 August 15 - September 14, 1998****FMC Corporation - Baltimore City**

On August 27 MDE entered into a consent order with the FMC Corporation to resolve an earlier order issued by MDE in response to a May 15, 1998 release of chemicals from the company's plant located in Wagner's Point. The earlier order prevented the company from retarding the Command Herbicide production process, which was the source of the release, until a plan was developed to: 1) identify the specific cause of the release and prevent a reoccurrence and 2) with respect to the entire plant, to achieve compliance with all applicable air quality regulations. The company developed and submitted the required plan in August which was subsequently incorporated into the August 27th Consent Order. In general, the plan provides for an independent consultant to review measures recommended by FMC to prevent a reoccurrence of the release and to recommend further measures as appropriate. The plan also requires an evaluation of all chemical manufacturing processes within the plant.

**Crown Cork and Seal - Wicomico
 County**

On August 24, 1998, MDE issued a corrective order to this can manufacturing company located in Fruitland for using a material in its operation that contained volatile organic compounds (VOC) in excess of the level allowed by Maryland's regulations for controlling air pollution. The order requires Crown Cork and Seal to submit a plan for achieving compliance with the VOC content requirement in the regulations.
Status: Case pending (Reference #98-08-02)

**D&B Products, Inc. - Georgetown,
 Delaware**

On September 9, 1998, MDE entered into a Settlement Agreement with D&B Products to resolve an appealed administrative penalty assessed by MDE in 1997 for air quality control violations on the part of D & B Products during the time it operated in Maryland. The company paid an \$18,000 settlement which settled the appeal that was pending before the Office of Administrative Hearings.
