

THE FOLLOWING INFORMATION MUST BE SUBMITTED WITH THE APPLICATION. EXPERIENCE IN THE STATE OF MARYLAND IS PREFERRED BUT NOT REQUIRED. EXPERIENCE WITH PACKAGING EPR IS PREFERRED BUT NOT REQUIRED. (Please attach additional pages if necessary and designate in boxes the page numbers of supplemental information):

Describe projects the organization has been involved with related to extended producer responsibility (EPR). (Please attach resumes of individuals within the organization who worked on these projects.)

Number of years of experience with each project:

List producers represented by the organization and their associated brand names including the producer's market share of packaging materials like: plastic, glass, paper, metal.

Number of years of experience with each producer:

List governing board members (name / organization / size (revenue) / type of covered material).

Do any members of the governing board have more than one member per corporate entity? If yes, please describe.

Does the governing board of the organization include non-voting members that represent trade associations for types of covered materials? If yes, please list. If not, please describe.

What services will your organization provide to producers?

Describe experience with accounting (especially full cost accounting) and financial tracking.

Number of years of experience with each listed item and associated gross dollar value:

Describe experience with ecomodulation systems and producer free-rider detection programs as well as associated projects.

Number of years of relevant experience:

Describe experience with educational outreach and campaigning.

Number of years of relevant experience:

List examples of relevant publications and campaigns along with contacts for these campaigns.

Describe experience with environmental justice (EJ) in EPR and steps the organization has taken to address EJ issues specific to EPR and outreach.

Number of years of relevant experience with EJ and EPR, as well as locations and total number of overburdened, underserved, and/or communities with environmental justice concerns the applicant has engaged with regard to EPR and the locations of those communities?

- I understand that the appointed organization is responsible for ensuring the compliance of the nonprofit organization and participating producers pursuant to § 9-2501 (g)¹ of the State Government Article of the Maryland Code.
- I have included proof of 501(C)(3) non-profit status as an attachment to this document.
- I have attached current revenue/sales of member companies.
- I have attached a comprehensive list of points of contact with state and/or province regulatory agencies the organization has worked with related to EPR.
- I have attached resumes of individuals within the organization who have worked on the organization's projects related to EPR.
- I have included any certifications, publications, recognitions, references and testimonials related to EPR.
- I have attached a letter of commitment from each producer supporting the applying Producer Responsibility organization.
- I have attached additional pages if needed.
