Management and Leadership

Environmental Policy Statement

Multicorp Inc. is committed to reducing its impact on the environment. We will strive to improve our environmental performance over time and to initiate additional projects and activities that will further reduce our impacts on the environment.

Our commitment to the environment extends to our customers, our staff, and the community in which we operate. We are committed to:

Comply with all applicable environmental regulations;

Prevent pollution whenever possible;

Train all of our staff on our environmental program and empower them to contribute and participate;

Communicate our environmental commitment and efforts to our customers, staff, and our community; and

Continually improve over time by striving to measure our environmental impacts and by setting goals to reduce these impacts each year.

Environmentally Preferable Purchasing

We buy and print on 100% recycled paper endorsed by the Rain Forest Alliance and use green cleaning products.

Waste

Solid Waste Reduction and Reuse

We have set a goal of 5% reduction in paper usage and have implemented e-mail invoicing and other forms of electronic communication. We also print double sided to reduce paper use.

Recycling

We have established recycling bins for our employees to use and are recycling paper, plastic and aluminum. When our employees are working at various buildings and outdoor properties, they ensure that the recyclable materials are emptied into the correct containers.

Energy

Energy Efficiency

We have replaced our light bulbs in our offices with energy efficient bulbs. So far we have reduced close to 500 kWh.

Transportation

Employee Commute

Over half of our employees use public transportation to get to a job site since many of our jobs are located on bus routes. Our employees also carpool to job sites in one vehicle.

Profile Updated April 2014

Help build a greener, more sustainable Maryland through voluntary practices that reduce environmental impacts and save money.
