Management and Leadership

Environmental Policy Statement

Fitzgerald Auto Malls, a provider of sales, service and parts of automobiles, recognizes our impact and responsibility to the environment, our customers and our associates. We are committed to establish and maintain an Environmental Management System (EMS) that goes beyond simply meeting environmental laws and regulations, but extends to our everyday practices and business decisions.

Our environmental objectives:

- *Provide a safe working environment for our associates, customers and the surrounding communities.*
- *Reduce the environmental impact and potential pollution of our products and services whenever possible.*
- *Meet or exceed the requirements of environmental laws and regulations that relate to our products and services.*
- *Continual improvement through the assessment and monitoring of our environmental impacts.*
- *Create a culture of awareness and commitment to Fitzgerald Auto Mall's Environmental Quality Policy.*

Environmental Team

Our environmental team includes our Service and Parts Managers and representatives from our management company. It meets quarterly to implement the environmental objectives of our environmental policy. There is one environmental team

for all Fitzgerald locations.

Annual Environmental Goals

2017/2018 Goals:

- *Achieve a minimum 90% recycling at all locations. Combined, we did hit 83%*
- *Create an awareness campaign through improved signage and training*
- *Find specific ways we can be publically recognized for our environmental efforts*
- *Create and implement safety preparedness process or work instruction*

Environmentally Preferable Products and Services

We have replaced paper towel dispensers in high usage bathrooms with electric, high-speed hand dryers.

Converting all cleaning supplies to environmentally approved green products

Independently-Audited Environmental Management System

All 20 of our dealerships are ISO 14001:2015-certified and our environmental procedures are audited through both our internal auditors and through an approved ISO 14001 Auditor, Smithers Quality Assessments.

Waste

Recycling

In 2017, we generated 3,713 tons of waste of which 3,079 tons were diverted from the waste stream by recycling. This represents 83% recycled materials including mixed paper, cardboard, scrap metal, antifreeze, oil, vehicle filters, tires, and batteries.

Energy

Energy Efficiency

- We are continuing to convert all locations to 100% LED lighting. As a result, in 2017 we had an annual savings of approximately 800,000kwh or about \$70,000.00.

- Solar panels installed at our Germantown, MD facility generated 4,080kwh in 2017

- We are building a 5 level parking garage that will have the entire top level covered with Solar Panels. It is estimated these solar panels will generate 60% of our Gaithersburg Hyundai/Subaru locations energy needs.

- We are installing a Vortex Storm Water System and 2 Bio-Ponds during the construction of our parking garage
- Motion sensors have also been installed in many of the offices and restrooms across all facilities.

Renewable Energy

At our Germantown, MD location Solar Panels produce 4,080 kWh of energy in 2017.

Fitzgerald Auto Malls is powered by 100% Wind Power and purchases 100% Wind Power RECs for all non-deregulated stores.

Green Building

LEED Gold

Our dealership at 19501 Amaranth Dr., Germantown, MD is certified LEED Gold for New Construction

Other

Member of the EPA Green Power Leadership Club

For the past 12 years we have received Environmental Awards from the City of Gaithersburg and Montgomery County.

Recipient of the 2017 Montgomery County Chamber of Commerce's "Green Business Innovator of the year" award

Member of the Montgomery County Green Business Directory

Profile Updated June 2018

Help build a greener, more sustainable Maryland through voluntary practices that reduce environmental impacts and save money.
