Building info	Existing (leave blank if New Const)	Proposed
Bedrooms		
Square footage of Total Enclosed living space		
Design Flow (gpd)		

Attestation: It is the responsibility of the applicant to ensure that the subject property boundaries are staked out on-site by a licensed surveyor prior to percolation testing being conducted. A site plan drawn to scale with proposed sewage areas must accompany this application and should include any buildings or relevant landscape features, proposed well sites, and identification of any water wells within 100 feet of the property. This applies for all proposed construction with the exception of replacement of existing failed systems.

I am the owner of the property or an authorized representative of the owner of the property (documentation required with owners signature). The information provided is accurate.
