

January 1, 2018

The Water and Science Administration has received the applications listed below. A preliminary review has indicated that the listed projects may be subject to the opportunity for a public hearing once the application is substantially complete. Projects may be significantly altered during the review process. The applications and related information are available for inspection and copying. You may also request written notice of any hearing opportunity by having your name placed on the interested persons list for each project in which you are interested. To inspect the file or to have your name placed on the interested persons list, contact the assigned division at the telephone number indicated below no later than Wednesday, January 31, 2018.

Water Supply Program - (410) 537-3590

County: Caroline

CO2017G016/01: Charles R. Turner has applied to appropriate and use an annual average of 60,700 gallons of groundwater per day (gpd) and an average during the month of maximum use of 369,300 gpd for crop irrigation. Water will be withdrawn from one new well in the Columbia aquifer. The project is located approximately 0.5 mile southwest of the junction of Friendship and American Corner Roads, northeast of Preston, Caroline County, Maryland.

CO2017G017/01: Levi Hayman has applied to appropriate and use an annual average of 71,800 gallons of groundwater per day (gpd) and an average during the month of maximum use of 436,400 gpd for crop irrigation at the Glover Farm. Water will be withdrawn from two new wells in the Columbia aquifer. The project is located at 12885 Greensboro Road, Greensboro, Caroline County, Maryland.

CO2017G018/01: Glenn Orme has applied to appropriate and use an annual average of 60,700 gallons of groundwater per day (gpd) and an average during the month of maximum use of 369,300 gpd for crop irrigation. Water will be withdrawn from three new wells in the Columbia aquifer. The project is located at 27939 Burrsville Road, Denton, Caroline County, Maryland.

County: Kent

KE2017G004/01: Owings and Sons, Inc. has applied to appropriate and use an annual average of 120,500 gallons of groundwater per day (gpd) and an average of 731,000 gpd during the month of maximum use for crop irrigation at the Bauer Farm. Water will be withdrawn from four wells in the Aquia aquifer. The project is located at 7084 Broad Neck Road, Chestertown, Kent County, Maryland.

County: Montgomery

MO2017G003/01: Seneca Farm, LLC has applied to appropriate and use an annual average of 11,700 gallons of groundwater per day (gpd) and 19,600 gpd during the month of maximum use for individual supplies at the proposed 27-lot Seneca Farms residential subdivision. Water will be withdrawn from 27 wells in the Upper Pelitic Schist of the Wissahickon Formation. The project is located on the west side of Seneca Road, approximately 500 feet north of its intersection with Springfield Road, Germantown, Montgomery County, Maryland.
