Ft. Detrick puts freeze on contaminants

By John S. Verrico

In a remote section of a military base, accessible only via a bumpy dirt road lined with wire fences through cow pastures and woodland, there sits a huge, air-tight canopy tent. Giant vacuums gently suck the air out of the football-field sized structure, and filter it through several layers and types of activated charcoal before releasing the cleaned air into the atmosphere.

Inside the main tent is a 4,000 cubic yard area of dirt surrounded by ice-covered pipes protruding from the ground outlining a tennis-court sized area. Heavy backhoes and specially designed earth movers are staged by men wearing bright yellow 'moon-suits' who are waiting to begin excavating.

In another smaller tent structure — attached to the larger one by an enclosed conveyor belt — is a high-tech laboratory. Here, technicians manipulate rubber gloves behind blast screens to examine and test samples of unknown chemicals to be shuttled in on the belt.

It's not Area 51. It's Area B-11, at Fort Detrick in Frederick, Md. — where the military is excavating chemical waste from the ground that had been buried there between 1955 and 1970.

Fort Detrick officials were aware that chemical waste had been buried in the former landfill, but were uncertain of its scope. In concert with the Army Corps of

Have a merry, 'green' holiday season

Instead of spending more money on gifts and decorations, save money and the environment by using some creativity to make recycled ornaments and gifts from household items.

Save money and the environment by recycling what you already have at home

By Darshana Patel

As the holidays approach, think of creative ways to make the holiday season environmentally sound. In addition to wishing you a happy and safe holiday season, the Maryland Department of the Environment's (MDE) Waste Management Administration offers some suggestions on how to have more environmentally friendly holidays.

- **Make ornaments by recycling CDs.** Decorate the shiny side of a CD with glitter glue designs and cover the other side with old wrapping paper or wallpaper. Slip a decorative string through the middle and create a loop for hanging. Or trace small stockings, bells, trees or the like on the shiny side of the CD, cut them out using a small electric saw. Smooth edges, punch a hole in the corner and slide through a string for hanging. Or create a garland by stringing together all the ornaments.

- **Make ornaments by recycling film canisters.** Poke a hole through the lid and insert a decorative string for hanging. Decorate the canister with glitter glue or beading.

- **Make gift containers.** Recycle coffee cans, film canisters or cardboard boxes as gift containers. Decorate the containers with old wrapping paper, last year's holiday cards or remnant wallpaper.

- **Make new greeting cards or gift cards using old holiday cards.** Save the fronts of

Businesses are honored for environmental work

By Laura Armstrong

Businesses for the Bay, a voluntary program promoting pollution prevention at facilities throughout the Chesapeake Bay watershed, continues to expand its membership and post greater pollution prevention results each year.

With 443 members (109 from Maryland), the program is well on its way to meeting a goal of 1,000 members by 2005. This year, participants reported reducing 22 million pounds of waste, recycling 1.26 billion pounds of materials and conserving over 256 million gallons of water in 2000 at a cost savings of \$15 million. Members also reported having trained 8,124 of their employees in pollution prevention practices.

"Businesses for the Bay is a critical supporting program for reaching the goals of the Chesapeake Bay agreements," said Robert Dunn, of DuPont, chair of the Businesses for the Bay workgroup.

As such, the program seeks to make Businesses for the Bay a household name with a logo recognizable throughout the watershed.

Pollution prevention, or P2, is defined as practices that reduce or eliminate pollution prior to recycling, treatment, or disposal and includes increased efficiency in the use of raw materials, energy, water and the conservation of natural resources. Seventeen organizations were recognized for their successes in these areas at the third annual Businesses for the Bay meeting, which took place Nov. 5 in Hershey, Pa. Five of the winners — Procter and Gamble, Target Corporation, Acme, Struever Bros. Eccles & Rouse and Watercolor Lavender Farm — have facilities in Maryland.

Procter and Gamble is the only three-time *Businesses for the Bay* award winner. They were honored this year for making further significant reductions in hazardous waste in their nail polish production. By improving their inventory and ordering methods, Procter and Gamble reduced their nail polish bulk hazardous waste by 307,587 pounds (93 percent), reduced nail polish finish stock hazardous waste by 290,598 pounds (83 percent) and non-hazardous product waste by 2,036,980 pounds (40 percent). By installing speed controls for cooling towers, power factor correction, and frequency drive on 100-horsepower motors, energy use was reduced by 1.5 million kilowatt hours. All employees receive Site Environmental Awareness Training and are asked to focus on waste source/cost reductions at both work and home.

The Target Corporation's size and

MDEnvironment PHOTO BY RICHARD MCINTIRE

Maryland Businesses for the Bay Award Winners (l to r): Curt Elliott, Procter & Gamble; Richard Collins, Director, MDE Waste Management Administration; Sandi Van Horn, Struever Bros. Eccles & Rouse, Inc.; Jim Ryan, Albertson's Inc.; Don Welsh, EPA Regional Administrator, Region III; Jo Asher, Watercolor Lavender Farm; Marge Pearce, Maryland Small Business Development Center Women's Business Program; Steven Mittler, Target Corp.

strong market base has allowed them to facilitate changes in the manufacturing industry, particularly in the area of product package reduction. Almost 100 percent of the clothing Target sells arrives without excess packaging. Stores recycle three-quarters of their waste weight and donate non-saleable items to shelters, schools, and humane societies. Target also provides environmental education to store employees including "EcoLogic" a quarterly environmental newsletter. An employee that expends extra efforts in waste reduction is considered an "Eco Hero" and is acknowledged in the newsletter and by having a tree planted in their name in the Chippewa National Forest. Target has implemented better building practices including energy efficiency measures in its new headquarters and several new stores. In 2000, Target incorporated training for its new buyers to increase awareness of recycled content products, as well as how to talk to vendors about environmentally preferable product options.

Albertson's, Inc., the country's second-largest food and drug retailer, and Acme, it's eastern division company, spearheaded development of an unwaxed standard display-ready produce box to replace the waxed corrugated produce boxes that have been the industry standard for decades. Albertson's encouraged and assisted the Fibre Box Association (FBA) to develop an improved corrugated box for shipping produce. The outcome was a corrugated package that provides greater strength and durability

and is fully recyclable. The produce box is manufactured from 40-60 percent recycled paper, completing the recycling loop. Albertson's is continuing its efforts by working to replace traditional containers with recyclable packaging in the poultry and seafood industries.

Struever Bros. Eccles & Rouse is a development and construction company that specializes in the adaptive reuse of underutilized and/or historic sites. In 2000, Struever Brothers focused on redeveloping Tide Point, a former soap-making plant in Baltimore. Tide Point is now a mixed-use, urban campus and a prime example of the intent of Maryland's Smart Growth Program. The project is located in an Enterprise Zone Priority Funding Area in Baltimore City and is also considered a "brownfield."

Green space was sprinkled throughout various elevations of the landscape to help control runoff to Baltimore Harbor. Struever Bros. has opened its office there and participates in the Maryland Department of Housing and Community Development's Live Near Your Work Program.

Jo Asher and her family run Watercolor Lavender Farm, Maryland's first lavender farm. To halt the runoff of soil to a nearby stream, they planted grass in all areas plowed by previous owners and installed a fence to prevent horses from reaching the stream. They also created stream buffers averaging 100 feet and set aside acreage for wild-

MDE honors Kiwanis Builder's Club for contributions

By Darshana Patel

Maryland Department of the Environment (MDE) honored the Kiwanis Builder's Club of North East Middle School in Eastern Maryland for their outstanding recycling efforts.

In a ceremony on national Make a Difference Day Bill Schmidt, Regional Manager, Waste Management Administration presented the Builder's Club with an award for their recycling efforts. The club has collected 2 million pounds of recyclables since its inception in 1987.

The ceremony was to honor the current 25 club members that have made a true difference in their community. The Mayor of North East, County Commissioners, and MDE attended the Builder's Club celebration on Oct 27.

From left to right County Commissioner President Nelson Bolender, Mayor of North East Robert McKnight, County Commissioner Harry Hepbrorn, Bill Schmidt, MDE's Eastern Shore Regional Manager, Ryan Edwards, president North East Middle School Kiwanis Builder's Club and Robert Shick, advisor for the Kiwanis Builder's Club with other members of the Kiwanis Builder's Club during an awards ceremony on national Make a Difference Day. The club was honored by MDE for its continued support and participation in various recycling programs. Club members have collected more than 2 million pounds of recyclables since the club was established in 1987.

Ask

By Andrew Gosden

This column is focused on questions concerning business environmental compliance issues. Since many questions may require more space than is available to answer fully, these answers will often provide contact information for more detailed information. Please submit questions to Maryland Department of the Environment, EPSC – Ask MDE, 2500 Broening Highway, Baltimore, Md. 21224. You may also e-mail questions to EPSC@mde.state.md.us with Ask MDE in the subject line. It is not necessary to identify yourself or your business. Questions that are of general interest will be answered in this column.

Q. I just purchased an existing dry cleaning store. What do I need to do for MDE?

A. Most dry cleaners have to deal with air quality and hazardous waste issues. Both of these programs involve notification and record keeping requirements. When purchasing a new store the owner information for both of these must be updated and it is also a good idea to check the existing records. Be sure to keep copies of what is sent to the department. Ideally, you should make sure the owner has the required permits and paperwork before you buy the business.

To update the owner information for the air quality permit use the form for the Air Quality General Permit to Construct for Perchloroethylene Dry Cleaning Equipment. Write "Registration" at the top of the form and send it to MDE, attention ARMA Data Management. There is no fee for the registration update, however, if there are any changes to the location or equipment, you will need a new permit and will have to pay a \$500 permit fee. For additional assistance in completing the form contact the Small Business Assistance Program at (410) 631-3772 or the Air Quality Compliance Program at (410) 631-3220.

To update the EPA hazardous waste identification number you will need to use form 8700-12 Notification of Regulated Waste Activity that is available from MDE or its website, www.mde.state.md.us. When you are submitting this update be sure to mark the box for subsequent notification in section I and the change of owner indicator in section VII.D. Please note that for subsequent notifications you are required to complete sections I, II, IV, VI, VII, IX and X. You are also required to complete any other

See ASK, Page 4

AWARDS

Continued from Page 2

life habitat. To minimize erosion, lavender is planted between 6-foot grass strips. Only the planting areas are plowed and the plants are double cropped. The farm does not use pesticides on the lavender and only a small portion of the farm receives targeted herbicide applications in the lavender strips. The lavender products produced on the farm all carry the motto: "We are all the keepers of the lighthouse. The light of the decisions we make today will grant the Chesapeake safe passage into the future." Proceeds from some of the lavender products go to non-profit organizations.

A leadership award was also presented at the annual meeting to Steve Farkas, who served as the *Businesses for the Bay* Workgroup Chairman from 1996-2001 while representing Baltimore Gas and Electric. Farkas also received *Businesses for the Bay's* first Mentor of the Year in 1997.

MDE congratulates all the award winners and encourages organizations in Maryland, including non-profit groups, government facilities, schools, and businesses of all types to join this team of forward-looking organizations within the Chesapeake Bay watershed who are committed to implementing pollution prevention in their daily operations. It's free and easy to join.

Simply visit www.b4bay.org or call the Chesapeake Bay Program at 1-800-968-7229, ext. 719, or MDE at 1-800-633-6101, ext. 4119 to learn more.

Businesses for the Bay award winners

- Outstanding Achievement Award for Large Business: Siemens Automotive Corporation, Newport News, Va.
- Significant Achievement Award for Large Business (Tie): Merck & Co., Inc., Cherokee Facility, Danville, Pa. and Proctor & Gamble Cosmetics, Hunt Valley, Md.
- Honorable Mention for Large Business P2 Project: GKN Sinter Metals, Inc., Emporium, Pa. and Lee's Carpets, Glasgow Plant, Glasgow, Va.
- Outstanding Achievement for Retail Business: Target Corporation, Target Stores, HQ Minneapolis, Mn. Stores in Md., Pa. and Va.
- Significant Achievement for Retail Business: Albertson's Inc., HQ Boise, Idaho Stores in Md. and Pa.
- Outstanding Achievement for Nutrient Reduction: Merck & Co., Inc., Stonewall Plant, Elkton, Va.
- Outstanding Achievement for Medium Business: Beers/Heyward & Lee Construction Company, Richmond, Va.
- Significant Achievement for Medium Business: Struever Bros. Eccles & Rouse, Baltimore, Md.
- Outstanding Achievement for Small Business: Watercolor Lavender Farm, White Hall, Md.
- Significant Achievement for Small Business (Tie): Electro-Platers of York, Inc., Wrightsville, Pa. and Southern States, Chesapeake Facility
- Outstanding Achievement – Government Facility: Marine Corps Base Quantico, Va.
- *Businesses for the Bay* Mentor of the Year: Jim Houstoun, Pretreatment Information Exchange, Borough of Catasauqua, Pa.
- *Businesses for the Bay* Leadership Award: Steve Farkas
- *Businesses for the Bay* Achievement Award: Ernest Hartman

Look for the Loop campaign begins in Prince George's

New campaign is designed to encourage consumers to buy recycled products

By Kelly Schaefer and Darshana Patel

The Maryland Department of the Environment (MDE) launched a new pilot program Oct. 30 designed to help consumers find products that are made from recyclables.

The Look for the Loop program, which was unveiled at the Recreational Equipment Inc. (REI) store in College Park, with MDE in partnership with Prince George's Department of Environmental Resources (DER).

Look for the Loop Kick-off event brought together the Maryland Recyclers Coalition, University of Maryland, Maryland Environmental Service, Maryland National Capital Parks and Planning Commission and the University Park Mayor along with county officials from Harford, Howard and

MDENVIRONMENT FILE PHOTO

From left to right, Samuel Wynkoop Jr., Director, DER, Kelly Schaefer of MDE, Chelo Cole, Section Head of Waste Reduction, DER, Marilyn Ryback, DER, Scott Mitchell, Manager, REI and Horacio Tablada, Deputy Director of MDE's Waste Management Administration at the REI store in College Park for the kickoff of the Look for the Loop campaign.

Calvert counties.

"REI is thrilled to help kick-off Look

for the Loop program. Our mission to foster stewardship and appreciation of

our environment makes this a great and obvious partnership," REI Retail Manager Scott Mitchell said.

Tours of the College Park Look for the Loop retailers, REI, My Organic Market and College Park Florist, gave attendees the opportunity to see shelf tags, brochures and placards that increase consumer awareness of buying recycled products.

Look for the Loop shelf tags identify products with recycled content, such as paper, greeting cards, carpet, tires and toner cartridges.

Consumers close the recycling loop when buying Look for the Loop products.

Buying recycled products, closing the recycling loop, stimulates markets for reclaimed materials, reduces the volume of landfilled materials and conserves natural resources and energy.

For more information on Look for the Loop, products of recycled material, and program participants, consult MDE's website at www.mde.state.md.us/was/recycle/lookfortheLoop/index.htm.

Response team earns governor's praise for train wreck work

MDENVIRONMENT PHOTO BY TRACY NEWMAN

Members of MDE's Emergency Response Division (ERD) were honored by MDE Secretary Jane Nishida with citations from the office of Gov. Parris N. Glendening. The group was selected for the honor because of their endless hours of hard work when a CSX train derailed and caught fire inside a Baltimore City tunnel. From left to right, Alan Williams, Mike Sharon, Art Mayfield, Secretary Jane Nishida, Neil Jones, Terry Haney, Mike Imbierowicz, Bob Swann and Jeff Molner.

ASK

Continued from Page 3

information that may have changed, such as section V, Installation Contact. Contact the hazardous waste program at (410) 631-3344 or the Environmental Permits Service Center (EPSC) at (410) 631-3772 if you need assistance completing the form.

Also check the record keeping from the previous owner. You do not want to be in the position of having problems during an inspection because the previous owner did not keep proper records. If problems with the records are discovered, disclose these problems in writing to MDE, along with the procedures you will use to prevent these problems re-occurring under your ownership. By taking these steps you may be able to put these issues behind you before an inspector shows up.

The EPSC can provide assistance with these and other environmental transfer of ownership issues. The department also has a Small Business Pollution Compliance Loan Program that may be able to finance an upgrade to your existing dry cleaning machines.

Although the information provided in this column is generally accurate for the specific situations that are addressed, it is not a substitute for compliance with any requirements. Due to the complex nature of environmental regulations, call the Maryland Department of the Environment through the Environmental Permits Service Center with any questions about the permit or how the regulations may apply to a specific situation.

Check out the *MDE* environment on the web: www.mde.state.us/press

GIFTS

Continued from Page 1

greeting cards you receive and use them to make new cards or gift tags. To make new cards, paste the picture on a folded piece of construction paper. In the inside paste a sheet of folded writing paper for your greeting. Or make the fronts of cards into new greeting postcards by drawing lines for address and saving space for the stamp.

- **Make gift bags.** Decorate brown paper bags with old wrapping paper or wallpaper remnants and use as gift bags.

- **Recycle your natural Christmas tree.** Consult your county recycling coordinator about grinding the tree limbs and trunk into mulch. Before sending the tree for mulching, place it near a bird feeder to provide shelter to birds.

- **Reduce your use of materials.** Use old newspapers or brown paper to cover packages. Write a greeting and "gift tag" right on the package. Or use gift bags that can be reused year after year. Or reuse pieces of large gift-wrap from the previous year.

- **Buy recycled content products whenever possible.** Greeting cards, gift-wrap and journals of recycled material are easy to find. Also buy rechargeable batteries in place of standard batteries for toys and cameras.

- **Recycle electronics.** Recycle your old computers and televisions as you replace them with new gifts.

For more gift ideas and holiday craft projects consult www.make-stuff.com or www.geocities.com/RainForest/5002/christma.html. For information on recycling Christmas trees and other materials, consult MDE's recycling webpages at: www.mde.state.md.us/was/recycle.

Schmidt takes home 2001 Governor's Award

MDENVIRONMENT PHOTO BY DON MAULDIN

Bill Schmidt, the Eastern Shore regional manager for MDE's Waste Management Administration, was honored with a 2001 Exceptional Employees Achievement Award at the 2001 Governor's Annual Awards and Employee Recognition Training Conference held Nov. 20 at the Baltimore Convention Center. Schmidt was recognized for his job coordinating environment investigation and remedial actions at the Bainbridge Naval Training Center in Port Deposit, which allowed the 1,200 acre property to be redeveloped.

DETRICK

Continued from Page 1

Engineers and the Army Environmental Center, Fort Detrick staff began excavating the site in 1997 with a backhoe and personnel in breathing apparatus.

In short order, the crew found beakers, drums and other evidence of waste chemicals.

"It was so bad," said Lt. Col. Jeffrey Springer, chief of Fort Detrick's Safety, Environmental and Integrated Planning Office, "we decided to stop because of the danger [to personnel and the environment]."

Continued excavation of the buried chemicals without some sort of barrier beneath them would likely increase groundwater contamination, so Fort Detrick was faced with an interesting problem. They elected to create a barrier of frozen soil beneath the buried waste. Using sophisticated pipe structures tunneling into the ground in a tennis court sized "V" beneath the waste pit, the soil will be frozen all the way down to the bedrock - a depth of about 35 feet. The deepest part of the chemical waste pit is about 18 feet. This barrier will prevent any migration of contaminants into the groundwater.

The vapors released in the 1997 test trenching also led the Army to install the huge containment structure over the entire work site. Louvers on one end of the structure allow air to flow in, while eight large fans pull the air out of the other end and into one-micron particulate filters and activated carbon to remove dust and volatile organics. The filtration system is designed to change the entire volume of the air inside the containment structure every four hours.

The actual excavation work began in early November. Soil and chemicals are being excavated slowly so as to prevent spillage and chemical release. The material is being sifted for chemical containers, which will be analyzed in the attached laboratory to determine contents. The remaining material, which according to Army staff includes "anything smaller than a mayonnaise jar," will be shredded and spread out and dried to ensure there are no chemical reactions. All material ultimately will be disposed of in a hazardous waste facility in Canada.

The \$4.8 million environmental restoration project also includes a series of other safety features such as blast shields, safety screens and foam suppression units.

"The work at Fort Detrick is being done using innovative technologies that provide for the highest level of safety to workers and the environment," said Karl Kalbacher, administrator for the Maryland Department of the Environment's Environmental Restoration and Redevelopment Program. "MDE is pleased to be partners with the Army and Environmental Protection Agency in this important and impressive project."

Public hearings & meetings

Technical & Regulatory Services Administration

December 3—9 a.m. to Noon

MDE, Chesapeake Conference Room, 2500 Broening Highway, Baltimore. Environmental Noise Advisory Council and the Interagency Noise Control Committee. For more info. call Robin Grove, (410) 631-3680.

Commission. For more info. call Tracy Smith, (410) 631-3847.

January 8, 2002—10 a.m.

First Floor Auditorium, 300 W. Preston Street, Baltimore. Public hearing to receive comments on proposed amendments to COMAR 26.10.01 - .04 Oil Pollution and Tank Management. For more info. call Gail Castleman, (410) 631-3314 or Herb Meade, (410) 631-3386.

Water Management Administration

December 7—9:30 a.m. to 12:30 p.m.

Chesapeake Bay Foundation, Merrill Conference Center, 6 Herndon Avenue, Annapolis. State Water Quality Advisory Committee (SWQAC). For more info. call Chris Thomas, (410) 631-3524.

***Persons needing special accommodation are asked to call MDE's Fair Practices Office at (410) 631-3964 five days prior to the event.*

MDE posts final 2002 standard permit application turnaround times

Air and Radiation Management Administration

General Permit to Construct--30 days
Air Quality Permit to Construct
--w/o expanded public review --3 months
--w/expanded public review but limited public interest--6 months
--w/expanded public review and extensive public interest--11 months
New Source Review Approval --10 months
Prevention of Significant [air quality] Deterioration--14 months
Air Quality State Permit to Operate--3 months
Part 70 (Title V) Permit to Operate
--36 months for new permits
--18 months for renewals and modifications
Asbestos Contractor License--60 days
Asbestos Training Provider Approval--3 months
Incinerator Operator Certification--30 days
Incinerator Training Course Approval--60 days
Fleet Inspection Station License--30 days
Certified Emissions Repair Facility Certification--30 days
Master Certified Emissions Technician Certificate--30 days
Radiation Machine Facility Registration
--90 days for dental/veterinary machines
--6 months for all other machines
Certification of Machines Emitting Radiation--6 months
Radioactive Materials License
--7 months
--45 days for amendments and terminations
Private Inspector License For Inspecting X-Ray Machines--60 days
Reciprocal Recognition of Out-of-State Radioactive Material Licenses
--21 days

Waste Management Administration

State Refuse Disposal Permit
--7 months for transfer stations
--9 months for processing facilities
--9 months for processing facilities & transfer stations
--12 months for incinerators
--12 months for land-clearing debris landfills
--24 months for industrial landfills
--36 months for rubble landfills
--36 months for municipal landfills
Groundwater Discharge Permit for Rubble Landfill--6 months
Sewage Sludge Utilization Permit
--45 days - research
--4 months - transportation
--5 months - landfill disposal
--6 months - distribution
--10 months - land application
--23 months - permanent facility
--23 months - incineration
--24 months - innovation
Natural Wood Waste Recycling Facility Permit--9 months
Natural Wood Waste Recycling Facility General Permit--30 days
Scrap Tire Hauler--60 days
Scrap Tire Collection Facilities (General and Secondary)--60 days
Scrap Tire Solid Waste Acceptance Facility--7 months
Scrap Tire TDF/Substitute Fuel Facility--7 months
Scrap Tire Primary Collection Facility--9 months
Scrap Tire Recyclers--9 months
Oil Operations Permit--90 days
Oil Operations Permit for Oil-Contaminated Soils--90 days
Oil Transfer License--30 days
General Permits for Oil Control Program

Wastewater Discharge Permit-20 days
Surface Water Discharge Permit for Oil Terminals--150 days
Ground Water Discharge Permit for Oil Terminals--150 days
Underground Storage Tank (UST) Technician and Remover Certification--20 days
Controlled Hazardous Substances Facility Permit--26 months
Hazardous Waste; EPA Identification Number--30 days
Controlled Hazardous Substances Hauler, Vehicle and Driver Certification--30 days
Special Medical Waste (SMW) Hauler and Vehicle Certification--30 days
Lead Paint Accreditations--30 days
Lead Paint Training Course Approvals--60 days
Lead Paint Instructor Approvals--30 days
Voluntary Cleanup Program
--60 days to determine if application is accepted
--120 days to review action plan

Water Management Administration

General Permit Registration for Industrial Wastewater Discharge
--150 days for concentrated animal feeding operations
--60 days for storm water permits
--90 days for all other general permits
Individual Permit for Wastewater Discharges
--9 months for new minor facilities
--12 months for new major facilities
--14 months for renewal of ground water discharge permits
Toxic Materials Permit--45 days
Water and Sewerage Construction Permit--3 months
Water Appropriation and Use Permit
--60 days for under 10,000 gallons per day
--12 months for over 10,000 gallons per day
Coal Mining Permit--12 months
Surface Coal Mining Blaster Certification--immediately on passing exam
Coal Mining Operator License--30 days
Non-Coal Mining Permit--7 months
Non-Coal Mining License--30 days
Oil and Gas Exploration and Production--5 months
Well Construction Permit--30 days
Drinking Water Sampler Certification--immediately on passing exam
Nontidal Wetlands (Nontidal Wetlands and Waterways Permits)
--3 months for minor projects
--6 months for major projects
Tidal Wetland Licenses and Permits
--30 days for minor projects
--6 months for major projects
Erosion/Sediment Control and Stormwater Management Plan Approvals --6 months
Erosion and Sediment Control - Responsible Personnel Certification--2 weeks
Erosion and Sediment Control - Responsible Personnel Training Program Approval--4 weeks
General Permit for Construction Activity--2 days
Municipal Separate Storm Sewer Permit--12 months
Dam Safety Permit--6 months
Environmental Sanitarian License
--45 days for new licenses
--30 days for renewals
Waterworks and Waste Systems Operator Certification
--45 days for new certificates
--30 days for renewals
Well Driller License
--6 months for new licenses
--30 days for renewals

Enforcement & Compliance Notes

--October 15 to November 15, 2001--

Air & Radiation Management Administration

United Energy Coal, Allegany County – MDE entered into a Consent Order with the United Energy Coal Company on Oct. 22. United Energy operates a coal processing facility just outside of Frostburg that had been cited by MDE inspectors for failing to control dust and creating a nuisance. Under the terms of the Consent Agreement, United Energy agrees to take extensive corrective action to reduce dust emissions and also agrees to pay a \$7,500 penalty. **Status:** Case closed. (Reference #AQCP 01-02-01)

The Berg Corporation, Frederick County – MDE issued a Notice of Proposed Civil Penalty to The Berg Corporation on Oct. 29 for installing and operating a concrete crushing and screening plant at a construction site in Frederick County without first obtaining an air quality permit to construct and permit to operate. The violation was discovered during an MDE inspection of the facility. The proposed penalty amount is for \$3,500. Berg has 10 days to request a meeting to discuss the proposed penalty. **Status:** Open (Reference #AQCP 01-17)

Amcors Flexible Packaging, Washington County – MDE issued a Corrective Order and a Notice of Proposed Civil Penalty to Amcor on Oct. 30 for violations of air quality regulations at its flexible packaging plant. The company was cited for not notifying the department in a timely manner of a change of ownership, for not conducting required testing, and for not submitting certain reports required by its permits. The order requires the company to submit a plan within 30 days to address all violations cited. The proposed penalty amount is for \$35,000. Amcor has 10 days to appeal the order and request a meeting on the penalty. **Status:** Open (Reference #AQCP 01-09-01)

Dave's Tree Service, St. Mary's County – MDE issued a Corrective Order and a Notice of Proposed Civil Penalty to Dave's Tree Service on Oct. 30 to address open burning violations. Dave's Tree Service has been cited numerous times by MDE and the St. Mary's County Health Department for open burning violations including burning without a permit, creating a nuisance, and burning off-site materials. The order requires Dave's Tree Ser-

vice to submit a plan within 30 days to address all violations cited. The Proposed Penalty amount is for \$5,000. Dave's Tree Service has 10 days to appeal the order and request a meeting on the penalty. **Status:** Open (Reference #AQCP 01-08-01)

Lesaffre (formerly Red Star Yeast), Baltimore City – MDE entered into a Consent Order with Lesaffre on Nov. 6 to resolve air quality violations. The facility failed to perform and document calibrations of monitoring equipment, and failed to conduct manual sampling of the air stream when the on-line monitor was out of service. The Consent Order requires the company to pay a penalty of \$10,000 and to take corrective actions to prevent similar occurrences in the future. MDE's action was initiated as a result of information contained in a required Quarterly Report. **Status:** Case closed. (Reference #AQCP CO-01-11-01)

Helping Hands Veterinary Clinic, Frederick County – MDE issued a Notice of Proposed Civil Penalty to Helping Hands Veterinary Clinic on Nov. 15 for operating an illegal incinerator without a permit. MDE inspected the facility and observed the operation of an unpermitted incinerator. MDE reviewed Helping Hands' permit application and determined that the incinerator could not meet Maryland's technical requirements and denied the permit application. Frederick County also denied operation of the incinerator on zoning grounds. The proposed penalty is in the amount of \$5,000. Helping Hands has 10 days to request a meeting to discuss the proposed penalty. **Status:** Open (Reference #AQCP 01-16)

Davis Concrete, Harford County – MDE issued a Corrective Order and a Notice of Proposed Civil Penalty to Davis Concrete on Nov. 15 for violations of air quality regulations at its Harford County cement production plant. The company was cited for failure to control dust and creating an air pollution nuisance. The order requires the company to submit a plan within 30 days to address all violations cited. The proposed penalty amount is for \$28,000. Davis has 10 days to appeal the order and request a meeting on the penalty. **Status:** Open (Reference #AQCP 01-08-02)

Water Management Administration

Town of Centreville, Queen Anne's County – MDE and the Town of Centreville entered into a Consent Order on Oct. 30, regarding biological nutrient removal (BNR) and upgrades to expand treatment capacity at the Centreville Wastewater Treatment Plant. The conditions of the Consent Order anticipate that the upgrades will be completed by Dec. 31, 2002. The Consent Order allows for interim performance standards for total suspended solids, biochemical oxygen demand and total phosphorus. **Status:** Case Closed (Reference #CO-02-0041)

Interstate Corrpac, Inc., Dorchester County – MDE entered into a Settlement Agreement with Interstate Corrpac on Oct. 29, to resolve alleged violations of the facility's pretreatment agreement with the city of Cambridge. The Settlement Agreement requires Interstate Corrpac to pay \$25,000 to the Clean Water Fund in resolution of ink discharges to the Cambridge Wastewater Treatment Plant. **Status:** Case Closed (Reference #SA-02-0001)

Bowley's Quarters Condo Marina, Baltimore County – MDE entered into a Consent Order with Bowley's Quarters Condo Marina on Oct. 24 to resolve effluent limit and monitoring violations of the facility's National Pollutant Discharge Elimination Process (NPDES) discharge permit. The terms of the Consent Order require the facility to comply with its NPDES permit. If the facility has any additional effluent limit violations, it must supply a plan and schedule for upgrades to ensure compliance with the NPDES permit. The facility is required to pay \$1,000 to the Clean Water Fund in resolution of the effluent limit violations. In addition, MDE is holding \$4,000 in abeyance to be paid if the facility does not complete all requirements of the Consent Order. **Status:** Case Closed (Reference #CO-02-0014)

Weems Creek Medical Center, Anne Arundel County – MDE entered into a Consent Order with the Weems Creek Medical Center on Oct. 16, regarding future connection to the Anne Arundel

County sanitary sewer system and to cease operation of the current septic system. The terms of the Consent Order require the facility to pump and haul sewage to an approved permitted, off-site disposal site until the facility can be connected to the county sewer system, an alternative on-site wastewater treatment system is constructed, or holding tank(s) can be installed. In addition, the owner of the facility is required to establish an escrow account in the amount of \$10,000, which will be used to reimburse part or all of the costs incurred by nearby private residential property owners, for the installation of new and deeper wells on their properties. Any money remaining in the escrow account after Oct. 16, 2003 shall be paid to the Maryland Clean Water Fund. **Status:** Case Closed (Reference #CO-02-0068)

J & V Investment Company, Worcester County – MDE entered into a Settlement Agreement with J & V Investment on Oct. 15 to resolve alleged sediment control and sediment pollution violations referenced in Administrative Complaint and Penalty # AP-01-0209 by the payment of \$5,000 to the Sediment Fund. **Status:** Case Closed (Reference #PS-02-0026)

Water and Sediment Pollution Penalties, Statewide – During the period of Oct. 15 to Nov. 15, MDE collected an additional \$22,300 to the Clean Water Fund in settlement of alleged water pollution violations from 10 establishments. MDE also collected \$8,390 in administrative penalties to the Sediment Fund in settlement of alleged sediment and erosion control violations from four companies.

Waste Management Administration

Frankford Towing, Inc., Baltimore City – MDE issued a Complaint Order and Civil Penalty in the amount to \$19,000 against Frankford Towing, Inc. on Nov. 14 for numerous Underground Storage Tank (UST) violations including: used oil UST converted to diesel fuel use without testing for tightness, emergency cutoff shear valves permanently secured open with wire, making valves inoperable in the event of an emergency and diesel UST system failed testing for tightness and was determined to be leaking. **Status:** Case Pending (Reference #COV 2002-002)

Much of what you need to know about Maryland's environmental policies can be found at: www.mde.state.md.us

For the Record

The following is a partial list by county of applications received by MDE and other permitting activity between Oct. 16 and Nov. 15. For more information on these permits, please contact MDE's Environmental Permit Service Center at (410) 631-3772.

Allegheny

BARTON MINING COMPANY - Barton, MD (SM-99-432) Incidental Boundary Revision

G & S COAL COMPANY, INC. - Barton, MD (SM-01-440) Insignificant Modification to Permit

JOHN DUCKWORTH COAL COMPANY - Westernport, MD (SC-87-116) Renewal

LAVALE SANITARY COMMISSION - Roselawn Avenue, P.O. Box 3325, LaVale, MD 21504. (01-1151) Water permit to upgrade the Red Hill Water Treatment Plant, north of U.S. Route 40 and west of Exit 99 off I-68

UNITED ENERGY COAL, INC. - Midland, MD (NOE P01-07) Letter of Intent to Prospect

Anne Arundel

CITY OF ANNAPOLIS- 160 Duke of Gloucester Street, Annapolis, MD 21401. (01-1154) Water permit to construct a 1.5-MG water storage facility at 206 Janwal Street and Barbud Land, Annapolis

EASTERN PETROLEUM CORPORATION - 33 Hudson Street, Annapolis, MD 21401. (TR6924) An air permit to construct for one groundwater remediation system

EASTERN PETROLEUM CORPORATION - 33 Hudson Street, Annapolis, MD 21401. (TR6925) An air permit to construct for one soil remediation system

SAFETY-KLEEN SYSTEMS, INC. - GLEN BURNIE - 150-G Penrod Court, Glen Burnie, MD 21061. (2002-OPT-3581) Oil operations permit for above ground storage tank and transportation

WHITMORE PRINT & IMAGING - 1982 Moreland Parkway, Annapolis, MD 21401. (TR6938) An air permit to construct for one Heidelberg lithographic press

Baltimore City

ALLIANCE / BURKHARDT, LLC. - 3311 Eastbourne Avenue, Baltimore, MD 21224. (2002-OPV-4751) Oil operations permit for transportation

BALTIMORE CASTINGS COMPANY - 2201-2245 Winchester Street, Baltimore, MD 21216. (2002-510-00115) Air quality permit to operate

BITUMAR USA, INC. - 6000 Pennington Avenue, Baltimore MD 21226. (TR6933) An air permit to construct for two above ground storage tanks

BURNS PHILP FOOD INC. - 1900 Brand Avenue, Baltimore MD 21209. (TR6899) An air permit to construct for two 39,150-gallon fiberglass storage tanks

DANIEL G. SCHUSTER, INC. - 1524 Thames Street, Baltimore MD 21231. (TR6874) An air permit to construct for one portable ready mixed concrete plant

GRACE DAVISON - 5603 Chemical Road, Baltimore MD 21226. (TR6927) An air permit to construct for one HEPA filter

LESAFFRE YEAST CORPORATION - 2100 Van Deman Street, Baltimore MD 21224. (TR6900) An air permit to construct for one gas-fired boiler >10 MMBtu

MOTIVA ENTERPRISES LLC - BALTIMORE TERMINAL - 2400 Petrolia Avenue, Baltimore, MD 21226. (99-ODS-3459A) Surface water discharge for oil terminal

P. FLANIGAN & SONS INC. - MONROE STREET - 1320 N. Monroe Street, Baltimore, MD 21217. (2002-510-00069) Air quality permit to operate

RUAN LEASING COMPANY - 3601-B Washington Boulevard, Baltimore, MD 21227. (2002-OPT-5852) Oil operations permit for above ground storage tank and transportation

SAFETY-KLEEN SYSTEMS, INC. - BALTIMORE - 1448 Desoto Road, Baltimore, MD 21230. (2002-OPT-3580) Oil operations permit for above ground storage tank and transportation

VAC PAC MANUFACTURING COMPANY, INC. - 150 West Ostend Street, Baltimore, MD 21230. (2002-510-00761) Air quality permit to operate

VANE BROTHERS COMPANY - 4209 Newgate Avenue; Pier 11, Baltimore, MD 21224. (2002-OPT-2725) Oil operations permit for above ground storage tank and transportation

Baltimore County

BACK RIVER WWTP - 8201 Eastern Avenue, Baltimore, MD 21224. Sewage sludge storage permit

BERG CORPORATION, THE - 10710 Philadelphia Road, Perry Hall MD 21128. (TR6921) An air permit to construct for one temporary portable concrete crusher

BOB WARD COMPANIES / WALNUT POINT LLC - 2700 Philadelphia Road, Edgewood, MD 21040. (01-1143) Sewerage permit to lay a force main, south of Marlyn Avenue and Walnut Grove Road intersection, southwest of Route 702

CHESAPEAKE FIBER PACKAGING CORP. - 11000 Gilroy Road, Hunt Valley, MD 21031. (2002-OPT-2231) Oil operations permit for above ground storage tank and transportation

DANIEL G. SCHUSTER, INC. - Philadelphia Road, Baltimore MD 21237. (TR6936) An air permit to construct for one portable concrete plant

DANIEL G. SCHUSTER, INC. - Research Park Drive, Baltimore MD 21250. (TR6935) An air permit to construct for one portable concrete plant

LAFARGE - MARRIOTTSTVILLE QUARRY -

11411 Marriottsville Road, Marriottsville, MD 21163. (2002-OPT-3228) Oil operations permit for above ground storage tank and transportation

LAFARGE BUILDING MATERIALS, INC. - 2001 Wharf Road, Baltimore MD 21219. (TR6916) An air permit to construct for two bag houses

LANSDOWNE MOBIL - 3107 Hammonds Ferry Road, Lansdowne, MD 21227. (TR6896) An air permit to construct for one air stripper remediation system

MIDDLE RIVER AIRCRAFT SYSTEMS - 103 Chesapeake Park Plaza, Middle River, MD 21220. (2002-OPT-5844) Oil operations permit for above ground storage tank and transportation

PORT CITY PRESS - 1323 Greenwood Road, Baltimore MD 21208. (TR6898) An air permit to construct for one heat-set printing press

SWEETHEART CUP COMPANY, INC. - 10100 Reisterstown Road, Owings Mills MD 21117. (TR6878) An air permit to construct for thermoforming equipment

SWEETHEART CUP COMPANY, INC. - 10100 Reisterstown Road, Owings Mills MD 21117. (TR6879) An air permit to construct for one printing operation

Calvert

CALVERT COUNTY BOARD OF COMMISSIONERS - 175 Main Street, Prince Frederick, MD 20678. (01-1141) Sewerage permit to construct grinder pump units and force mains, located in the area north of Greenwood Avenue and 9th Street

TOWN OF CHESAPEAKE BEACH - P. O. Box 400, Chesapeake Beach, MD 20732. (01-1148) Sewerage permit to upgrade E Street Wastewater Pumping Station, at the end of E Street, South of intersection with MD 260

Caroline

RIDGELY BLACKTOP PLANT - Belle Road, 1/2 Mi. West Of 312, Ridgely, MD 21660. (2002-OPT-5783) Oil operations permit for above ground storage tank and transportation

Carroll

CLARENCE & JOHN BASSLER, CA-24 - 3400 Hyser Road, Taneytown, MD 21787. Sewage sludge application on agricultural land

CLARENCE L. ALBAUGH, CA-22 - 1839 Crouse Mill Road, Taneytown, MD 21787. Sewage sludge application on agricultural land

NORTHERN MUNICIPAL LANDFILL - 1400 Baltimore Boulevard, Westminster, MD 21157. Sewage sludge disposal permit at landfill

RONALD LEISTER PROPERTY - 711 Leisters Church Road, Westminster, MD 21157. Sewage sludge application on agricultural land

ROSS CONTRACTING INC. - 1007 Rising Ridge Road, Mt. Airy, MD 21771. (2002-OPT-12034) Oil

operations permit for above ground storage tank and transportation

RUNNYMEDE WASTEWATER TREATMENT PLANT - 3000 Langdon Drive, Westminster, MD 21158. (02DP2912) Surface municipal discharge permit

STATE HIGHWAY ADMINISTRATION - 150 Wyndtryst Drive, Westminster MD 21157. (TR6919) An air permit to construct for one paint spray booth

Caroline

JOHN W. TODD - Preston, MD (02-SP-0591) Permit for a surface mine located south of intersection of Auction & American Corner Road

Cecil

TOWN OF ELKTON - 100 Railroad Avenue, Elkton, MD 21921. (01-1150) Sewerage permit to construct Elkton Route 40 interceptor and force main along Route 40

Charles

BARDON, INC. - WALDORF ASPHALT PLANT - Piney Church Road, Waldorf, MD 20602. (2002-OPT-3148) Oil operations permit for above ground storage tank and transportation

CHANEY ENTERPRISES LIMITED PARTNERSHIP - Waldorf, MD (02-SP-0590) Permit for a surface mine located US Route 301 east on Smallwood Drive

CHANEY ENTERPRISES LTD - WALDORF - 12360 Acton Lane, Waldorf, MD 20601. (2002-OPT-4027) Oil operations permit for above ground storage tank and transportation

SERENITY FARMS INC., CH-160 - 6932 Serenity Farms Road, Hughesville, MD 20637. Sewage sludge application on agricultural land

WALDORF ASPHALT, LLC - 12250 Acton Lane, Waldorf, MD 20601. (2002-OPT-3218) Oil operations permit for above ground storage tank and transportation

Dorchester

THOMAS L. BARNETT - Rhodesdale, MD (86-SP-0243) Modification for a surface mine located west of Brookview on Maryland Route 14

Frederick

AUSTIN RIPPEON SR., FR-153 - Stull Road, Frederick, MD 21702. Sewage sludge application on agricultural land

DNR MONOCACY NRMA, FR-99 - 22910 Dickerson Road, Dickerson, MD 20842. Sewage sludge application on agricultural land

KATHARINE POWELL FARM, FR 98 - 8428 Apples Church Road, Thurmont, MD 21788. Sewage
