we had lost another day of sampling, but the staff improvised with boards, jacks and winches," Steinfort said.

Eventually the determination of the staff prevailed and the monitoring proceeded without further incident. Despite the initial delays, it is anticipated that all surveys will be successfully rescheduled.

TARSA's monitoring effort will continue through September 2001.

ASK

Continued from Page 4

Hazardous waste generators are required to have a contingency plan detailing how emergencies at the facility (such as fires, spills, releases of hazardous waste, explosions, etc.) will be addressed. Generators are required to note, in an operating record, the time, date and details of any incident that required implementation of the contingency plan.

A hazardous waste generator's employees must be taught about the state's hazardous waste regulations and how to respond to emergencies at the facility. Records of this training must include names and job titles of employees involved in hazardous waste management, job descriptions of positions engaged in hazardous waste management and records documenting the training received. Businesses are required to keep employee training records for at least three years from the last date they worked at the facility or until the facility is closed for current employees.

Because of space limitations, this column can only highlight a portion of the requirements that hazardous waste generators must meet. Generators should consult the Code of Maryland Regulations to become familiar with the detailed requirements with which they must comply. Requirements for hazardous waste generators may be found at COMAR 26.13.03. The Small Business Assistance Program can help generators access and understand these regulations.

As with recommendations provided as part of last month's air permit answer, business owners should set and follow policies and practices that will keep the facility in compliance all the times. Of course, small businesses may deal with other programs in addition to hazardous waste. Each of these programs has its own record keeping, reporting and compliance requirements. Contact the Environmental Permits Service Center at (410) 631-3772 with any questions.

Although the information provided in this column is accurate for the specific situations addressed, it is not a substitute for compliance. Call MDE through the Environmental Permits Service Center to find out how the regulations may apply to you.

Public hearings & meetings

Air & Radiation Management Administration

April 4, 2001 — 6:30 p.m.

Brooklyn Branch of the Enoch Pratt Library, 300 Patapsco Ave., Baltimore

Public hearing concerning an application for an air quality permit to construct submitted by Condea Vista Company. For more info call Robert Maddox, (410) 631-3265

Waste Management Administration

April 3, 2001 — 7 p.m.

Cascade American Legion Hall, 14418 MacEfee Hill Road, Cascade

Proposed plans for Operable Units 1, 3, 9 and update of UXO removal at Fort Ritchie. For more info call John Fairbank, (410) 631-3440

April 9, 2001 — 7:30 p.m.

Building 810, Conference Room 3, Fort Detrick, Frederick

Restoration Advisory Board Meeting. For more info call John Fairbank, (410) 631-3440.

April 10, 2001 — 7 p.m.

Walt Whitman High School Auditorium, 7100 Whittier Blvd., Bethesda

Public hearing to receive comments on tentative determination to renew a CHS Permit (allowing temporary storage of hazardous waste) to the National Naval Medical Center in Bethesda. For more info. call Gail Castleman, (410) 631-3310

April 11, 2001 — 7 p.m.

Gwynn Park Senior High School Cafeteria, 13800 Brandywine Road, Brandywine

Public hearing to receive comments on tentative determination to renew a groundwater discharge permit to Brandywine Enterprises, Inc. for the discharge of wastewater generated by rainwater percolating through the existing rubble cell at the Brandywine/Cross Trails Rubble Landfill into groundwater via infiltration/percolation. For more info call Gail Castleman, (410) 631-3310

April 12, 2001 — 9 a.m.

Maryland Department of the Environment, Chesapeake Conference Room, 2500 Broening Highway, Baltimore

Meeting of the Controlled Hazardous Advisory Council. For more info. call Emmanuel Ofoche, (410) 631-4460.

Water Management Administration

April 4, 2001 — 8:30 a.m.

Maryland Department of Transportation, 2nd Floor Conference Room, 10 Elm St., Linthicum

Meeting of the State Board of Environmental Sanitarians. For more info call Doug John, (410) 631-3167

April 6, 2001 — 9:30 a.m. - 12:30 p.m.

State Water Quality Advisory Committee (SWQAC)

Maryland Department of Agriculture, Room 110, 50 Harry S. Truman Parkway, Annapolis. For more info call Chris Tho-

mas (410) 631-3524.

April 19, 2001 — 10 a.m.

Department of Natural Resources, 632 Wye Island Road, Queenstown

Meeting of the Board of Waterworks and Waste System Operators. For more info call Doug John, (410) 631-3167.

April 26, 2001 — 9 a.m.

Maryland Department of the Environment, TARSA's Conference Room, 2500 Broening Highway, Baltimore

Meeting of the State Board of Well Drillers. For more info call Willie Everett, (410) 631-3167.

**Persons needing special accommodation are encouraged to contact MDE's Fair Practices Offices at (410) 631-3964 five days prior to the event.

Ozone Action Days Conference

Clean Air Partners, formerly known as the Endzone Partners, will hold their Third Annual Ozone Action Days Conference on Thursday, April 26 at Holiday Inn BWI Airport from 9 a.m. to 3 p.m. Cost is \$25 and includes continental breakfast and lunch. To register or learn more call Diance Zerbe at (410) 955-0423.

The conference will focus on ozone forecasting, health effects and starting ozone action day programs in the workplace. The Clean Air Partners, a volunteer, non-profit organization, works to improve health by education the public to take voluntary actions to reduce ground level ozone.

Enforcement & Compliance Notes

Feb. 13 - March 15

Air & Radiation Management Administration

Crown Cork and Seal — Wicomico County

MDE entered into a Consent Order with the Crown Cork & Seal Company on Feb. 20, to settle air emission and reporting violations. The company was operating in violation of regulations controlling emissions of volatile organic compounds (VOC) to the atmosphere. In the order, the company agreed to pay a penalty of \$95,000. The company also agreed to pay \$4,390 for past permit fees due for past under-reporting of VOC emissions. This action will result in a decrease in VOC emissions from the plant to the atmosphere of about 45 tons per year. **Status:** Case closed. (Reference Number AQCP 00-02-01)

Peninsula Regional Medical Center — Wicomico County

MDE issued a Complaint, Order and Administrative Penalty to Peninsula Regional Medical Center on Feb. 23, for failure to comply with regulations governing the use of radiation machines. PRMC failed to notify the Radiological Health Program of an occupational overexposure to radiation. An Administrative Penalty in the amount of \$8000 has been assessed. **Status:** Complaint, order and penalty issued. (Reference Number RHP-00-11)

Robert F. Blythe, M.D. — Montgomery County

MDE issued a Complaint, Order and Administrative Penalty to Robert F. Blythe, M.D. on March 8, for failure to comply with regulations governing the use of radiation machines. Dr. Blythe failed to have the radiation machine certified in accordance with state regulations. An Administrative Penalty in the amount of \$10,000 has been assessed. **Status:** Complaint, order and penalty issued. (Reference Number RHP-00-13)

United Energy Coal — Allegany County

MDE issued a Corrective Order and a \$5,000 Penalty on March 9, to United Energy Coal, a coal processing facility, for failing to control dust and creating a nuisance. The order requires the company to submit a compliance plan within 30 days. The facility processes coal mined in the area by crushing, screening, blending and shipping it. **Status:** The company has 10 days to appeal the action. (Reference # AQCP 01-02-01)

Sligo Seventh Day Adventist Elementary School — Montgomery County

MDE issued a Corrective Order to Sligo Seventh Day Adventist Elementary School on March 13, for violating asbestos removal regulations, including failure to use a licensed contractor, failure to wet asbestos before removal, failure to clean the work area, failure to use proper equipment and containment and failure to label and separate the asbestos waste. The order requires the school to cease all activity on the project, to hire a licensed contractor, to remove the asbestos-containing debris, to perform air sampling and to close the school to all students, staff and members of the public. The school is to remain closed until MDE receives the air sampling results and authorizes the reopening of the school. **Status:** The school has 10 days to appeal the order. (Reference #01-0301)

A-L Abatement Inc — Baltimore County and Baltimore City

MDE issued a Notice of Assessed Civil Penalty in the amount of \$22,000 to A-L Abatement Inc. on March 13. The penalty resulted from violations of asbestos regulations including not properly wetting asbestos for removal, leaving asbestos debris after removal, not using proper equipment or containment, not properly labeling and separating asbestos waste from other waste, not having employees use protective clothing and equipment and not properly storing the asbestos at the project location. **Status:** The company has 30 days to appeal the penalty. (Reference #ACP-00-09A)

Water Management Administration

Bethlehem Steel Corporation, Baltimore County — MDE filed a civil Complaint and Consent Judgment in the Circuit Court of Baltimore County on March 1 regarding wastewater treatment system improvements at Bethlehem Steel's Sparrows Point facility. Under the terms of the Consent Judgment, Bethlehem Steel has agreed to a schedule for upgrading its treatment systems to ensure compliance with the new effluent limitations for Monitoring Point 101 of Outfall 001 and Outfall 014 established in the facility's reissued NPDES permit. The Consent Judgment requires that all treatment system upgrades be completed and permit compliance be achieved by July 1, 2004. Interim performance standards for certain parameters have been established. Bethlehem Steel has agreed to pay stipulated penalties for failure to comply with established milestone dates for completion of upgrades and for violations of interim effluent perfor-

mance standards. **Status:** Case closed. (Reference # Case No. 03-C-01-2186).

Benjamin's Mobile Home Park, Cecil County — MDE issued an administrative Complaint, Order and Penalty against the owner of the Benjamin's Mobile Home Park on Feb. 16 for violations of the facility's NPDES permit. The order requires the owner to submit a corrective action plan describing improvements to the facility's wastewater treatment system. MDE is seeking a penalty of \$20,000 in this case. The owner has 30 days to file an appeal to the penalty. **Status:** Case pending. (Reference # AO-01-0150).

Maple Hill Mobile Home Park, Cecil County — MDE issued an administrative Complaint, Order and Penalty against the owner of the Maple Hill Mobile Home Park on Feb. 16 for violations of the facility's NPDES permit. The order requires the owner to submit a corrective action plan describing improvements to the facility's wastewater treatment system. MDE is seeking a penalty of \$20,000 in this case. The owner has 30 days to file an appeal to the penalty. **Status:** Case pending. (Reference # AO-01-0149).

Garrett County Board of Commissioners, Garrett County — MDE and Garrett County finalized an administrative Consent Agreement on Feb. 20, regarding the Round Glade Run Landfill. Under the terms of the Consent Agreement, the County has agreed to install a wetlands treatment system at Outfall 002 by July 1, 2001. **Status:** Case closed. (Reference # CO-01-0110).

Water Pollution Penalties — Statewide

From Feb. 15 to March 15, 2001, MDE collected \$5,400 in administrative penalty payments to the Clean Water Fund in settlement

of alleged water pollution violations from five establishments.

Erosion and Sediment Control Penalties — Statewide

From Feb. 15 to March 15, 2001, MDE collected \$7,991 in administrative penalty payments to the Sediment Fund in settlement of alleged erosion and sediment control violations at five construction sites.

Waste Management Administration

Clean Rock Industries, Inc., Washington County — A Complaint, Order and Civil Penalty in the amount of \$5,000 was issued to Clean Rock Industries, Inc. on Feb. 13 for a spill of asphalt that was buried on site. **Status:** Clean Rock Industries, Inc. has 10 days to request a Hearing for the Complaint and Order and 30 days to request a Hearing for the Civil Penalty. (Reference Number COV-2001-017)

Garnet of Maryland (Waste Management, Inc.), Calvert County — A \$30,000 penalty was issued to Waste Management, Inc., on March 9 for repeated violations of the permit to operate the Calvert County Transfer Station. **Status:** Garnet of Maryland has 30 days to appeal the penalty. (Reference Number C-O-AP-01-SW-026)

Billie Williams and Catherine Williams, Baltimore City — Complaint, Administrative Order and Penalty issued on March 2, 2001 seeking a penalty of \$25,000 for violation of Maryland's reduction of lead risk in housing laws. **Status:** The Williamses have 10 calendar days if they wish to request a hearing on the order (Reference Number 00-30-2473V)

SAWYERS

Continued from Page 2

information much simpler, to derive from the public what they see as problems and solutions."

Part of Sawyers' work will also involve detailed analyses of how MDE's decisions and policies will impact each community, its residents and its businesses before an actual decision is finalized. He acknowledges that the workload before him is daunting, but feels it crucial if the department is to function properly.

"You really try to approach any job with a critical mindset," he said. "I think [the project] is needed after con-

versing with people internally. It's a big job but I think I can get it done because of the support structure that's in place."

Sawyers, a native of Jamaica, came to the United States in 1991 to earn his master's degree from Morgan State University.

After earning his degree, he participated in a one-year urban fellowship at Johns Hopkins University and began work on his doctorate.

Sawyers lives in Pikesville with his wife of three years, Greta, and his 1-year-old son, Andrew Jr.

For the Record

The following is a partial list by county of applications received by MDE and other permitting activity between Feb. 16 and March 15, 2001. For more information on these permits, please contact MDE's Environmental Permit Service Center at (410)631-3772.

Allegany

G&S COAL COMPANY, INC. - Barton, MD - New Surface Coal Mine Application

MOUNTAINVIEW SANITARY LANDFILL - 13300 New George's Creek Road, SW, Frostburg, MD 21532. (2001-WMF-0010) Solid waste municipal landfill permit

MT. SAVAGE FIREBRICK COMPANY- 17901 Mt. Savage Road, NW, Frostburg, MD 21532. (01DP0678) Surface industrial discharge permit

ROBERT APPEL PROPERTY - RFD 1 Box 319, Oldtown, MD 21555. (S-01-01-2855-A) Sewage sludge application on agricultural land

UPPER POTOMAC RIVER COMMISSION - 528 Maryland Ave., Westernport, MD 21562. (S-01-01-4228-T) Sewage sludge utilization

Anne Arundel

BITUMAR USA, INC. - 6000 Pennington Avenue, Baltimore, MD 21226. (2001-02-00234) Air quality permit to operate

BRANDYWINE SAND AND GRAVEL COMPANY - Fairmont Heights, MD (77-SP-0044-3) Transfer for a surface mine located on west side of Sands Road, 1/2 mile north of Ridge Road near Harwood

BRANDYWINE SAND AND GRAVEL COMPANY - Fairmont Heights, MD (78-SP-0018-3) Transfer for a surface mine located on 1 mile south of US Route 50, on the west side of Patuxent River Road

ESTATE OF FRANCIS T. MARTIN, AA-58 - 3019 Davidsonville Road, Davidsonville, MD 21035. (S-01-02-4774-A) Sewage sludge application on agricultural land

GOODMAN PROPERTY, AA-128A - 3357 Patuxent River Road, Davidsonville, MD 21035. Sewage sludge application on agricultural land

MAACO AUTO PAINTING & BODYWORKS - 622 Crain Highway, NW, Glen Burnie, MD 21061. (TR6389) An air permit to construct for one paint booth

MAACO AUTO PAINTING & BODYWORKS - 622 NW Crain Highway, Glen Burnie, MD 21061. (TR6381) An air permit to construct for one paint spray booth

MARYLAND AVIATION ADMINISTRATION - P. O. Box 8766, BWI Airport. (01-1026) Water permit to relocate 24" water mains along Stoney Run Road and Hanover Road, near BWI International Airport

NORTHROP GRUMMAN CORPORATION ES3 - 1212 Winterson Road, Linthicum 21090. (TR6392) An air permit to construct for one plating process

NORTHROP GRUMMAN CORPORATION ES3 - 1212 Winterson Road, Linthicum 21090. (TR6414)

An air permit to construct for one dry processing/deposition process

NORTHROP GRUMMAN CORPORATION ES3 - 1212 Winterson Road, Linthicum 21090. (TR6415) an air permit to construct for one wet process

NORTHROP GRUMMAN CORPORATION ES3 - 1212 Winterson Road, Linthicum 21090. (TR6416) an air permit to construct for one modification to photolithography process

Baltimore City

BLACK OLIVE DEVELOPMENT, LLC - 814 S. Bond St., Baltimore, MD 21231. Voluntary Cleanup Program application for a 0.1148-acre portion of the 801 S. Caroline Street property, located at 803 S. Caroline Street, Baltimore, MD 21231

COMPREHENSIVE AUTO RECLAMATION SERVICES OF MD INC - 3701 Duncanwood Lane, Baltimore, MD 21213. (2001-OPT-5600) Oil operations permit for above ground storage tank and transportation

CONSOLIDATION COAL SALES CO.- BALTIMORE TERMINAL - 3800 Newgate Ave., Baltimore, MD 21224. (01DP1477) Surface industrial discharge permit

DANIEL G. SCHUSTER, INC. - 1010 Park Ave., Baltimore MD 21201. (TR6378) An air permit to construct for one portable ready mixed concrete plant

DELTA CHEMICAL CORPORATION - 2601 Cannery Ave., Baltimore 21226. (TR6417) An air permit to construct for one water treatment chemical processing

DEXT COMPANY OF MARYLAND - 3220 Sun Street, Baltimore 21226. (TR6380) Air permit to construct for supersede PTC #24-8-0259 N issued 5/4/00

ERACHEM COMILOG, INC. - 610 Pittman Road, Baltimore 21226. (TR6365) an air permit to construct for modification to manganese oxides process

GRACE DAVISON - 5500 Chemical Road, Baltimore 21226. (TR6374) an air permit to construct for one baghouse

LIQUID TRANSFER TERMINAL, MARYLAND INC. - 3001 Chesapeake Avenue, Baltimore, MD 21226. (2001-OPT-5601) Oil operations permit for above ground storage tank and transportation

LOCKE INSULATORS, INC. - 2525 Insulator Drive, Baltimore, MD 21230. (01DP0309) Surface industrial discharge permit

SUPPORT TERMINAL SERVICES - BALTIMORE TERMINAL - 1800 Frankfurst Ave., Baltimore, MD 21226. (01DP1095) Surface industrial discharge permit

Baltimore County

BALTIMORE COUNTY DEPARTMENT OF PUBIC WORKS - 111 W. Chesapeake Ave., Towson, MD 21204. (01-1035) Water permit to construct Owings Mills Water Storage Reservoir at the end of

Tavern Keep Road

BERG CORPORATION - 6400 Rossville Boulevard, Baltimore 21237. (TR6364) an air permit to construct for one temporary crusher

E.C.C.A. CALCIUM PRODUCTS, INC. - 10000 Beaver Dam Road, Cockeysville, MD 21030. (2001-OPT-5565) Oil operations permit for above ground storage tank and transportation

LARRY E. KNIGHT, INC. - 12200 Owings Mills Boulevard, Glyndon, MD 21071. (01DP3381) Groundwater industrial discharge permit

MARYLAND MILITARY DEPARTMENT - CAMP FRETTERD - Rue Saint Lo Drive & Hanover Pike, Reisterstown, MD 21136. (01DP3183) Groundwater municipal discharge permit

POLYSTYRENE PRODUCTS COMPANY, INC. - 8863 Kelso Drive, Baltimore 21221. (TR6386) an air permit to construct for one polystyrene bead pre-expander

VINCI STONE PRODUCTS, INC. - Marriottsville, MD (88-SP-0273) Modification for a surface mine located on I-70 to exit 83, Marriottsville Road

WESTVIEW MALL - 5714 Baltimore National Pike, Baltimore, MD 21228. (01DP3202) Surface industrial discharge permit

WOODMONT ACADEMY, INC. - 10817 Davis Avenue, Woodstock, MD 21163. (01-1027) Water permit to upgrade water treatment facilities at the Woodmont Academy

Caroline

GREENSBORO SUPPLY, INC. - 702 Sunset Avenue, Greensboro, MD 21639. (2001-OPT-2363) Oil operations permit for above ground storage tank and transportation

RUTH GEISEL FARM, CR-78 - 26789 Baker Road, Denton, MD 21629. Sewage sludge application on agricultural land

WILLIAM BLANKENSHIP FARM, CR-88 - 25890 Garey Road, Denton, MD 21629. Sewage sludge application on agricultural land

WILSON STEWARD FARM, CR-70 - 12145 Gregg Road, Greensboro, MD 21639. Sewage sludge application on agricultural land

Carroll

CITY OF TANEYTOWN - 17 E. Baltimore Street, Taneytown, MD 21787. (01-1032) Sewerage permit to replace interceptor sewers along the stream, south of Route 194 and Route 140 intersection

CITY OF WESTMINSTER - KOONTZ WELL - 64 John St., Westminster, MD 21557. (01DP1835) Surface industrial discharge permit

CRANBERRY WTP - 632 Old Manchester Road, Westminster, MD 21157. (01DP3184) Surface municipal discharge permit

ELIZABETH MATHIAS FARM, CA-8 - 126 Clear Ridge Road, New Windsor, MD 21746. (S-01-06-4029-A) Sewage sludge application on agricultural land

FLOWSERVE PUMP DIVISION - 5310 Taneytown Pike, Taneytown 21787. (TR6382) an air permit to construct for one paint spray booth

FREEDOM DISTRICT WATER TREATMENT PLANT - 5631 Oakland Road, Sykesville, MD 21784. (01DP3186) Surface municipal discharge permit

MILLER ASPHALT - WESTMINSTER - 390 Vision Way, Westminster, MD 21158. (2001-OPT-3548) Oil operations permit for above ground storage tank and transportation

NORTHERN MUNICIPAL LANDFILL - 1400 Baltimore Boulevard, Westminster, MD 21157. Sewage sludge disposal permit at landfill

Cecil

A.J. TRUNZO, INC. - 1447 W. Pulaski Highway, North East, MD 21901. (TR6418) an air permit to construct for one portable crusher

W.L. GORE & ASSOC.-APPLETON EAST - 201 Airport Road, Elkton 21921. (TR6422) An air permit to construct for mixing room, coater, laminator, integral dryer

W.L. GORE & ASSOCIATES, INC. - 100 Airport Road, Elkton 21921. (TR6384) An air permit to construct for one drying oven

YORK BUILDING PRODUCTS CO., INC. - Perryville, MD (79-SP-0027) Modification for a surface mine located at the intersection of US Route and MD Route 7 near Perryville

Charles

KETTS H & M, LLC - Aquasco, MD (88-SP-0273) New permit for a surface mine located south on MD Route 5 to MD Route 6

WILLET CONSTRUCTION COMPANY, INC. - White Plains, MD (84-SP-0161) Modification for a surface mine permit located south side of Billingsley Road

Dorchester

CECIL & SYLVIA GANNON, DR-38 - Mount Zion Road, Federalsburg, MD 21632. Sewage sludge application on agricultural land

HENRY HANDLEY, DR-7 - 4115 Middletown Branch Road, Vienna, MD 21869. Sewage sludge application on agricultural land

JOSEPH H. LAYTON, JR. PROPERTY, DR-46 - 4644 Ravenwood Road, Vienna, MD 21869. (TBD-09-3604) Sewage sludge application on agricultural land

MARY & RUSSELL BAKER TRUST, DR-60 - 3241 Indian Bone Road, Cambridge, MD 21613. Sewage sludge application on agricultural land

THOMAS L. BARNEITT - Rhodesdale, MD (86-SP-0243) Renewal for a surface mine located 1/4 mile west of Brookview on MD Route 14

WILSON & NANCY COATES, DR-16 - 3981 Ocean Gateway, Linkwood, MD 21835. Sewage sludge application on agricultural land

For the Record

Frederick

CORPORATION OF WOODSBORO – Town Hall, Woodsboro, MD 21798. (01-1029) Sewerage permit to upgrade Woodsboro Wastewater Treatment Plant at Council Drive and Route 550, Woodsboro

FREDERICK ASPHALT CO., LLC – 4120 Buckeystown Pike, Frederick 21701. (TR6391) an air permit to construct for one hot mix asphalt processing facility

GRIMES PROPERTIES, LLC, 617 West Patrick St., Frederick, MD 21701. Voluntary Cleanup Program application for Schroyer's Recycling Center property located at 8005 Reichs Ford Road, Frederick, MD 21704-6666

HOOD COLLEGE – 401 Rosemont Avenue, Frederick, MD 217018575. (2001-OPT-2406) Oil operations permit for above ground storage tank and transportation

ROTOREX COMPANY, INC. – 8301-B Retreat Road, Walkersville, MD 21793. (01DP2053) Groundwater industrial discharge permit

SITE B MUNICIPAL SANITARY LANDFILL – 9031 Reichs Ford Road, Frederick, MD 21704. Sewerage sludge disposal permit at landfill

SWEENEY/FRALEY-CALICO FARM, FR –109 - 3040 Ballenger Creek Pike, Frederick, MD 21702. Sewerage sludge application on agricultural land

TATE CHRYSLER – 5629 Buckeystown Pike, Frederick, MD 21701. (TR6424) Air permit to construct for one paint spray booth

VON HOFFMANN GRAPHICS, INC. – 200 Monroe Avenue, Frederick 21701. (TR6423) Air permit to construct for one heat-set printing press

Garrett

E.S. MORAN AND SONS - Michaels Run Road, Phoenix Hill, MD 21562. Sewerage sludge application on marginal land

GARRETT COUNTY SOLID WASTE DISPOSAL & RECY. FAC. – 3118 Oakland-Sang Run Road, Oakland, MD 21550. (2001-WMF-0094) Solid waste municipal landfill permit

KEYSTONE LINE COMPANY, INC. – Springs, PA (77-SP-0131) Transfer for a surface mine located US 219, west on Sang Run Road

TRI-STAR MINING, INC. - 2278 Michael Road, Barton 21521. (TR6354) an air permit to construct for one coal crusher

Harford

A.J. TRUNZO, INC. – 910 Old Philadelphia Road, Aberdeen 21001. (TR6419) an air permit to construct for one portable crusher

BOWMAN'S BUTCHER SHOP – 3452 Churchville Road, Aberdeen, MD 21001. (01DP2471) Groundwater industrial discharge permit

CYTEC FIBERITE, INC. - 1300 Revolution St., Havre de Grace 21078. (TR6372) an air permit to construct for one baghouse

SOD RUN WWTP – 1212 Chelsea Road,

Perryman, MD 21005. Sewerage sludge transportation permit

Howard

DANIEL G. SCHUSTER, INC. – 10782 Guilford Road, Annapolis Junction 20701. (TR6379) an air permit to construct for one portable ready mixed concrete plant

LITTLE PATUXENT WATER RECLAMATION PLANT – 8900 Greenwood Place, Savage, MD 20763. Sewerage sludge treatment permit

Kent

DUANE LINDSTROM – Worton, MD (89-SP-0342) Renewal for a surface mine located in Worton

Montgomery

VERIZON MARYLAND, INC. – 6015 Montrose Road, Rockville 20852. (TR6366) an air permit to construct for one emergency generator

Prince George's

AGGREGATE & DIRT SOLUTIONS, INC. – 5900 Sheriff Road, Capital Heights, MD 20743. (TR6367) an air permit to construct for one concrete crushing/screening plant

ANDREWS AIR FORCE BASE 89 CES/CEV – 1558 Alabama Ave. - Building 1558, Andrews AFB 20762-4803 (TR6363) an air permit to construct for two emergency generators

BRANDYWINE SAND AND GRAVEL COMPANY – Fairmont Heights, MD (84-SP-0184-2) Transfer for a surface mine located on from MD Route 301

EARL CENTER EXCAVATING CO. – 14616 Old Gunpowder Road, Laurel, MD 207073131. (2001-OPT-5508) Oil operations permit for transportation

MIRANT CHALK POINT, LLC – 25100 Chalk Point Road, Aquasco, MD 20608. (01DP0627) Major surface industrial discharge permit

TODD ALLAN PRINTING CO., INC.– 5760 Sunnyside Avenue, Beltsville 20705. (TR6385) an air permit to construct for one printer

TODD ALLAN PRINTING COMPANY – 5760 Sunnyside Avenue, Beltsville 20705. (TR6362) an air permit to construct for one printing press

WASHINGTON METROPOLITAN AREA TRANSIT – 3500 Pennsy Drive, Landover 20705. (TR6355) an air permit to construct for one emergency generator

WASHINGTON SUBURBAN SANITARY COMMISSION – 14501 Sweitzer Lane, Laurel, MD 20707. (01-1033) Sewerage permit to construct gravity sewers under WSSC Contract No. 83CT1084-F in Hyattsville area

Queen Anne's

CENTERVILLE TOWN COUNCIL – 101 Lawyer's Row, Centerville, MD 21617. (01-1028) Sewerage permit to up grade Centerville Wastewater Treatment Plant to incorporate the biological nitrogen removal process and land treatment process

JACK FARMS, INC., QA-87 – Route 300 & Ben

Lee Farm Lane, Church Hill, MD 21623. Sewerage sludge application on agricultural land

WILLIAM WINTERSTEIN, QA-60 - 2320 Duhamel Corner Road, Sudlersville, MD 21668. Sewerage sludge application on agricultural land

WILLIAM WINTERSTEIN, QA-82 – 208 Cedar Tree Lane Road, Sudlersville, MD 21668. Sewerage sludge application on agricultural land

St. Mary's

AMOS R. STOLTZFUS, SM-53 – 27925 Thompsons Corner Road, Mechanicsville, MD 20659. Sewerage sludge application on agricultural land

CITGO SERVICE STATION – Cuddihy Road Building 2377, Patuxent River, MD 20670. (TR6373) Air permit to construct for one 12,000 gallon gasoline underground storage tank

JAMES, MARIE, MARION CHESLEY, SM-37 – 29665 Charlotte Hall Road, Charlotte Hall, MD 20622. Sewerage sludge application on agricultural land

LUTHER WOLFE, SM-25 – 36206 Old Chaptico Wharf Road, Chaptico, MD 20621. Sewerage sludge application on agricultural land

PATUXENT RIVER NAVAL AIR STATION - Building 2272, Patuxent River, MD 20670. (TR6376) an air permit to construct for one boiler < 10 MMBTU

PATUXENT RIVER NAVAL AIR STATION – Building 2360, Patuxent River, MD 20670. (TR6377) An air permit to construct for one boiler < 10 MMBTU

PATUXENT RIVER NAVAL AIR STATION – Building 467, Patuxent River, MD 20670. (TR6375) an air permit to construct for one boiler < 10 MMBTU

STEPHEN S. FISHER FARM, SM-50 – 760 Woodburn Hill Road, Mechanicsville, MD 20659. (TBD-18-3906) Sewerage sludge application on agricultural land

THOMAS CRYER PROPERTY, SITE 4A-SM – Off Beauvue Avenue, Leonardtown, MD 20650. Sewerage sludge application on agricultural land

Talbot

ALICE GEIB FARM, TA-59 – 9825 Councell Road, Cordova, MD 21625. Sewerage sludge application on agricultural land

BARKERS LANDING CORP., TA-53 – EASTON - 7140 Barkers Landing Road, Easton, MD 21601. Sewerage sludge application on agricultural land

CECIL & SYLVIA GANNON, TA-15 – 29118 Airport Road, Easton, MD 21601. Sewerage sludge application on agricultural land

EDWARD F. SCLICHTER – BEECHBROOK FARM, TA-35 – 2989 Jamaica Point Road, Trappe, MD 21673. (TBD-20-3980) Sewerage sludge application on agricultural land

GANNON FAMILY LIMITED PARTNERSHIP, TA-10 - 9706 Longwoods Road, Easton, MD 21601. (TBD-20-4247) Sewerage sludge application on agricultural land

Washington

FIL-TEC, INC. – 12129 Mapleville Road, Cavetown 21720. (TR6357) an air permit to construct for one bobbin winder

GREENBAUM & ROSE ASSOCIATES – 1829 Reisterstown Road, Baltimore, MD 21208. (01-1036) Sewerage permit to construct a wastewater pumping station and a force main along MD Route 34 and Chestnut Avenue

NORTHROP GRUMMAN CORPORATION ES3 – 18450 Showalter Road, Hagerstown, MD 21742. (TR6393) an air permit to construct for one paint spray booth

RAY DILLER FARM, WA-11 – 21605 Chewsville Road, Smithsburg, MD 21783. (S-01-21-4217-A2) Sewerage sludge application on agricultural land

ROBERT CARR, WA-15 – 11848 Kemps Mill Road, Williamsport, MD 21795. (S-01-21-3895-A4) Sewerage sludge application on agricultural land

TERRY MILLER – 1126 Sherman Ave. (Rear), Hagerstown 21740. (TR6413) Air permit to construct for one paint spray booth

Wicomico

MELVIN BENHOFF SONS, INC. – 28170 Old Eden Road, Eden MD 21822. (TR6369) an air permit to construct for one temporary crusher

NUTTER'S CROSSING RESIDENTIAL COMMUNITY – Dixon Road at Longview Drive, Salisbury, MD 21804. (01DP3380) Groundwater municipal discharge permit

PEPSI COLA – 330 Snow Hill Road, Salisbury, MD 21802. Sewerage sludge transportation permit

SALISBURY CHRISTIAN SCHOOL – 224 Phillip Morris Drive, Salisbury MD 21804. (01-1025) Sewerage permit to construct a wastewater treatment plant at 807 Parker road, Salisbury

Worcester

MELVIN BENHOFF SONS, INC. – 10031 Kepler Lane, Bishopville MD 21813. (TR6368) an air permit to construct for one temporary crusher

RANDALL M & ANDERSON S. HASTINGS – Berlin, MD (00-SP-0568-A) Modification for a surface mine located 5 miles south of Berlin

Out of State

ASHBRIDGE OIL CO., INC. – 335 Nees Ave., Johnstown, PA 15904. (2001-OPV-2143) Oil operations permit for transportation

GARDNER ASPHALT CORPORATION – 1100 Nanticoke Ave., Seaford, DE 19973. (2001-OPV-2312) Oil operations permit for transportation

Editor's Note: Not listed here are approximately 45 applications received for modifications to Sewerage Sludge Utilization Permits to change the sources of biosolids to be used for land application. For information on these applications, please contact the MDE's Waste Management Administration, Solid Waste Program. at (410) 631-3375

SHERWIN WILLIAMS COMPANY, THE - 2325 Hollins Ferry Road, Baltimore, MD 21230. (24-7-1067 M) Air permit to construct for one baghouse

Baltimore County

ALLISON TRANSMISSION- BALTIMORE OPERATIONS - 10301 Philadelphia Road, White Marsh, MD 21162. (97SW1408) General permit registration for stormwater associated with industrial activity

ATLANTIC PHARMACEUTICAL SERVICES - 11200 Gundry Lane, Owings Mills, MD 21117. (03-6-2482 M) Air permit to construct for modification to spray dryer system

BLUE CIRCLE CEMENT - Sparrows Point, Baltimore, MD 21219. (03-6-1069 M, 03-6-1070 M and 03-6-1090 M) Air permit to construct for modification for slag granulation, grinding & shipping operations

C.W. WRIGHT CONSTRUCTION COMPANY, INC. - 2930 Hammonds Ferry Road, Lansdowne, MD 21227. (97SW1407) General permit registration for stormwater associated with industrial activity

RUBBLE BEE RECYCLING & DEMOLITION - 6400 Rossville Boulevard, Baltimore, MD 21237. (03-6-2652 N) Air permit to construct for one crusher and one screen

structure for one crusher and one screen

SYNAGRO-BALTIMORE L.L.C. - 8201 Eastern Boulevard, Baltimore, MD 21224. (03-02152) Air quality permit to operate

WAWA FOOD MARKET #558 - 8731 Pulaski Highway, Rosedale, MD 21237. (03-9-1141 N) Air general permit to construct for three 20,000 gallon gasoline underground storage tanks

Calvert

DON'S GENERAL STORE - 3990 Hollowing Point Road, Barstow, MD 20610. (04-9-0029 n) Air general permit to construct for two 10,000 gallon gasoline underground storage tanks

LEN'S MARKET - 8995 Brooms Island Road, Brooms Island, MD 20615. (04-9-0046 N) Air general permit to construct for two 4,000 gallon gasoline underground storage tanks

LUSBY SUNOCO - 11805 H.G. Truman Road, Lusby, MD 20657. (04-9-0047 N) Air general permit to construct for two 8,000 gallon gasoline underground storage tanks

SOLOMONS ISLAND WWTP - 500 Sweetwater Road, Lusby, MD 20657. (S-01-04-4719-T) Sewage sludge transportation permit

WAWA FOOD MARKET #573 - Southern Maryland Boulevard & Ward Road, Dunkirk, MD 20619. (04-9-0045 N) Air general permit to construct for three 20,000 gallon gasoline underground storage tanks

Caroline

CEDAR MOBILE HOME PARK WWTP - 18240 Lepore Road, Marydel, MD 21649. (00DP1669) Surface municipal discharge permit

COASTAL STATION - 105 East Central Av., Federalsburg, MD 21632. (2001-OGR-4655) General permit for treated groundwater from oil contaminated sources

GREENSBORO WWTP - 13500 block Greensboro Road (Route 313), Greensboro, MD 21639. (99DP0597) Surface municipal discharge permit

RICK BREEDING EXCAVATING, INC. - BRUBAKER PIT - Route 317, Burrisville Road, 0.1 Mile East Of Route 313, Denton, MD 21629. (00MM9884) General permit registration for discharge from mineral mines and concrete plants

Carroll

CITY OF TANEYTOWN - 17 E. Baltimore Street, Taneytown, MD 21787. (01-21-1032) Sewerage permit to construct a replacement sewer along the stream, south of Route 194 and Route 140 intersection

CUNNINGHAM, WILLIAM - P.O. Box 788, Finksburg, MD 21048. (01-16-1002) Water permit to construct a water treatment plant at the Playtime Daycare Center located on the east side of MD Route 32, south of intersection of Route 32 and Route 97

FLOWSERVE PUMP DIVISION - 5310 Taneytown Pike, Taneytown, MD 21787. (06-5-0049 N) Air general permit to construct for one boiler < 10 MMBTU

GERSTELL ACADEMY - 2604 Old Westminster Pike, Finksburg, MD 21048. (98DP3276) Groundwater municipal discharge permit

HERBERT R. SHIPLEY, INC. - 255 Adam Smith Street, Sykesville, MD 21784. (99DP2670) Groundwater industrial discharge permit

Cecil

D.M. STOLTZFUS & SON, INC. - Talmadge, PA (77-SP-0065-B) Renewal for a surface mine permit located off of Maryland Route 346

ELKTON WWTP - 200 West Pulaski Highway, Elkton, MD 21921. (S-01-07-1283-F) Sewage sludge treatment permit

MARYLAND MATERIALS, INC. - 264 Quarry Road, North East, MD 21901. (07-9-0037 M) Air permit to construct for one crusher to replace existing crusher

MAYBELLE MANOR MOBILE HOME PARK - 218 Mount Zoar Road, Conowingo, MD 21918. (98DP3259) Groundwater municipal discharge permit

PORT HERMAN BEACH WTP - Port Herman Road, Port Herman, MD 21915. (97DP2335) Groundwater municipal discharge permit

TRIUMPH INDUSTRIAL PARK - 505 Blue Ball Road, Elkton, MD 21922. (01-25-1034) Sewerage permit to install ozonation facilities at the Triumph Industrial Park Wastewater Treatment Plant

Charles

BENNIGAN'S OF WALDORF, INC - 35 St. Patricks Drive, Waldorf, MD 20603. (08-8-0012 N) Air general permit to construct for one charbroiler

BURCH OIL OF CHARLES COUNTY, INC. - 8020 Matthews Road, Bryans Road, MD 20616. (2001-OPT-4000) Oil operations permit for above ground storage tank and transportation

JIMMY'S PADDOCK - 4740 Crain Highway, White Plains, MD 20695. (08-9-0091 N) Air general permit to construct for two 8,000 gallon gasoline underground storage tanks

Dorchester

DEEP WATER SUBDIVISION - PHASES I AND II - Deep Water Road, Woolford, MD 21677. (00DP2587) Groundwater municipal discharge permit

EGIDE USA, INC. - 4 Washington Street, Cambridge, MD 21613. (97SW1406) General permit registration for stormwater associated with industrial activity

MARY & RUSSELL BAKER TRUST, DR-60 - 3241 Indian Bone Road, Cambridge, MD 21613. (S-01-09-4735-A) Sewage sludge application on agricultural land

Frederick

BALLENGER CREEK WWTP - 7400 Marcie's Choice Lane, Frederick, MD 21704. (S-01-10-4103-T) Sewage sludge transportation permit

FORT DETRICK - 1412 Porter Street, Building 1412, Fort Detrick, MD 21702. (10-9-0155 N) Air permit to construct for one emergency generator

FREDERICK ASPHALT CO., L.C. AT ESSROC - 4120 Buckeystown Pike, Frederick, MD 21701. (2001-OPT-3201) Oil operations permit for above ground storage tank and transportation

For the Record

FREDERICK COUNTY DEPARTMENT OF PUBLIC WORKS - 118 North Market Street, Frederick, MD 21701. (01-22-1030) Sewerage permit to construct a gravity sewer along Gas House Pike and Sanandrew Drive

FREDERICK COUNTY DEPARTMENT OF PUBLIC WORKS - 118 North Market Street, Frederick, MD 21701. (01-12-1040) Water permit to lay water mains along Ballenger Creek Pike

GRIFFITH ENERGY SERVICES, INC - FREDERICK - 200 East South Street, Frederick, MD 21701. (2001-OPT-4184) Oil operations permit for above ground storage tank and transportation

Garrett

DEER PARK SPRING WATER, INC. - 104 Hotel Drive, Oakland, MD 21550. (00DP2139) Surface industrial discharge permit

GEORGE CREEK, INC. - DEEP MINE NO. 1 - Westernport And Aaron Run Roads, Westernport, MD 21562. (00CM9607) General permit registration for discharge from a coal mine (site preparation activities)

THE DISPENSER CORP. - 8490 Garrett Highway, Oakland, MD 21550. (2000-OPT-8145) Oil operations permit for above ground storage tank and transportation

Harford

ATLANTIC ENVIRONMENTAL SERVICES - 506 Pulaski Highway, Joppa, MD 21085. (2001-OPX-8480) Oil operation permit for sludge solidification

CROUSE CONSTRUCTION CO. INC. - 3634 Conowingo Road, Darlington, MD 21034. (2001-OPV-3090) Oil operations permit for transportation

MARYLAND HOUSE REST AREA - I-95, Aberdeen, MD 21001. (12-9-0311 N) Air general permit to construct for one groundwater remediation unit

TOWN OF BEL AIR - 705 Churchville Road, Bel Air, MD 21014. (01-23-1023) Sewerage permit to upgrade the Ellendale Street Wastewater Pumping Station and to construct a force main along Ellendale Street between Rock Spring Avenue and Franklin Street

U.S. ARMY ABERDEEN PROVING GROUND - Aberdeen Proving Ground, Aberdeen, MD 21005. (S-01-12-4153-A) Sewage sludge application on agricultural land

WAWA FOOD MARKET - Route 1 Bypass & Route 23, Hickory, MD 21014. (12-9-0310 N) Air general permit to construct for three 20,000 gallon gasoline underground storage tanks

Howard

AMOCO SS #814 - 4132 Old Columbia Pike, Ellicott City, MD 21043. (13-9-0231 N) Air general permit to construct for one soil remediation system

AMOCO SS# 814 - 4132 Columbia Pike, Ellicott City, MD 21043. (2001-OGR-4652) General permit for treated groundwater from oil contaminated sources

ASHLEIGH KNOLLS SUBDIVISION - 12100 Block Simpson Road, Clarksville, MD 21029. (00DP3102) Groundwater municipal discharge permit

DANIEL G. SCHUSTER, INC. - 10782 Guilford Road, Annapolis Junction, MD 20701. (13-6-0329

N) Air permit to construct for one portable ready mixed concrete plant

HUSKY OIL COMPANY LLC - 9171 Baltimore National Pike, Ellicott City, MD 21042. (2001-OPV-5546) Oil operations permit for transportation

OWENS CORNING - JESSUP ROOFING PLANT - 8235 Patuxent Range Road, Jessup, MD 20794. (2001-OPT-3382) Oil operations permit for above ground storage tank and transportation

Kent

CHESTERTOWN BRICK COMPANY, INC. - 525 Morgenc Road, Chestertown, MD 21620. (2000-OPS-3054A) Oil contaminated soil facility

COLLEGE HEIGHTS MOBIL - 513 Washington Avenue, Chestertown, MD 21620. (14-9-0013 N) Air general permit to construct for three 10,000 gallon gasoline underground storage tanks

Montgomery

AMOCO - STATION #1637 - 5054 River Road, Bethesda, MD 20816. (2001-OGR-1328) General permit for treated groundwater from oil contaminated sources

AMOCO SS #1637 - 5054 River Road, Bethesda, MD 20816. (15-9-0637 N) Air general permit to construct for one soil remediation system

AMOCO SS #84848 - 2222 East Randolph Road, Silver Spring, MD 20904. (2001-OGR-4654) General permit for treated groundwater from oil contaminated sources

AMOCO SS #84848 - 2222 East Randolph Road, Silver Spring, MD 20904. (15-9-0638 N) Air general permit to construct for one soil remediation system

AMOCO SS #910 - 13800 Georgia Av., Aspen Hill, MD 20853. (2001-OGR-4653) General permit for treated groundwater from oil contaminated sources

AMOCO SS #910 - 13800 Georgia Avenue, Aspen Hill, MD 20853. (15-9-0636 N) Air general permit to construct for one soil remediation system

BEN LEWIS PLUMBING - 23407 Frederick Road, Clarksburg, MD 20871. (2001-OPV-10238) Oil operations permit for transportation

CENTER DRY CLEANER - 106 Middle Lane, East, Rockville, MD 20850. (15-6-0645 N) Air general permit to construct for one dry cleaning machine

FEDERAL EXPRESS - GAIA STATION - 7331 Calhoun Place, Rockville, MD 20855. (97SW1409) General permit registration for stormwater associated with industrial activity

FINAL TRIBUTE PET CREMATORIUM - 18620 Darnestown Road, Beallsville, MD 20839. (15-1-0259 N) Air permit to construct for one crematory

Prince George's

AMOCO SS #605 - 9019 Woodyard Road, Clinton, MD 20735. (16-9-1085 N) Air general permit to construct for one soil remediation system

AMOCO SS #789 - 3600 St. Barnabas Road, Silver Hill, MD 20746. (16-9-1068 N) Air general permit to construct for one soil remediation system

AMOCO SS# 789 - 3600 St. Barnabas Road, Silver

Hill, MD 20746. (2001-OGR-4651) General permit for treated groundwater from oil contaminated sources

BAKER & KERR, INC. - 16230 Branch Court, Upper Marlboro, MD 20774. (16-6-1097 & 1098 N) Air permit to construct for two paint spray booths

BENFIELD TRACT - PG-172 - 15901 Letcher Road, Baden, MD 20613. (S-01-16-3782-M) Sewage sludge application on marginal land

BRANDYWINE MOBIL - 14330 Crain Highway, S.E., Brandywine, MD 20613. (16-9-1088 N) Air general permit to construct for two 10,000 gallon gasoline underground storage tanks

BRYAN TRACT - PG-174 - 16931 Horsehead Road, Baden, MD 20613. (S-01-16-3781-M) Sewage sludge application on marginal land

CLARK CONSTRUCTION GROUP INC. - 6407 Dower House Road, Upper Marlboro, MD 20772. (2001-OPT-5498) Oil operations permit for above ground storage tank and transportation

D.C. MATERIALS, INC. - 1914 Palmer Road, Fort Washington MD 20744. (16-6-1099 N) Air permit to construct for one portable crusher

DURON, INC. - 10406 Tucker Street, Beltsville, MD 20705. (16-7-0115 M) Air permit to construct for modification to latex processing line

LEE PIT, PG-175 - 10300 Cross Road Trail, Cheltenham, MD 20613. (S-01-16-3800-M) Sewage sludge application on marginal land

MCARDLE PRINTING CO. - 800 Commerce Drive, Upper Marlboro, MD 20774. (16-9-1096 N) Air permit to construct for one printing press

METRO READY MIX - UNIVERSITY OF MARYLAND - Regents Drive, College Park, MD 20742. (00MM9715) General permit registration for discharge from mineral mines and concrete plants

MICHAEL'S CLEANERS - 6215 Livingston Road, Oxon Hill, MD 20745. (16-6-1105 N) Air general permit to construct for one dry cleaning machine

PERCONTEE, INC. - DULEY TRACT - 14300 Gibbons Church Road, Brandywine, MD 20613. (S-01-16-3801-M) Sewage sludge application on marginal land

SILVER HILL MATERIALS - CLINTON - 5401 Kirby Road, Clinton, MD 20735. (00MM0511) General permit registration for discharge from mineral mines and concrete plants

UNIVERSITY OF MARYLAND - COLLEGE PARK - 3115 Chesapeake Building 338, College Park, MD 20742. (16-00010) Air quality permit to operate

WMATA-GREENBELT YARD - 5801 Sunnyside Avenue, College Park, MD 20740. (2001-OGR-4656) General permit for treated groundwater from oil contaminated sources

Queen Anne's

KENT ISLAND MOBIL - 1501 Postal Road, Chester, MD 21619. (17-9-0021 N) Air general permit to construct for three 6,000 gallon gasoline underground storage tanks

MILLER'S CAR WASH - 301 Evans Avenue, Grasonville, MD 21638. (17-9-0022

N) Air general permit to construct for three 6,000 gallon gasoline underground storage tanks

Somerset

PERDUE FARMS, INC. - 9891 Old Princess Anne Road, Westover, MD 21871. (19-5-0011 N) Air general permit to construct for one boiler < 10 MMBTU

PERDUE FARMS, INC. - WESTOVER - 9891 Old Princess Anne Road, Westover, MD 21871. (00DP1430) Groundwater industrial discharge permit

SOMERSET COUNTY PUBLIC SCHOOL SYSTEM - P.O. Box 69, Princess Anne, MD 21853. (2001-OPT-4450) Oil operations permit for above ground storage tank and transportation

St. Mary's

BOB'S SUNOCO - 20321 Piney Point Road, Callaway, MD 20620. (18-9-0051 N) Air general permit to construct for two 8,000 gallon gasoline underground storage tanks

COOK'S LIQUORS - 18400 Point Lookout Road, Park Hall, MD 20667. (18-9-0052 N) Air general permit to construct for two 8,000 gallon gasoline underground storage tanks

D.J.'S ONE STOP SHOP - 28035 Three Notch Road, Mechanicsville, MD 20659. (18-9-0053 N) Air general permit to construct for two 8,000 gallon gasoline underground storage tanks

DON'S SUNOCO - 22352 Three Notch Road, Lexington Park, MD 20653. (18-9-0054 N) Air general permit to construct for three 8,000 gallon gasoline underground storage tanks

NAVAL AIR STATION PATUXENT RIVER - 22445 Peary Road, Building 2272, Patuxent River, MD 20670. (18-9-0027 M) Air permit to construct for one emergency generator

PINEY POINT AQUACULTURE CENTER - 17996 Piney Point Road, Piney Point, MD 20674. (00DP2622) Surface industrial discharge permit

VILLAGE LIQUORS - 25731 Budds Creek Road, Chaptico, MD 20621. (18-9-0050 N) Air general permit to construct for two 10,000 gallon gasoline underground storage tanks

WAWA FOOD MARKET - Three Notch Road & Rue Purchase Road, Lexington, MD 20653. (18-9-0047 N) Air general permit to construct for three 20,000 gallon gasoline underground storage tanks

WAWA FOOD MARKET - 30320 Three Notch Road, Charlotte Hall, MD. (18-9-0046 N) Air general permit to construct for three 20,000 gallon gasoline underground storage tanks

Captain carries cleanup message to Dundalk

Captain Cleanup, MDE's mascot, visited Eastwood Elementary School in Dundalk on March 9, where he did an interactive recycling demonstration to about 200 students. Above right, Captain Cleanup and students encourage a young man to reuse an old shirt either as a paint smock, for rags or as a donation to a charity. Above left, students raise their hands to answer the Captain's questions. For more information on Captain Cleanup or to book a presentation call (800) 633-6101 ext. 4100.

Nominations being taken for the Tawes award

Nominate someone for the 2001 Tawes Award for a Clean Environment. The award is open to any individual, civic, community or non-profit entity that has demonstrated outstanding efforts to enhance Maryland's environment. Nomination deadline is April 15. For more information call (410) 269-1850.
