Residential Home Repair & Maintenance

Member since May 2012

## Management and Leadership

### Environmental Policy Statement

*Gregg Home Services is committed to reducing its impact on the environment. We will strive to improve our environmental performance over time and to initiate projects and activities that will further reduce our impacts on the environment.*

*Our commitment to the environment extends to our customers, our staff, and the community in which we operate. We are committed to:*

- *Comply with all applicable environmental regulations;*
- *Prevent pollution whenever possible;*
- *Train all of our staff on our environmental program and empower them to contribute and participate;*
- *Communicate our environmental commitment and efforts to our customers, staff, and our community; and*
- *Continually improve over time by striving to measure our environmental impacts and by setting goals to reduce these impacts each year.*

*Signed: Gregg MacDougall, Proprietor*

*Date: 7 May 2012*

## Waste

### **Recycling**

- *All on site packaging materials will be recycled at the client's residence. If they are not compliant with recycling, then the material will be transported to the Annapolis city and/or Anne Arundel county facilities. Cost savings will benefit the refuse volume of the city and/ or county.*
- *All paper and plastic and glass and metals will be recycled.*

### **Hazardous Waste/Toxic Use Reduction**

*Water soluble products will be used on all applications. Oil-based paint products will be used as a primer only to seal water damage. Aggressive paint chemicals for stripping coatings will be avoided.*

## Energy

### **Energy Efficiency**

*We have installed a new HVAC system that is 85% efficient. This replaces a system that was 20 years old and operating at approximately 50% efficiency. Projected cost savings of \$840 annually.*

## Transportation

### **Fleet Vehicles**

*We replaced a fleet vehicle that was failing emissions tests with one that is newer and compliant with all emissions standards.*

**Profile Updated November 2015**

*Help build a greener, more sustainable Maryland through voluntary practices that reduce environmental impacts and save money.*
