Full Service Hotel with meeting space and on-site restaurant  
Member since July 2019

## Management and Leadership

### Environmental Policy Statement

*Travel with Purpose is Hilton's corporate responsibility strategy to redefine and advance sustainable travel globally. By 2030, we plan to double our investment in social impact and reduce our environmental footprint in half. We track, analyze and report our environmental and social impact at each of Hilton's 5,600+ hotels through LightStay, our award-winning corporate responsibility measurement system.*

### Environmental Team

*Our Environmental Team is composed of our on-site hotel General Manager, Corporate Vice President of Operations, Director of Facilities, Director of Sales, Housekeeping Team, and Chief Engineer. Our mission is to ensure our hotel is implementing Hilton's Travel with Purpose practices, along with additional eco-friendly measures such as only washing towels/sheets inside guestrooms when asked, recycling whichever materials we can including cardboard, office paper and supplies.*

## Waste

### Solid Waste Reduction and Reuse

*Our green initiatives include preventing the use of disposable and/or paper products in our meetings and utilizing glassware effectively.*

We also partner with the [Clean the World](#) which redistributes soap and other hotel bath products to communities around the world that need them rather than sending them to landfills.

**Recycling**

We recycle paper products, cardboard, and plastic office supplies (if applicable).

## Transportation

**Employee Commute/Customer Travel**

We offer a shuttle transportation service to/from major facilities within a 5-mile radius of our hotel in order to help reduce environmental impact by single occupancy vehicles.

**Efficient Business Travel**

90% of our meetings are via phone call to our Corporate Office located in Virginia Beach, VA. This saves about 237 miles of vehicle travel per week or 12,324 miles annually.

## Water

**Water Conservation**

- We offer the Hilton Choose to be Green program which provides guests the option to waive daily replacement towels and linens
- Public restrooms are equipped with dual flush toilets
- Guestrooms showers have flow rate restrictors proving a maximum flow of 2.5 GPM/9.5 LPM.

Help build a greener, more sustainable Maryland through voluntary practices that reduce environmental impacts and save money.
