

# Confirmation of Suitability – End User/Interim Receiving Site Form

<b>PART A – End User/Interim Receiving Site</b>	<b>MDE Tracking No.:</b>								
END USER/INTERIM RECEIVING SITE	Name of End User/Interim Receiving Site:								
	Address:								
	City: <span style="float: right;">State:</span>								
	Owned By: <span style="float: right;">Contact Name:</span>								
	Email: <span style="float: right;">Phone Number:</span>								
	Operated By: <span style="float: right;">Contact Name:</span>								
	Email: <span style="float: right;">Phone Number:</span>								
	This site is an Interim Receiving Site <input type="checkbox"/> or the End User <input type="checkbox"/> (Please check one)								
	Check all that apply and list volume in cubic yards of fill material in each category:								
	<input type="checkbox"/> Category 1 <span style="float: right;">Volume: _____cy</span>								
	<input type="checkbox"/> Category 2 <span style="float: right;">Volume: _____cy</span>								
	<input type="checkbox"/> Category 3 <span style="float: right;">Volume: _____cy</span>								
	Is the End User/Interim Receiving Site a "Groundwater Use Area"? <input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable								
	Description of Fill Material End Use and/or Project (Use additional sheet if necessary). Provide any Phase 2 Reports or other site characterization data collected to date:								
<b>PART B – Maryland Department of the Environment (MDE) Approval (for MDE use only)</b>									
MDE (for MDE Use Only)	The MDE has determined that when the fill material described in Part A and accompanying documents is used in a manner consistent with the Land Use Classification described in the <a href="#">Innovative Reuse and Beneficial Use of Dredged Material Guidance Document</a> and <a href="#">Fill Material and Soil Management Fact Sheet</a> it does not constitute a release of a hazardous substance pursuant to Title 7 of the Environment Article, Annotated Code of Maryland or a release of oil pursuant to Section 4-410 of the Environment Article, Annotated Code of Maryland.								
	The MDE has reviewed the information contained in this form and the accompanying attachments. Based upon the information provided to MDE, it has determined that chemical composition of the fill material is consistent with the following classification and may be used at a property with the following land use <sup>1</sup> :								
	<table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="width: 30%;">Land Use Classification</th> <th style="width: 70%;">Quantity of Fill Material (Cubic Yards)</th> </tr> </thead> <tbody> <tr> <td><input type="checkbox"/> Category 1 [1]</td> <td></td> </tr> <tr> <td><input type="checkbox"/> Category 2 [2]</td> <td></td> </tr> <tr> <td><input type="checkbox"/> Category 3 [3]</td> <td></td> </tr> </tbody> </table>	Land Use Classification	Quantity of Fill Material (Cubic Yards)	<input type="checkbox"/> Category 1 [1]		<input type="checkbox"/> Category 2 [2]		<input type="checkbox"/> Category 3 [3]	
Land Use Classification	Quantity of Fill Material (Cubic Yards)								
<input type="checkbox"/> Category 1 [1]									
<input type="checkbox"/> Category 2 [2]									
<input type="checkbox"/> Category 3 [3]									
	<p>(1) A Category 1 fill material may be used on properties where the land use classification is Category 1, 2 or 3.</p> <p>(2) A Category 2 fill material may be used on properties where the existing soils conform to Category 2 or 3 land use classification.</p> <p>(3) A Category 3 fill material may be used on properties where the existing soils conform to Category 3 land use classification.</p>								
<b>PART C – SIGNATURE BLOCKS</b>									
<b>OWNER/END USER/INTERIM FACILITY SIGNATURE</b>	<b>DATE</b>								
<b>MDE SIGNATURE (Acknowledging End or Interim Use and Characterization)<sup>2</sup></b>	<b>DATE</b>								
<p>1- The end use of the fill material shall be used only for the land classification category approved by MDE at this site. Use of the fill material for any purpose/category not approved by MDE may be a violation of State environmental laws.</p> <p>2- Copies of this signed form will be provided to supplier, interim facility, and end user. Note that all necessary State and local permits must be obtained.</p>									

## Confirmation of Suitability – End User/Interim Receiving Site Form

<b>INSTRUCTIONS FOR CONFIRMATION OF SUITABILITY – END USER/INTERIM RECEIVING SITE FORM</b>	
<b>Part A – End User/Interim Receiving Site</b>	
Name of End User/Interim Receiving Site	Insert the name of the End User/Interim Receiving Site that is receiving the fill material. A Receiving Site can include a facility where fill material is accumulated on an interim basis. Interim basis means the facility is processing or temporarily staging the fill material for less than three (3) calendar years prior to its use. The End User is the site where the fill material is utilized as backfill or other cover material.
Tracking Number	The Maryland Department of the Environment’s (MDE) Land Restoration Program (LRP) will assign a tracking number to the entity supplying the fill material when the sampling data is submitted for review.
Address	Insert the mailing address of the facility that is receiving the fill material on an interim basis or as an end user.
City	Insert the city in which the organization’s mailing address is located.
State	Insert the state in which the organization’s mailing address is located.
Owned By	Insert the name of the organization that owns the facility that has received the fill material.
Operated By	Insert the name of the organization that operates the facility that has received the fill material.
Contact Name	Provide the name of the contact person for the organization that is receiving the fill material on an interim basis or as an end user.
Email	Provide the email address of the contact person for the organization that is receiving the fill material on an interim basis or as an end user.
Phone Number	Provide the primary phone number of the contact person for the organization that is receiving the fill material on an interim basis or as an end user.
Categories	Please select the most appropriate category for the fill material received and identify the volume of material. Category 1- residential, unrestricted use Category 2- non-residential, restricted use Category 3- non-residential, restricted use, cap required Category 4- unacceptable for reuse <b><u>When selecting the category, this should be based on when the material is received and not after the material is processed for some future use.</u></b>
Groundwater Use Area	Please indicate if groundwater is used as a potable drinking water source at the site or an immediately adjacent property.
Quantity of Fill Material	Please indicate the quantity of fill material, in cubic yards, to be reused by the end user or accumulated by the Interim Receiving Site.
<b>Part B – Maryland Department of the Environment (MDE) Approval (for MDE use only)</b>	
In this section, MDE shall review data for the fill material and identify the quantity of fill material eligible for a particular land use classification. MDE will insure the receiving site meets the appropriate land use classification category. For example, if a supplier has 500 cubic yards of fill material, the MDE shall review the data for the fill material. If all 500 cubic yards qualify for Category 1, the MDE will check the appropriate box and indicate that 500 cubic yards are eligible for this category.	

**Questions contact MDE’s Land Restoration Program at 410-537-3493.**
