

September 1, 2016

The Water Management Administration has received the applications listed below. A preliminary review has indicated that the listed projects may be subject to the opportunity for a public hearing once the application is substantially complete. Projects may be significantly altered during the review process. The applications and related information are available for inspection and copying. You may also request written notice of any hearing opportunity by having your name placed on the interested persons list for each project in which you are interested. To inspect the file or to have your name placed on the interested persons list, contact the assigned division at the telephone number indicated below no later than Wednesday, Friday, September 30, 2016.

Water Supply Program - (410) 537-3590

County: Dorchester
DO2016G008/01: Cloverdale Farms, LLC has applied to appropriate and use an annual average of 113,000 gallons of groundwater per day (gpd) and an average of 685,000 gpd during the month of maximum use for crop irrigation. Water will be withdrawn from one new well in the Columbia aquifer. The project is located on the west side of Bobtown Road, immediately southwest of its intersection with Blink Horn Road, Hurlock, Dorchester County, Maryland.
County: Queen Anne's
QA2016G002/01: Mark Lockwood has applied to appropriate and use a total of an annual average of 44,000 gallons of groundwater per day (gpd) and 250,000 gpd during the month of maximum use for crop irrigation. Water will be withdrawn from two wells in the Calvert Formation and used as a supplemental supply for crop irrigation. The project is located at 211 Hoyle Lane, approximately 4.2 miles east of Sudlersville, Queen Anne's County, Maryland.
County: Somerset
SO2016G003/01: Rantz Purcell has applied to appropriate and use an annual average of 84,000 gallons of groundwater per day (gpd) and 509,000 gpd in the month of maximum use for crop irrigation. Water will be withdrawn from 4 wells in the unconfined Pocomoke aquifer. The project is located at 10010 Arden Station Road, Princess Anne, Somerset County, Maryland.
County: Wicomico
WI2016G020/01: Chris M. Riall has applied to appropriate and use an annual average of 25,200 gallons of groundwater per day (gpd) and an average of 153,300 gpd in the month of maximum use for crop irrigation. Water will be withdrawn from one well in the Columbia aquifer. The project is located at 26760 North Crooked Oak Lane, approximately two miles south of Hebron, Wicomico County, Maryland.
