

**June 1, 2019**

The Water and Science Administration has received the applications listed below. A preliminary review has indicated that the listed projects may be subject to the opportunity for a public hearing once the application is substantially complete. Projects may be significantly altered during the review process. The applications and related information are available for inspection and copying. You may also request written notice of any hearing opportunity by having your name placed on the interested persons list for each project in which you are interested. To inspect the file or to have your name placed on the interested persons list, contact the assigned division at the telephone number indicated below no later than Friday, June 28, 2019.

**Water Supply Program - (410) 537-3590**

**County: Caroline**

CO2019G002/01: William J Neal, Jr. has applied to appropriate and use an annual average of 32,000 gallons of groundwater per day (gpd) and an average during the month of maximum use of 235,000 gpd for crop irrigation at the Legion Farm. Water will be withdrawn from two new wells in the unconfined Choptank aquifer. The project is located northeast of the intersection of Sennett and Legion Roads, Denton, Caroline County, Maryland.

**County: Dorchester**

DO2019G002/01: Elizabeth Handley Nagel has applied to appropriate and use an annual average of 150,000 gallons of groundwater per day (gpd) and an average of 913,000 gpd during the month of maximum use for crop irrigation at the Stiley Farm. Water will be withdrawn from up to four wells in the Columbia aquifer. The project is located on the north side of Ocean Gateway, immediately northeast of its intersection with Chateau Road, Cambridge, Dorchester County, Maryland.

DO2019S001/01: Edward B Fleming III has applied to appropriate and use an annual average of 85,000 gallons per day (gpd) and a maximum daily withdrawal of 648,000 gallons for crop irrigation at the Linder property. Water will be withdrawn from an intake in the Little Blackwater River. The project is located at 4757 Egypt Road, Cambridge, Dorchester County, Maryland.

**County: Worcester**

WO2019G002/01: B & R Farms, LLC has applied to appropriate and use an annual average of 43,600 gallons of water per day (gpd) and an average of 265,000 gpd in the month of maximum use for crop irrigation at the Public Landing Farm. Water will be withdrawn from one well in the Columbia aquifer. The project is located on the north side of Public Landing Road, 0.2 mile east of McCabes Corner Road, 1.5 miles east of Snow Hill, Worcester County, Maryland.

WO2019G003/01: B & R Farms, LLC has applied to appropriate and use an annual average of 40,200 gallons of water per day (gpd) and an average of 244,300 gpd in the month of maximum use for crop irrigation at the Bonnevillie West Farm. Water will be withdrawn from one well in the Columbia aquifer. The project is located south side of Ayres Lane Road, one mile east of Snow Hill Road, 2.5 miles southeast of Snow Hill, Worcester County, Maryland.

WO2019G004/01: B & R Farms, LLC has applied to appropriate and use an annual average of 69,000 gallons of water per day (gpd) and an average of 419,000 gpd in the month of maximum use for crop irrigation at the Onley Farm. Water will be withdrawn from one well in the Columbia aquifer. The project is located on the west side of Snow Hill Road and the north and south sides of Castle Hill Road, 1.9 miles south of Snow Hill, Worcester County, Maryland.

WO2019G005/01: B & R Farms, LLC has applied to appropriate and use an annual average of 95,000 gallons of water per day (gpd) and an average of 576,000 gpd in the month of maximum use for crop irrigation at the Red House Farm. Water will be withdrawn from one well in the Columbia aquifer. The project is located at 4342 Red House Road, Snow Hill, Worcester County, Maryland.

WO2019G006/01: B & R Farms, LLC has applied to appropriate and use an annual average of 154,000 gallons of water per day (gpd) and an average of 937,000 gpd in the month of maximum use for crop irrigation at the Home Farm. Water will be withdrawn from one well in the Columbia aquifer. The project is located at 4927 Carmean Road, Snow Hill, Worcester County, Maryland.
