Management and Leadership

Environmental Policy Statement

Our mission at MJB Holistic Hair Care is to care for our clients and the environment from a holistic approach. We believe that using pure ingredients and making ethical purchases, will help us to educate others and maintain the farm to chair standards that our world needs.

Environmentally Preferable Purchasing

MJB exclusively uses Organic Way (Oway) products. Oway is the world's first professional organic hair color, care and styling line with the following:

- *Biodynamic Ingredients*
- *Green Chemistry*
- *Fair Trade Networks*
- *Sustainable Development*
- *Holistic Wellness*

Waste

Recycling

We recycle all our glass and plastic product containers, boxes and inkjet cartridges. We average about 30 gallons of recycling per week. That's 1,560 gallons or recycled material per year.

Energy

Energy Efficiency

We prefer to use the compact fluorescent lamp (CFL) bulbs. These lamps use up to 80% less energy than the traditional incandescent bulbs. We are saving about \$230 per year using these bulbs.

Transportation

Efficient Business Travel

We use Uber, take classes online, and use conference calls for management meetings to help eliminate car travel.

Help build a greener, more sustainable Maryland through voluntary practices that reduce environmental impacts and save money.
