

Daily Water Line Inspection Log Sheet

Facility Name: _____ NPDES Permit No.: _____

Instructions:

- Water line inspections must include date of discovery, description of incident, and date of repair. If a leak is detected, place a line in the “leak detected” column.
- Initial form *each day* after the inspection is complete.
- Water line inspections need to still be conducted even between flocks unless there are no animals in the production area and the water line is turned off or not in service. Please check if it is applicable.
- Please inspect water lines *before* placement of a new flock.
