# MEA's Mission

Our mission at MEA is to promote clean, affordable, reliable energy and energy-related greenhouse gas emission reductions to benefit Marylanders in a just and equitable manner.

# Solar Energy Equity Grant Program

Supports the design and installation of solar energy systems for low-to-moderate income, or in overburdened or underserved communities.

Each home must have received an energy audit and weatherization-type energy efficiency upgrades funded through MEA's Energy Equity Grant Program.

The Program will fund up to 100% of the solar photovoltaic (PV) system design and installation cost, up to $25,000 per home.

# Energy Efficiency Equity Grant Program

Grants are awarded for energy efficiency projects that generate significant reductions in energy use and pass on the benefits of the savings to Maryland's LMI residents.

$19.5 million total program budget anticipated for FY24, to be allocated regionally across Maryland.

# Maryland Smart Energy Communities Grant Programs

The Maryland Smart Energy Communities (MSEC) programs are designed to support local governments, non-profits, schools, and communities as they adopt solutions to reduce energy usage and GHG emissions.

*4 different AOIs: Clean Energy and Community Development:* MEA anticipates awarding a total of up to $6,000,000 for energy efficiency projects, and $4,000,000 for clean energy (including renewable energy) projects and transportation projects.

# Electric Vehicle Supply Equipment (EVSE) Equity Rebate Program

The Electric Vehicle Supply Equipment (EVSE) Rebate Program provides funding assistance for costs incurred acquiring and/or installing qualified EV supply equipment, also referred to as charging stations.

Up to 85% of the project costs.
