APPLICATION PACKAGE
FOR LICENSE
TO REMOVE/ENCAPSULATE
ASBESTOS IN THE STATE OF MARYLAND

[This package contains the application form, Schedules I, II and III, COMAR 26.11.21, Control of Asbestos Regulations (as amended August 24, 1998), NESHAP 40 CFR Part 61, Subpart M, Asbestos Regulations (as amended November 20, 1990)], and Maryland-Approved Asbestos Training Courses.]

MARYLAND DEPARTMENT OF THE ENVIRONMENT
AIR & RADIATION ADMINISTRATION

Maryland Department of the Environment
Division of Asbestos Licensing & Enforcement
1800 Washington Blvd. STE 725
Baltimore, Maryland 21230--1720
410-537-3200  FAX: 410-537-3924

This is not an official version of the regulations. The official version is published by the Division of State Documents in the Code of Maryland Regulations (COMAR) and in the Maryland Register. NESHAP regulations are published in the Code of Federal Regulations (CFR) and in the Federal Register. This unofficial version is provided as a courtesy only.
Application Notes

Important Information Concerning Maryland's Asbestos Licensing

- Renewal applications must be submitted not sooner than 90 and no later than 30 days before current license expires. If expired, submit as "late renewal".

- Business entities may be required to provide proof of the current status of their firm, corporation, business concern, etc. And must supply documentation to MDE upon request.

- If you are an out-of-state company but have a local office that will oversee the daily operation of Maryland projects, please be sure to provide that address for the computer database. This will ensure that information is disseminated to appropriate individuals and offices.

- **Please provide your workers’ compensation policy binder number____________________ or a copy of a certificate of compliance with Maryland Workers’ Compensation Act (Environment Article, § 1-202). Without this, we will not issue a license to remove/encapsulate asbestos.** If you have any questions, please call Workman’s Compensation Commission at 410-864-5100 or 800-492-0479.

- You must answer all questions completely on the application form, including schedules I, II and III. Failure to provide all of the information requested in this application will delay the review and approval process. Do not submit your company's work practices manual in response to the information requested in this application. **It will be discarded** and your application considered incomplete.

- You **must** be familiar with, and understand, both COMAR and NESHAP regulations. [COMAR (code of Maryland regulations 26.11.21. Control of asbestos and NESHAP (national emission standards for hazardous air pollutants) 40 CFR 61, subpart m, asbestos regulations)]. You are responsible for applying those regulations in daily asbestos-related activities.

- Application fee is based on the number of workers you employ at the time of application or number used during the previous license year. If you have paid less than the maximum fee and use additional workers any time during the license year, applicable fees must be paid to the department **before** those workers can perform asbestos work in Maryland.

- Be sure to enclose a company check, certified check, cashier’s check or money order (no personal checks, no cash, nor credit cards) with your application.

- You may not conduct asbestos removal or encapsulation activities in Maryland without a valid and current asbestos contractor's license.

- Mail completed form, schedules I, II and III, and required fee to:
  
  Department of the Environment  
  P.O. Box 2037  
  Baltimore MD 21203-2037

- **No fax transmission of any asbestos-related documents will be accepted.** [This includes the application form, attachments, and/or additions to the application form, project notifications, waste manifests (disposal receipts), final air results, exemption (variance) requests, etc.] Faxed documents will be discarded.

- Notify this office in writing of any address change for your company at any time during the license year for the computer database. Revised licenses cannot be issued for address changes. Address corrections on the license can only be made at the time a renewal license is issued.

   *NIOSH (National Institute of Occupational Safety and Health) TC Number (Training and Certification Number)  ** Powered Air Purifying Respirator

2. **NOTIFICATION (Reference COMAR 26.11.21.03)** - On a separate page, briefly describe the notification required for NESHAP and non-NESHAP renovation projects, ALL demolition projects, and all encapsulation projects in Maryland. Include the requirements for revision of a NESHAP notification as outlined in 40 CFR, 61.145(b).

3. **CONTROL OF EMISSIONS (Reference COMAR 26.11.21.06 and 07)** - On a separate page, state the procedures you will use to meet posting requirements for Danger and Project Notification signs. Note that work site/project area refers to the BUILDING for the Project Notification Signs. Describe your Company's removal and encapsulation procedures. **YOUR COMPANY'S WORK PRACTICES MANUAL IS NOT ACCEPTABLE.** Be sure to make reference to 6 mil poly, amended water, critical barriers, the construction of full containment, negative pressure, and three-stage decontamination procedures in your description. Exemptions: Refer to COMAR 26.11.21.06B(1); note that written requests for the use of glovebags or other alternative procedures on NESHAP-sized jobs MUST be received and approved by MDE prior to initiating these procedures.

4. **CLEAN-UP, AIR MONITORING & FINAL AIR SAMPLE (Reference COMAR 26.11.21.06 and 07)** - On a separate page, describe your Company's clean-up and air monitoring procedures. Also refer to COMAR 26.11.21.06B(3) and note that final air sample results for all NESHAP renovations must be submitted within 24 hours of receipt. **On a separate page, describe clean-up procedures you intend to follow if your final air sample result is EQUAL TO 0.01 fibers per cubic centimeter or greater.** Be sure to include wet wiping with amended water and HEPA vacuuming in your description.

5. **WASTE DISPOSAL & LABELING (Reference COMAR 26.11.21.08)** - On a separate page, explain the asbestos waste handling practices, including transport and disposal, your Company will use. Include a statement of your understanding that: (1) Waste from NESHAP jobs in Maryland require four labels (Waste Generator and Site Location [Reference 40 CFR Part 61.150] AND Maryland contractor license number and seal date) [Reference COMAR 26.11.21.08A(2)]; and (2) A copy of all waste manifests must be submitted to MDE WITHIN 10 DAYS of disposal.

6. Mail **DO NOT FAX** project notifications, waste manifests, final air sample results and requests for alternative procedures to:

   Maryland Department of the Environment
   Air & Radiation Management Administration
   Attention: Division of Asbestos Licensing
   1800 Washington Blvd., STE 725, Baltimore MD 21230-1720
Provide a list of asbestos projects your Company has **CONDUCTED IN MARYLAND** in the past 12 months. (Use additional sheets, if necessary)

**I Check here if your Company has **NEVER** performed asbestos work in Maryland and **DO NOT** continue with Schedule III**
