MD Building Energy Performance Standards (BEPS)

Electric and Gas Company Reporting Requirements Working Group

Session 2 - 7/11/2024 @ 2pm

Zach Berzolla, Ph.D.

MDE Building Decarbonization Section Head

Session 2 Agenda

- Welcome Back
- Check-in on Data Access Solutions and Approaches Action Item
- EPA ENERGY STAR - Web Services Deep Dive & Program Delivery
- Roundtable Discussion
- For Eligible Electric and Gas Companies: EPA ENERGY STAR - Spreadsheet Data Delivery Option
- Mark your calendars: next session is **August 15th @ 2pm**

BEPS Working Group Purpose

- Review and prepare for the Maryland Building Energy Performance Standards (BEPS) Reporting Requirements of Electric and Gas Companies, as required by the Climate Solutions Now Act (CSNA) of 2022
- Inform and refine processes in the technical memorandum, “Technical Guidance and Calculation Methodologies to Comply with Building Energy Performance Standards;” develop supplemental resources such as white papers and instructional tools to support BEPS implementation and guidelines

BEPS Current Status

MDE intends to adopt a Building Energy Performance Standards (BEPS) regulation in 2024. Building owners should prepare to report benchmarking data to MDE by **June 1, 2025**. After using the benchmarking tool, building owners should determine if their buildings already achieve the proposed standards or if work is needed to achieve the proposed standards.
