December	1) BC-DHCD - Hud Grant Program (Katheryn Taylor) 2) Commission Reporting Calendar for upcoming year (Wendy Phillips) 3) MDH Lead Screening

MDE Lead Commission Meeting Discussions To Be Determined Calendar 2023	
Meetings/Discussions TBD	<div>1) Unit Production Quarterly Updates: Ruth Ann Norton asked that Departments that have issues of unit production and dollars provide quarterly updates to include: funds available, who the funds are available to, and the units done to date. For example, Maryland Department of Housing and Community Development (DHCD): mapping that would be able to be crosswalked against where we have children under six, where we have lead levels being reported, and where we have dollars going against that and age of housing. This will also be a mapping of who has lead resources across the state, whether it's Baltimore County, Baltimore City, or others. GHHI volunteered to compile a resource mapping of what programs also support both lead, hazard control, source control, and water. Additionally, a tracking of equity and where dollars are going, who they're going to and how the agency is moving in that direction.</div> <div>2) Lead and Water Quarterly Update: Ruth Ann Norton suggested that a quarterly update for lead and water be added to the calendar in order to regularly get the current status and updates on new opportunities to support lead, hazard control, and lead source exposure through other programs.</div> <div>3) Statewide Community Efforts: Ruth Ann Norton suggested that there be a quarterly update to highlight good community efforts across the state that are happening or highlighting of a nurse or case manager or community organization.</div> <div>4) Commission Meeting with MHIC: to discuss efforts to get pre-1978 property contractors lead trained.</div> <div>5) Introduction and Commitment of Governor Wes Moore</div> <div>6) Dashboard of Unit Production on Lead Hazard Control: Ruth Ann Norton suggested that a comprehensive report from the Commission, such as a living document, be created that will report on the activities around lead poisoning prevention and lead hazard control that is transparent to the public such as the number of federal, state, or local public dollars, being used for lead hazard control efforts. The report could also highlight the efforts of other agencies such as MDH, DHCD, and MDE in this report. This report would be a benefit to child advocates, educators, rental property owners, etc. Jacob Benzaquen, Cliff Mitchell, and Paula Montgomery volunteered to contribute to this process. Ruth Ann Norton will reach out to those that volunteered to discuss the matter further.</div> <div>7) Introduction and Commitment of Governor Wes Moore</div> <div>8) Review Transition Reports relating to MDE Lead Program (Ruth Ann Norton)</div>

MDE Lead Commission External Meeting Calendar 2023	
External Meetings TBD	<div>1) Baltimore City Permitting Process: This meeting is to discuss permitting process issues and compile an update report to be given to the Commission of the findings. The meeting should include Ruth Ann Norton, Susan Kleinhammer, Katherine Taylor, Mary Beth Haller.</div> <div>2) Pre-Meeting MHIC/Commissioner: A pre meeting with Ruth Ann Norton, Susan Kleinhammer, Adam Skolnik, and MHIC should take place prior to MHIC meeting with the entire Lead Commission in order to prep MHIC for the Commission meeting.</div> <div>3) Public Lead Assessment Webinar: Sponsored by MDE and the Commission</div>
