HVAC & Energy Conservation

Member since January 2010

## Management and Leadership

### Environmentally Preferable Procurement

*We purchase only low sulfur diesel and coal and use recycled paper.*

### Environmentally Preferable Products and Services

*Our team of professional energy saving specialists is committed to helping customers reduce their carbon footprint through green state-of-the-art HVAC systems which are researched and reviewed on a regular basis.*

*We provide energy efficient Pellet stoves, tankless hot water heaters, solar attic vent fans as well as electric reduction systems. We also have a system that uses fresh cold air to reduce the energy use of commercial freezers and coolers.*

## Waste

### Recycling

*We recycle aluminum, plastic and glass.*

## Energy

### Energy Efficiency

*We use a power factor correction device to reduce electric consumption which saves hundreds of kWh per year.*

**Renewable Energy**

*We use a solar hot water system that saves an average of 10,000 kWh per year.*

**Transportation**

**Employee Commute**

*Employees are strongly encouraged to telecommute.*

***Profile Updated February 2011***

**Maryland**

*Help build a greener, more sustainable Maryland through voluntary practices that reduce environmental impacts and save money.*
