

New Education Requirement

Beginning July 1st, 2025 all operators renewing their certifications are required to view the EPA Cybersecurity Training video [Cybersecurity 101 Training for Water Systems Webinar](#). The training can be accessed via this link: [Cybersecurity 101 Training](#) (press control and click to follow link or). The video is thirty minutes in length, and can be viewed via computer or cellular device. When renewing, you *must* indicate you have sat for the training by checking the space on the renewal form affirming you have satisfied this requirement and, include the certificate you will earn in your renewal package. The training cannot be used to satisfy any other continuing education requirements.
