In accordance with HB 1200/Ch. 588 of 2022, the applicant provided an environmental justice (EJ) Score for the census tract in which the project is located. The EJ Score, expressed as a statewide percentile, was shown to be 99.5, which the Department has verified. The Department's review of the factors contributing to the score is included in the tentative determination that is available for public inspection.

Requests for a public hearing must be submitted in writing and must be received by the Department no later than 20 days from the date of this notice.
