

## Maryland Green Registry MEMBER

The Maryland Green Registry promotes and recognizes sustainable practices at organizations of all types and sizes. Members agree to share at least five environmental practices and one measurable result while striving to continually improve their environmental performance.

### Management and Leadership

**Environmentally Preferable Purchasing**

*We purchase post-consumer recycled products, and products with post-consumer recycled packaging as much as possible. In addition, we locally source our eggs, meats, dairy products and produce to the maximum extent possible.*

### Waste

**Recycling**

*We recycle all used packaging.*

**Composting**

*We compost yard waste/grass clippings, flowers, coffee grounds and limited food waste where it will not smell foul or attract critters.*

### Energy

**Energy Efficiency**

*We are essentially a new facility built inside an existing building. All of our appliances and mechanical equipment are Energy Star rated, and all of our*

*lighting is equipped with LED bulbs, saving approximately 25,200 kWh and \$2,952 annually.*

## **Transportation**

**Employee Commute**

*All current employees live on the premises. Our outsourced housekeeping staff live here in Taneytown, within a 2-mile radius of the property.*

**Efficient Business Travel**

*We purchase local materials and supplies wherever possible.*

*Help build a greener, more sustainable Maryland through voluntary practices that reduce environmental impacts and save money.*
