## Section II. Lot/Facility (Farm) Information

**Lot/Facility (Farm) Location:** Enter the lot/facility (farm's) legal name and complete street address including the nearest town or city (the actual location of the lot/facility (farm), not the mailing address). Provide the latitude and longitude of the production area to the nearest 15 seconds of the approximate center of the lot/facility (farm). The latitude and longitude can be found on a relatively detailed map such as an ADC (book) county map. Attach a map of the lot/facility (farm) including at least one named street. Provide the type and number of animals at the lot/facility (farm), and the type of housing.

Please fill out the following information for all lots/facilities (farms) associated with the AFO, starting with the primary lot/facility (farm) and continuing with all associated lots/facilities (farms). Associated lots/facilities (farms) are those that you have control over the application of the litter, manure, or process wastewater by ownership, lease, or agreement. All of these associated lots/facilities (farms) must be included in the required plans (either a Comprehensive Nutrient Management Plan (CNMP) or Nutrient Management Plan (NMP) combined with a Soil Conservation and Water Quality Plan (CP)). You may photocopy the associated lot/facility (farm) information sections to provide information for all associated lots/facilities (farms).

The required plans are important parts of your AFO. They document the planning decisions and operation and maintenance for the AFO. CNMPs are developed by USDA-Natural Resources Conservation Service or their Certified Technical Service Providers. The NMP and CP must be prepared for the lot/facility (farm) and the associated lots/facilities (farms) by a certified and licensed nutrient management consultant or a certified operator in accordance with the Maryland Department of Agriculture requirements of COMAR 15.20.04, and is in compliance with COMAR 15.20.07 and 15.20.08.

### Section III. Manure Storage/Use and Mortality Management

**Manure Storage - Indicate the amount and type of storage on each Lot/Facility (Farm) associated with your animal feeding operation, starting with the primary Lot/Facility (Farm). Also record the total typical amount of litter, manure, or process wastewater generated each day or each year by all of the lots/facilities (farms) under your control, the total amount of litter, manure, or process wastewater transported off the properties under your control, and the total amount of land available for land application on all of the associated lots/facilities (farms). Describe the type of mortality management used on each lot/facility (Farm).**
