PRECISION TESTING METHODS and COMPANIES

The Maryland Department of the Environment recognizes Precision Tightness Testing Methods included on the National Work Group On Leak Detection Evaluations (NWGLDE) website, <http://www.nwglde.org/>. The individual tester must have a valid certification from the manufacturer of the test method at the time of the test and the testing equipment must be operated and calibrated per manufacturer's requirements.

INDIVIDUALS (not Companies) who possess current certification in a third party approved precision test method listed on NWGLDE may also perform containment sump and spill bucket testing in accordance Maryland Containment System Testing Protocol.
