

Love & Cornbread's Mission

- Founded in August 2020, Love & Cornbread works to improve food equity in the most severely underserved areas of Baltimore City by providing residents with delicious ready-to-eat meals made from scratch
- We serve our guests the same food we would serve them if they were guests in our home

Our Impact on Food Inequity

- Since our founding in August 2020, we have provided more than 40,000 delicious, healthy homemade meals to the residents of Penn North
- We serve 400+ meals at three different locations every week
- We have not missed a single Saturday of service in Penn North in more than three years

Why Ready-to-Eat Meals Matter

- Many community members told us that they lack kitchen access, basic utilities, etc. so produce boxes aren't helpful
- Our guests also frequently asked for additional meals for their neighbors
- We now supply these community helpers with weekly deliveries of ready-to-eat meals that they can distribute to their network

So What Else? Partnership

- We receive 1,000+ lbs of produce weekly from SWE that our volunteers and chefs transform into delicious, ready-to-eat meals
- SWE makes our work possible by providing food at no cost
- We take on the labor of creating meals from donated produce and serve it back up to the community with love

Community Benefits

- Meal delivery empowers the community members who are our liaisons
- The quality of our food and the consistency of our delivery helps us build relationships that extend beyond supplying food
 - Orioles game w/ Umar Boxing
 - Bingo with Miss Bernadette

Job Creation Benefits

- We have created employment for a talented, self-taught and Baltimore-born chef to lead our culinary program.
- We recently hired a part-time prep chef from a workforce development program

Come say hello!

We are always glad for new...

- Volunteers
- Donors
- Partners
