STRIP MINING

The Strip Mining Laws of the State of Maryland were revised and went into effect on June 1, 1965. To engage in open pit mining of bituminous coal the operator must first file an application as provided by this department. Each application will cover four acres of coal to be stripped. This must be accompanied by a Form of Bond, Cash or U. S. Government Securities in the amount of two thousand dollars (\$2,000.00) or five hundred dollars (\$500.00) per acre. The operator must also pay a filing fee of fifty dollars (\$50.00). A PERMIT, giving the location of the acreage to be stripped, is then issued to the operator by the Bureau of Mines.

To further comply with this law, the operator must file an Operations Report within thirty (30) days after starting removal of over-burden. Within thirty (30) days after the operation is finished or abandoned, the operator must file a Completion Report with the Bureau.

All forms pertaining to Strip Mining, including application for permit, application for surety bond, strip mine permit, operation report, completion report, bond release and inspection report have been revised. These forms are identified by number and have been approved by the Attorney General's office.

KITZMILLER MINE RESCUE TEAM

The Kitzmiller Mine Rescue Team is still intact and has regular practice sessions under the supervision of Harry B. Buckley, District Mine Inspector.

The members of the team during 1965 were, Chester L. Evans, Arthur C. Burgess, Claude D. Boyce, James E. Evans, Roger L. Evans, Wallace T. Evans, Harold Hawk, Carl B. Paugh, Leonard R. Paugh, Richard L.

Sherwood, William C. Sherwood, F. Joe Harvey and Milton Whitacre. All of the members of this team resided in the vicinity of Kitzmiller, Maryland.

The Mine Rescue Team and the Maryland Bureau of Mines cooperate with the Maryland Civil Defense Agency to provide adequate rescue service for all cases of emergency.

SAFETY ORDERS

There were no Safety Orders issued during the year 1965.

PROSECUTIONS

It was not necessary to obtain any warrants against mine operators for violations of the Maryland Mining Laws during 1965.

ACTIVITIES OF FUEL COMBUSTION ADVISOR

For the Year 1965

During the year 1965, Mr. Robert D. Ewing, Fuel Combustion Advisor, spent 55 days in the office and laboratory at Westernport and 38 days at State Institutions. A total of 140 days were spent in the field collecting samples, advising on coal preparation, etc. Two days were spent at private institutions. Mr. Ewing processed 313 coal samples in the coal testing laboratory.

Three coal complaints were received concerning delivered coal to state institutions. One complaint was the result of foreign material in the coal and one was from oxidized coal. The third complaint was the result of coal being over-sized. The coal was not properly prepared at the point of origin. Samples of these coals were collected and analyzed. Conferences were held with the shippers and consumers and the necessary corrections and adjustments were made on the shipment.
