

**Appendix C.** Plots of heavily-censored parameters in relation to traditional trend methods. More detail is given than the plots in Appendix B.

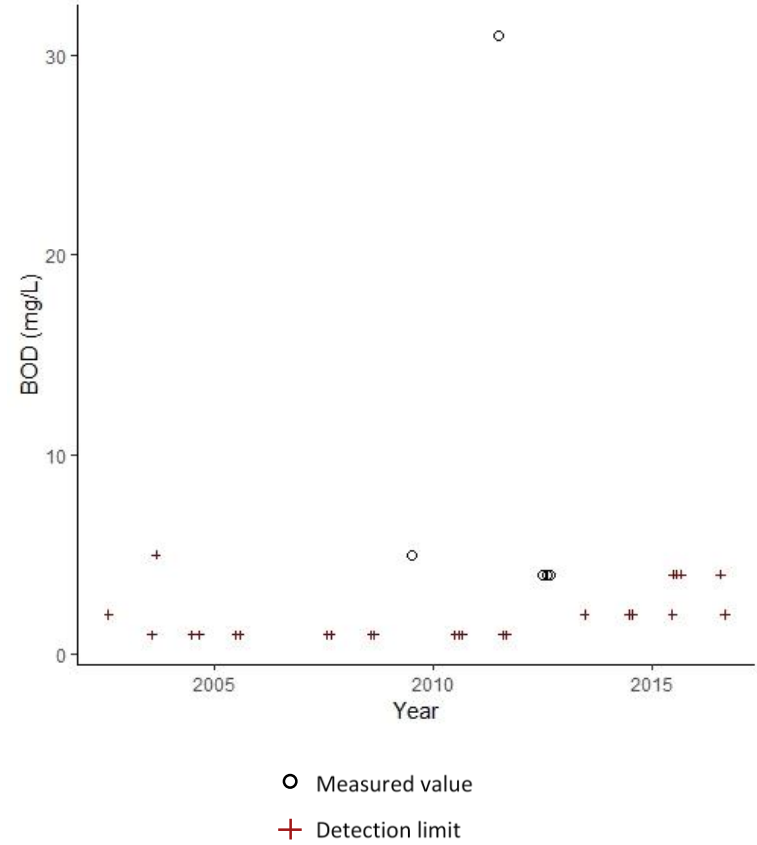

**Figure 1.** Plot of the heavily censored annual TPB at BACI's instream site during baseflow.

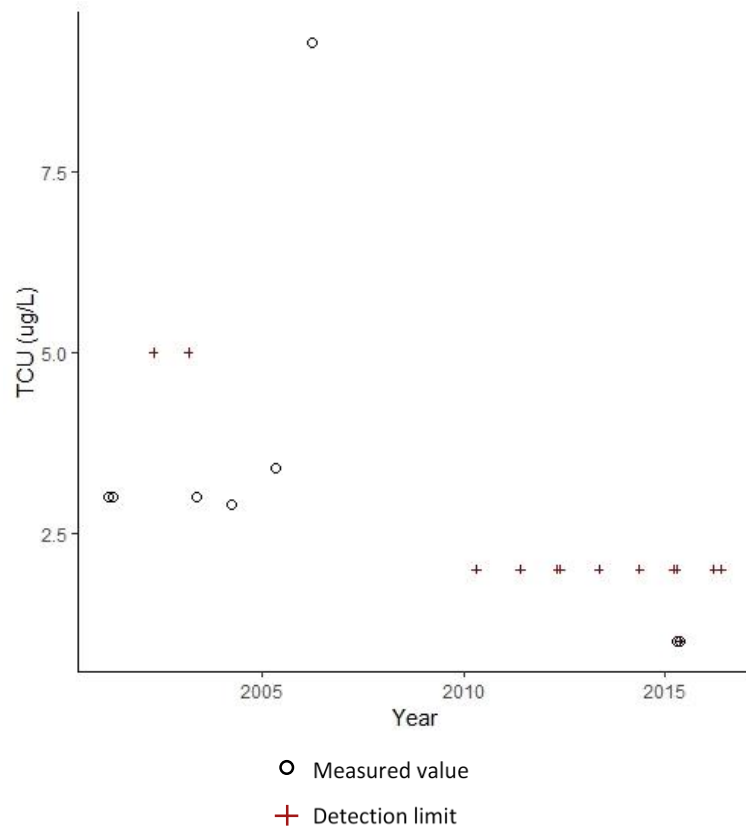

**Figure 2.** Plot of the heavily censored annual TPB at BACI's outfall site during baseflow.

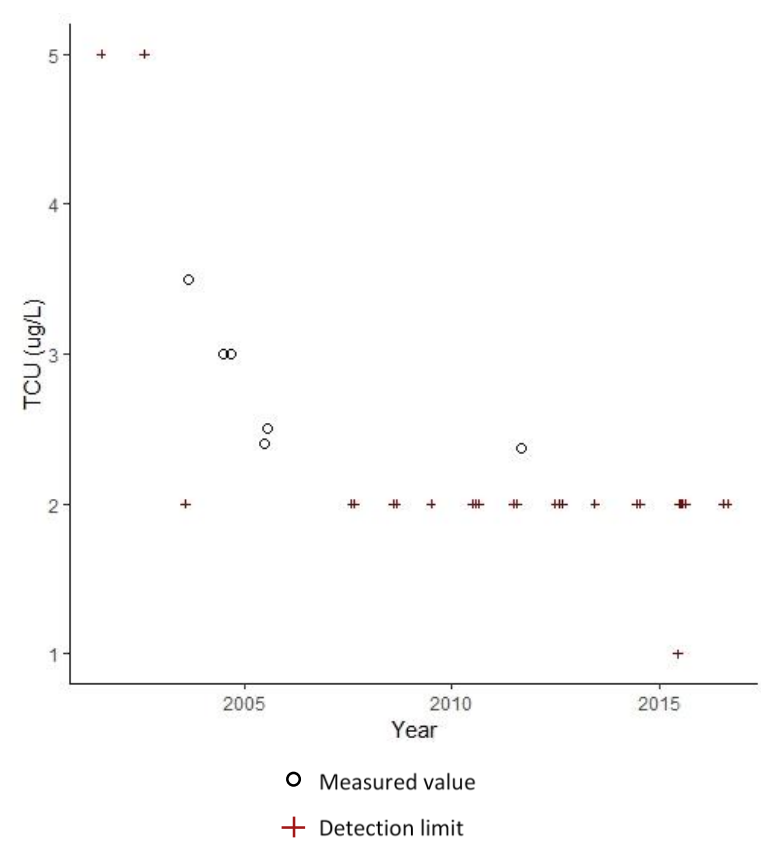

**Figure 3.** Plot of the heavily censored spring BOD at CACO's instream site during baseflow.

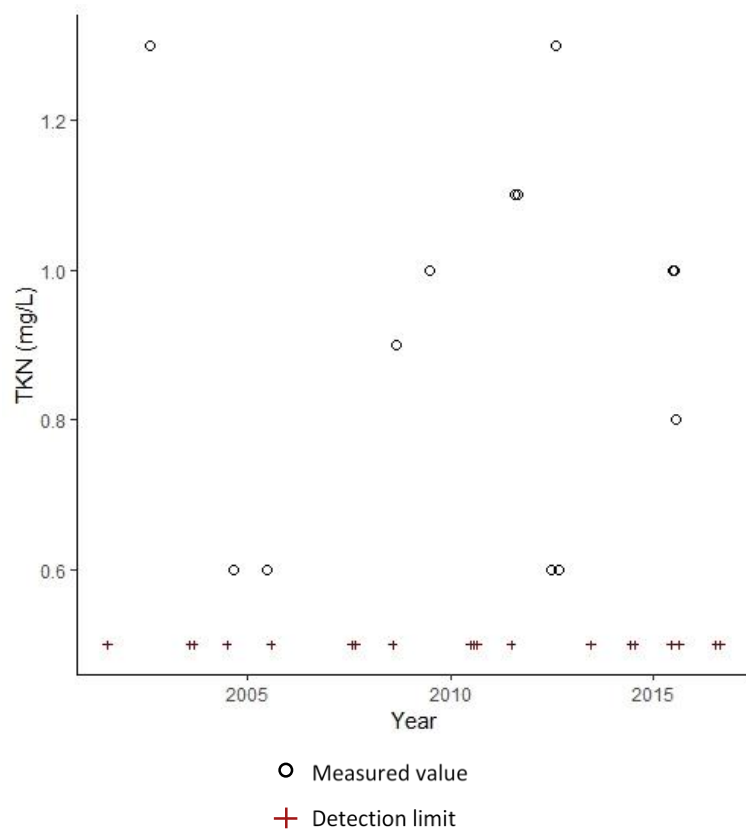

**Figure 4.** Plot of the heavily censored summer BOD at CACO's instream site during baseflow.

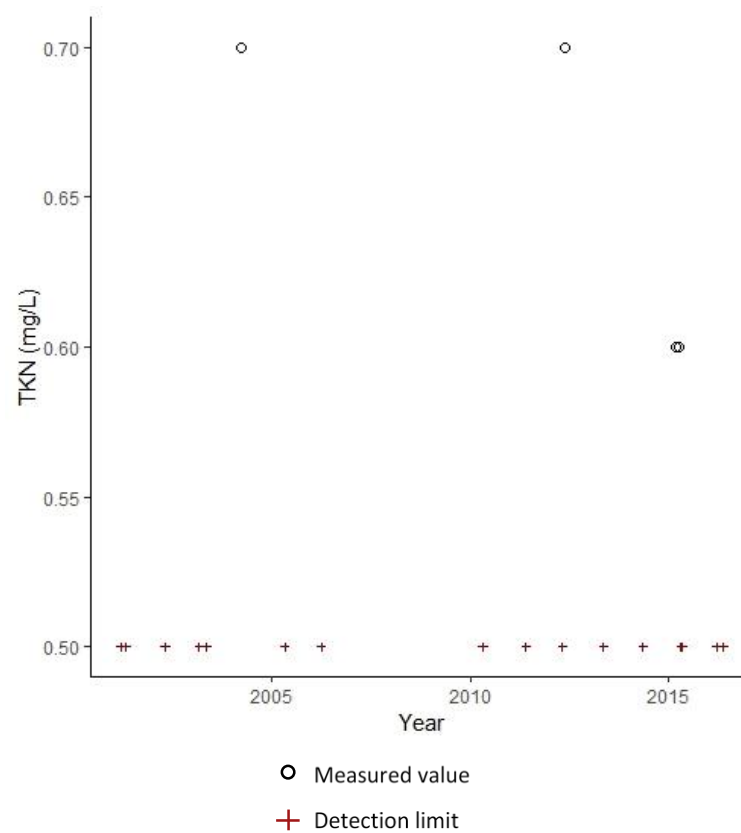

**Figure 5.** Plot of the heavily censored spring TCU at CACO's instream site during baseflow.

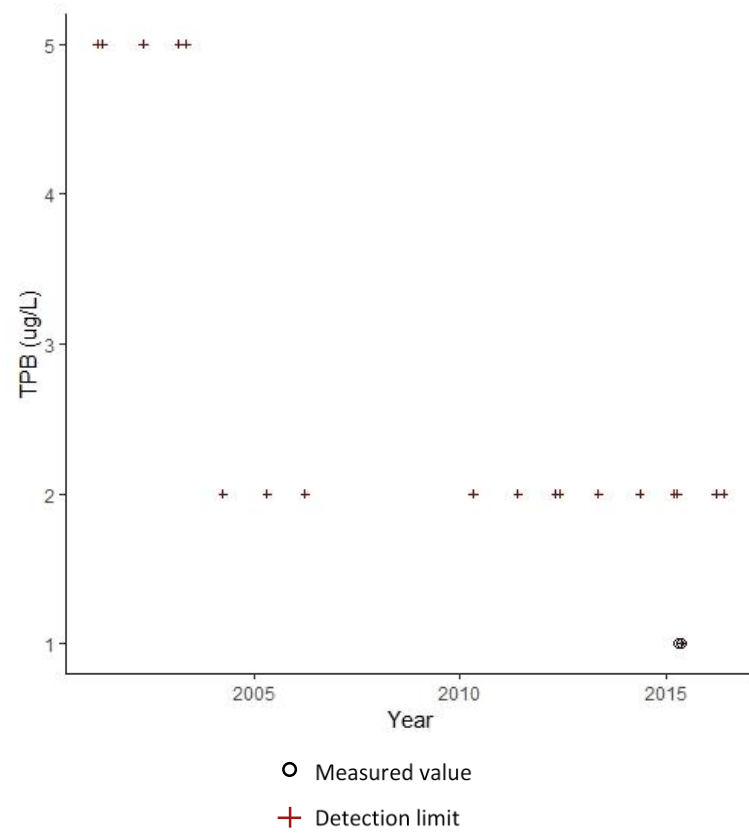

**Figure 6.** Plot of the heavily censored summer TCU at CACO's instream site during baseflow.

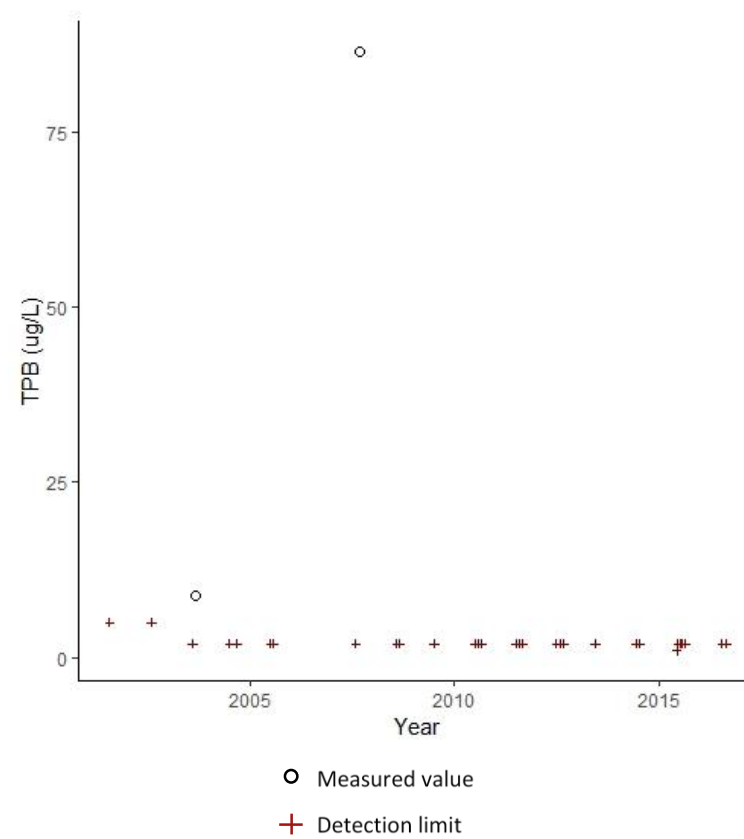

**Figure 7.** Plot of the heavily censored spring TKN at CACO's instream site during baseflow.

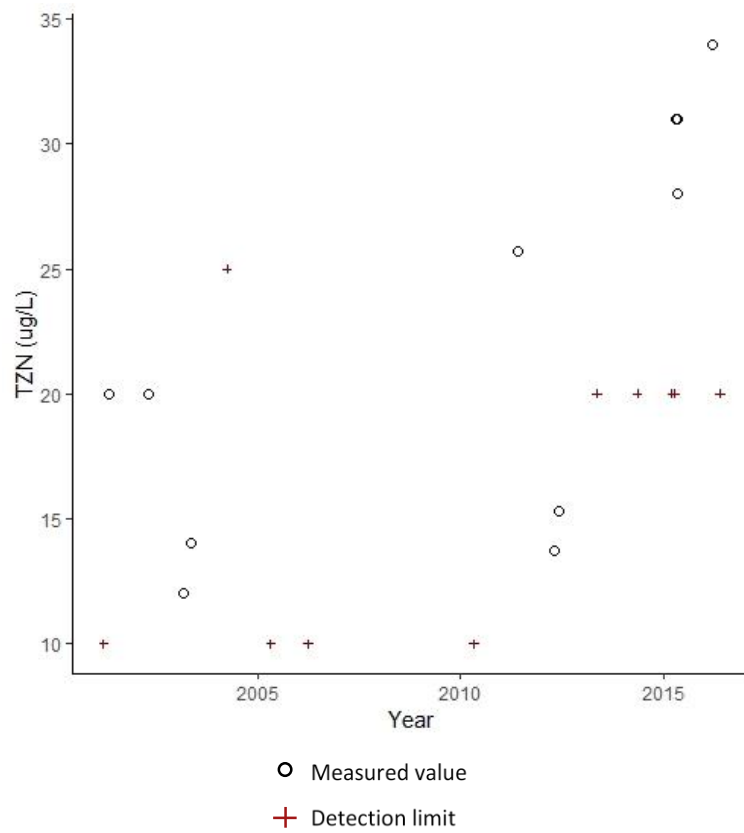

**Figure 8.** Plot of the heavily censored summer TKN at CACO's instream site during baseflow.

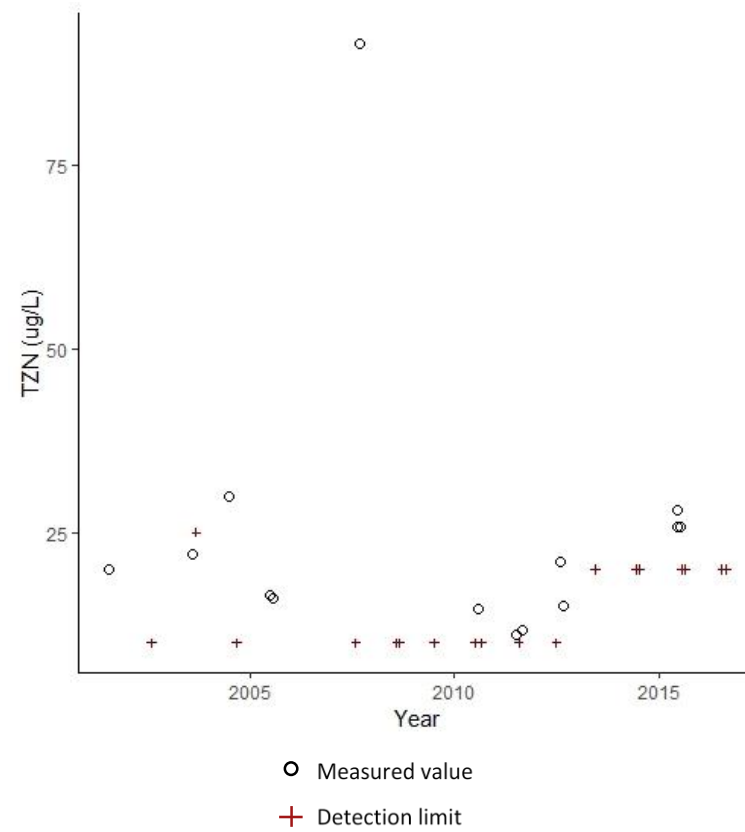

**Figure 9.** Plot of the heavily censored spring TPB at CACO's instream site during baseflow.

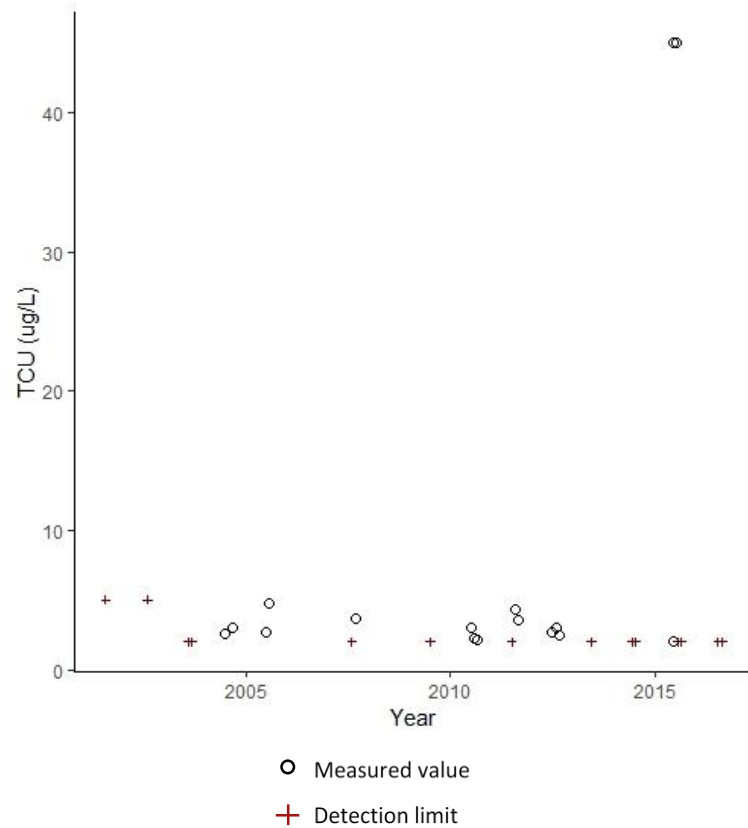

**Figure 10.** Plot of the heavily censored summer TPB at CACO's instream site during baseflow.

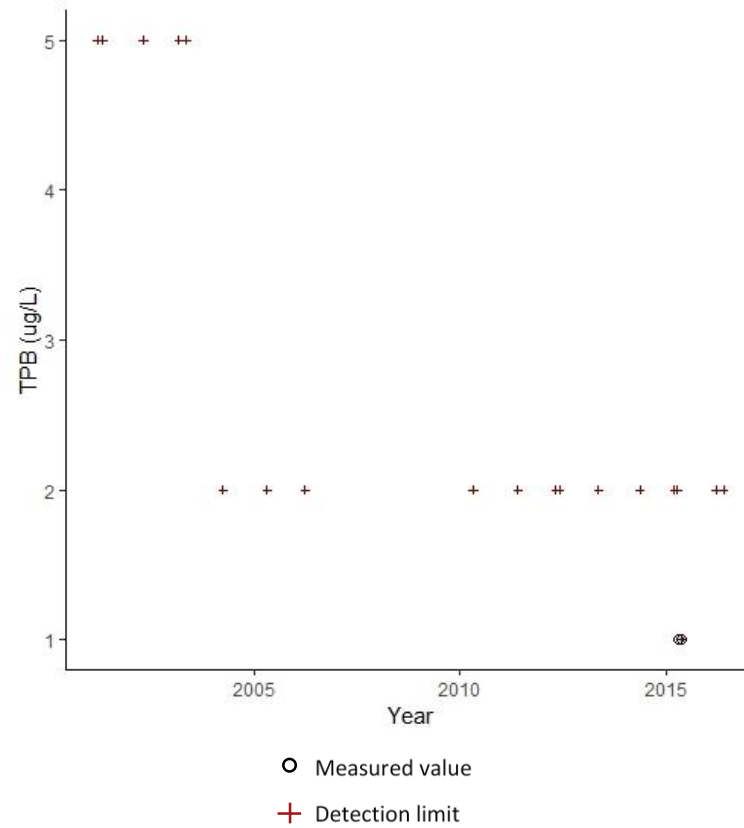

**Figure 11.** Plot of the heavily censored spring TZN at CACO's instream site during baseflow.

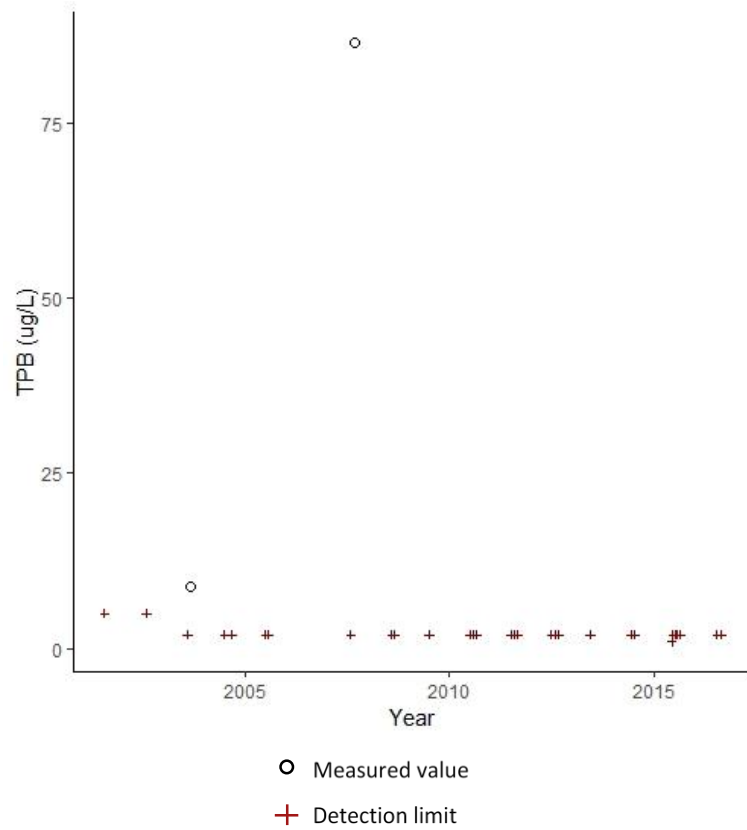

**Figure 12.** Plot of the heavily censored summer TZN at CACO's instream site during baseflow.

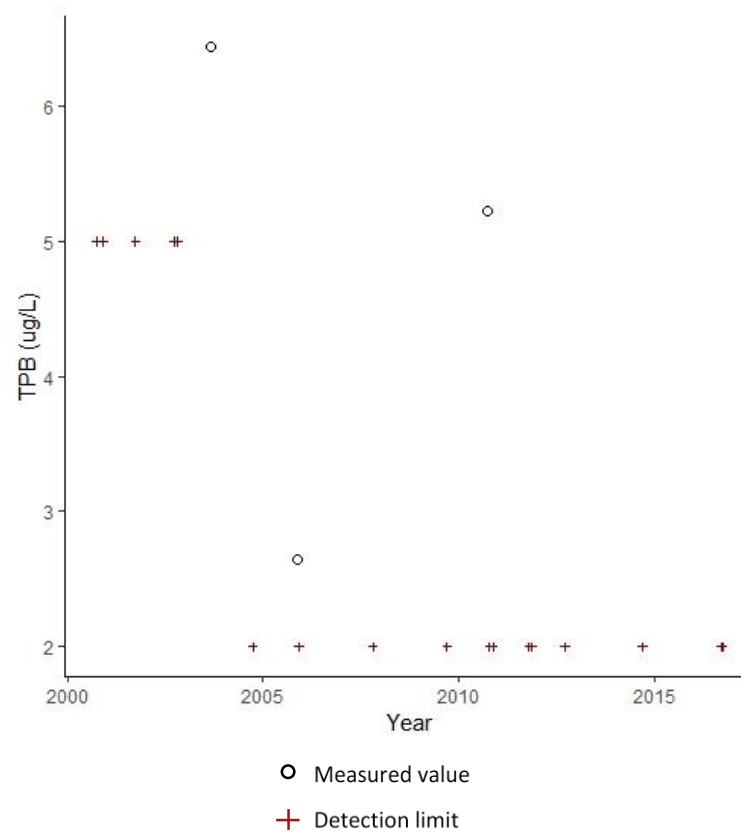

**Figure 13.** Plot of the heavily censored summer TCU at CACO's outfall site during baseflow.

**Figure 14.** Plot of the heavily censored spring TPB at CACO's outfall site during baseflow.

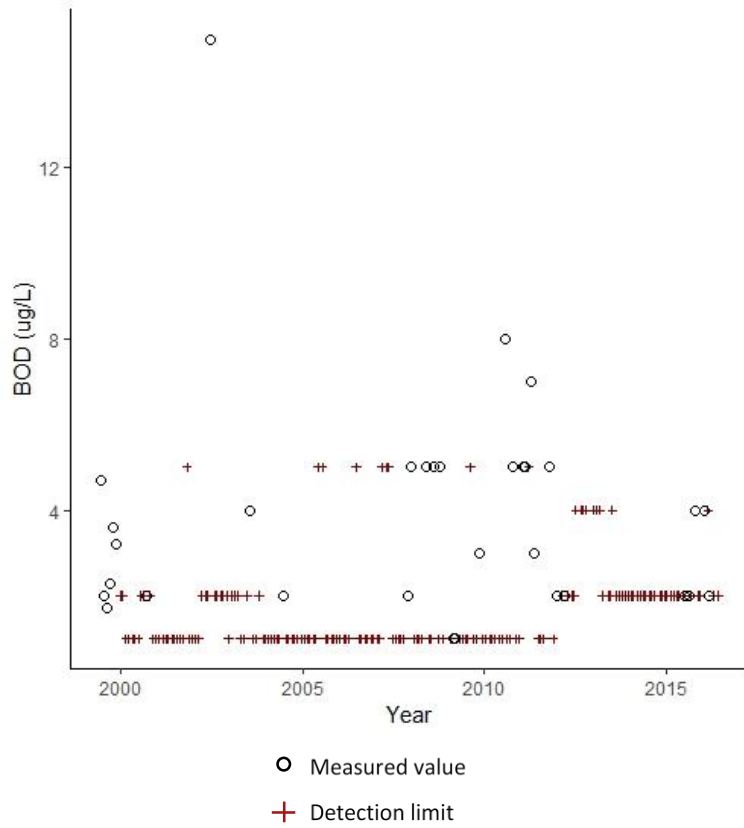

**Figure 15.** Plot of the heavily censored summer TPB at CACO's outfall site during baseflow.

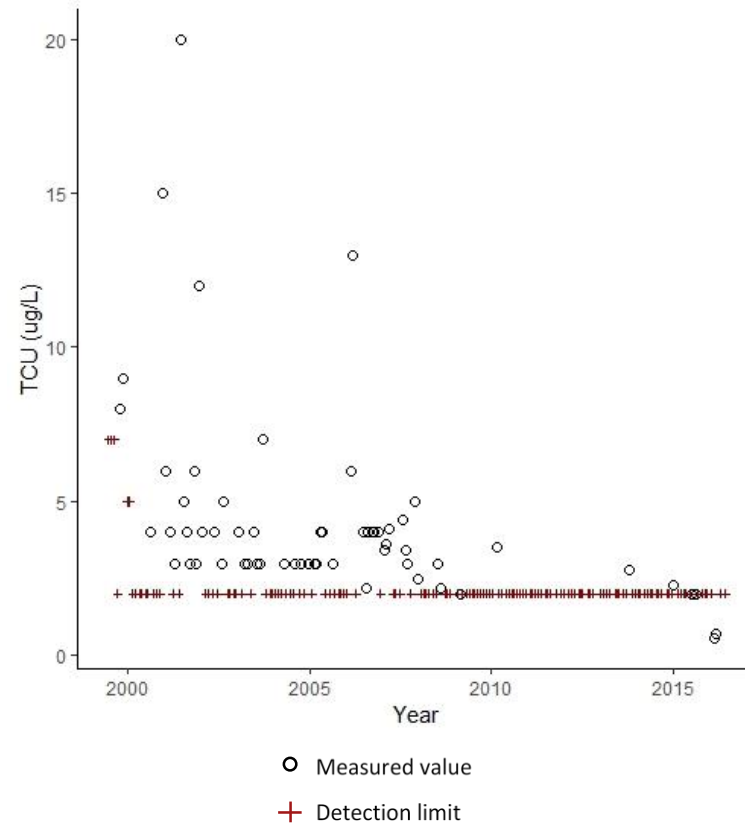

**Figure 16.** Plot of the heavily censored autumn TPB at CACO's outfall site during stormflow.

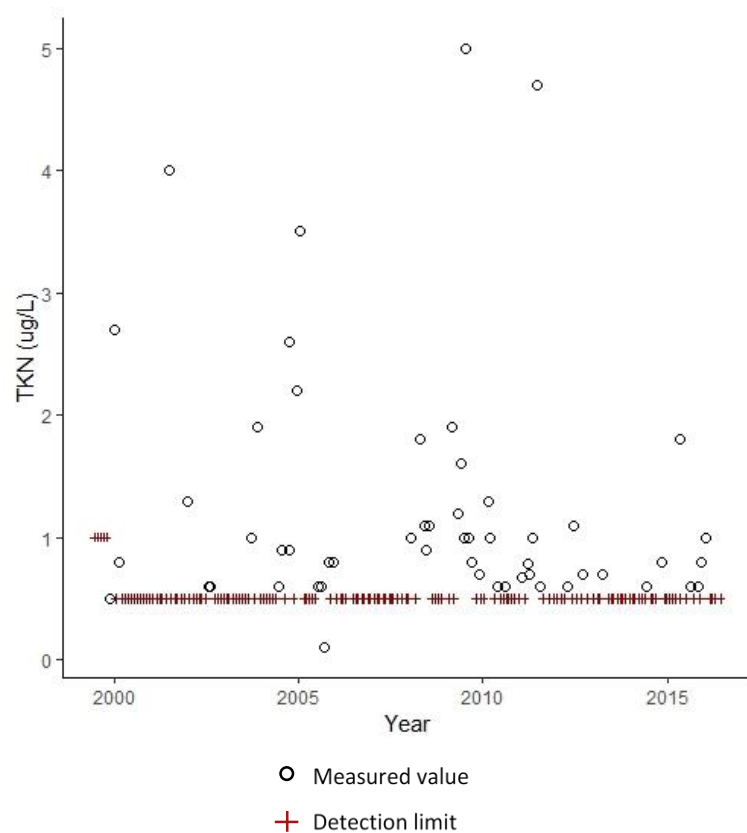

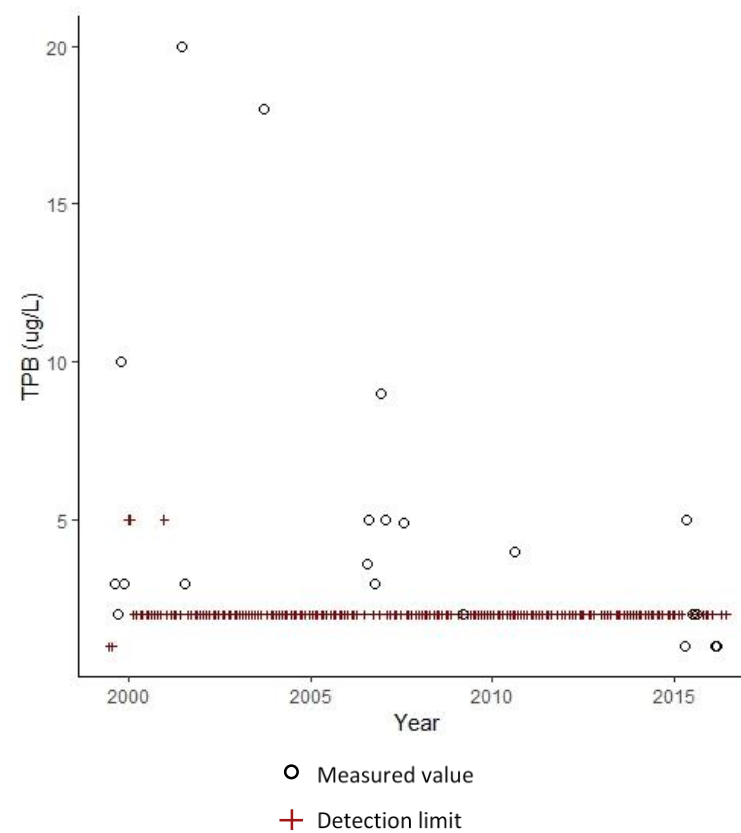

**Figure 17.** Plot of the heavily censored annual BOD at FRCO's instream site during baseflow.

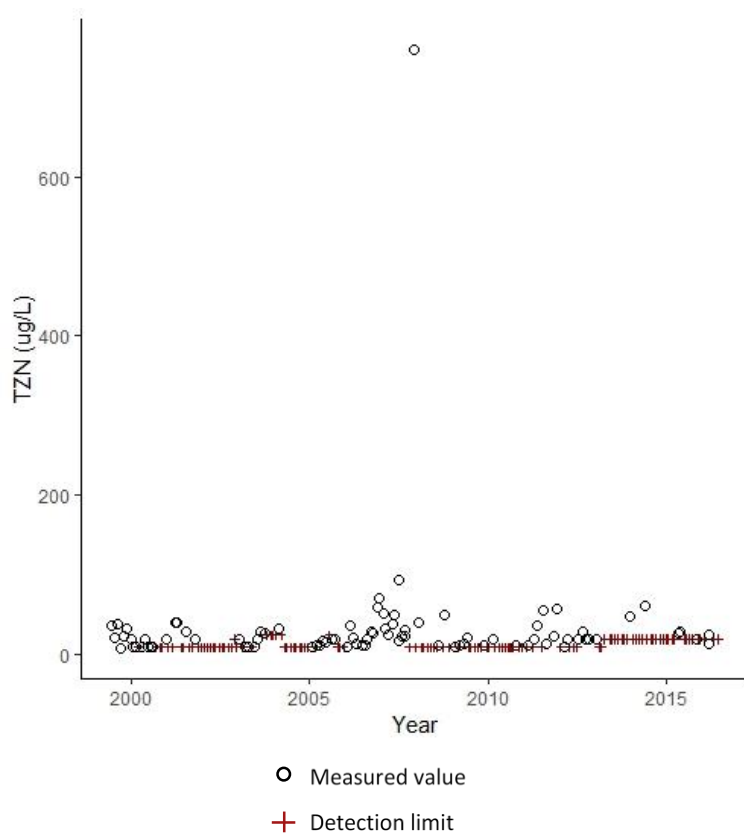

**Figure 18.** Plot of the heavily censored annual TCU at FRCO's instream site during baseflow.

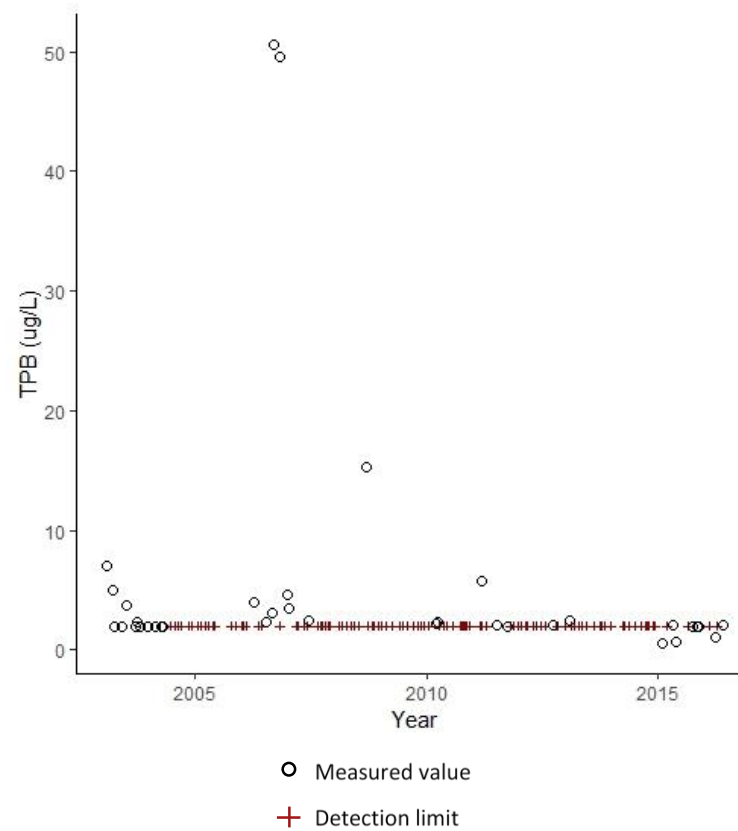

**Figure 19.** Plot of the heavily censored annual TKN at FRCO's instream site during baseflow.

**Figure 20.** Plot of the heavily censored annual TPB at FRCO's instream site during baseflow.

**Figure 21.** Plot of the heavily censored annual TZN at FRCO's instream site during baseflow.

**Figure 22.** Plot of the heavily censored annual TPB at FRCO's outfall site during stormflow.
