

Permit Requirements

Executive Summary

As per “Narrative Files” in section 4 of “National Pollutant Discharge Elimination System (NPDES) Municipal Separate Storm Sewer System (MS4), Geodatabase Design and User’s Guide” (MDE 2017 p 74):

“In addition to the specific narrative reports that have been indicated throughout this User’s Guide, MDE requires that an executive summary that covers each major permit section be submitted as part of each jurisdiction’s MS4 annual report submittal.”

Baltimore County understands “major permit section” to refer to items in permit Part IV. Standard Permit Conditions.

A. Permit Administration

The County has designated an NPDES Management Committee, composed of representatives from agencies involved in NPDES activities, that meets on a periodic basis for updates and coordination. During fiscal year 2023, the Watershed Management and Monitoring section was reorganized into two sections. The goal of this reorganization is to create one team focused on monitoring (Watershed Monitoring section), and a separate team focused on watershed planning and outreach (Watershed Management section). This greater specialization will result in more efficient organization and operations, while also elevating the importance of both sets of functions within the Department of Environmental Protection and Sustainability.

B. Legal Authority

The County continues to maintain adequate legal authority in all areas related to implementation of its NPDES permit. There were no regulatory changes over the last year.

C. Source Identification

The 2024 annual report utilizes the MDE MS4 geodatabase format for all annual data reporting requirements based on the September 2023 supplemental updates.

D. Management Programs

1. Stormwater Management

As of July 1, 2024, there are 4,988 built facilities. 32,717 acres of land are treated by one or more of these facilities. The County completed 1,732 stormwater facility inspections during FY24.

2. *Erosion and Sediment Control*

In FY23 there was a decrease in number of grading permits issued (199) and acres disturbed (628) compared to FY23 (200 permits and 700 acres), and an increase in new building permits (1,684, up from 1,001). A total of 9,525+ sediment control inspections were conducted with 1,009 enforcement actions (743 correction notices and 266 stop work orders). MDE approved Baltimore County's application for renewal of delegation of authority on February 6, 2024. This authority is effective through June 30, 2026.

3. *IDDE*

The County screened 193 storm drain outfalls in calendar year 2023. Of the outfalls that were screened 72 were found to be above water quality thresholds. The County investigated 211 complaints. Of the 211 complaint investigations 178 were closed and 33 are still under investigation.

The County also conducts hotspot surveys of commercial/industrial sites. A total of 140 sites were surveyed during FY 2024. Of the 140 sites, 23% (32 sites) were confirmed hotspots.

The County continues to implement a proactive IDDE program. Additionally, pollution reductions from individual illicit discharge eliminations are available within the Chesapeake Bay Watershed Model. The County has implemented a system for tracking and reporting these pollution reductions, and is using the IDDE program to make progress on TMDL waste load allocations and the MS4 impervious surface restoration requirement.

4. *Trash and Litter*

Baltimore County's expansive litter reduction efforts include instream monitoring, litter removal programs, and anti-litter outreach and education programs. Baltimore County continued to implement the trash and litter reduction strategy and the trash TMDL implementation plan in FY24. During this cycle, the County's efforts captured and removed 480,791 pounds of trash countywide through a multitude of strategies. Of this total, 133,888 pounds were prevented from entering the Baltimore Harbor.

In FY24, The County enhanced its multi-year effort to conduct education and outreach programs by developing new and ongoing pilot programs and advancing foundational anti-litter initiatives such as Clean Green 15 and Litter Blitz. The FY24 Litter Blitz promotion garnered three times the participation from FY23, which resulted in over a threefold increase in pounds of litter collected. Newer efforts such as the County cigarette butt anti-litter campaign gained some traction in FY24. EPS used lessons learned from the pilot in Towson and took preliminary steps to connect with other chambers of commerce throughout the County to offer to install cigarette butt receptacles in additional commercial districts. EPS also collaborated with the Baltimore County Department of Public Works and Transportation on installing roadside signs to promote public awareness of the locations of the Jones Falls and Gwynns falls watersheds. Lastly, a new anti-litter digital marketing campaign was developed by the County around the story of "Litter-zilla", a litter monster spin-off inspired by the infamous Godzilla. This anti-litter advertisement was delivered to Baltimore County residents on major social media platforms such as YouTube, Snapchat and others.

5. *Property Management and Maintenance*

County-operated industrial sites are regulated by the General Stormwater Discharge Permit for Industrial Activity (20-SW). There were 19 permits in effect in FY24 for general government operations, plus 13 Baltimore County Public School sites and the three campuses of the Community College of Baltimore County. Stormwater Pollution Prevention Plans (SWPPP) are maintained for all of the county's industrial sites. Sites are inspected via Quarterly Visual Monitoring, Routine Facility Inspections, and Comprehensive Annual Inspections.

Chemical application of fertilizer, pesticide/herbicide, and deicer is reported for all county property; efforts are being made to reduce the amount of chemicals applied.

During FY24 the County removed 1,168 tons of debris through the street sweeping program and 29.46 tons of debris through the storm drain cleaning program.

The County acknowledges its new permit requirements to develop Good Housekeeping Plans for eligible county-owned sites and to develop a Salt Management Plan for winter deicer use. These plans are complete and included as appendices to this report.

6. *Public Education*

The County has continued to enhance and expand its education and outreach efforts across multiple media, including multiple county webpages, programs, and campaigns. Baltimore County has recorded a significant increase in direct personal engagement over the past years, due largely to greater engagement of the County's on-call outreach contract. Continued focus on enhancing social media reach, chiefly through the "Clean Green Baltimore County" Facebook page, has also been recorded. Baltimore County's MS4 permit requires a minimum of 150 education and outreach efforts to be achieved each year. In FY24 Baltimore County and its contributing partners have recorded 323 education and outreach efforts.

E. Stormwater Restoration

Replacing Annual Practices From the Previous Permit

Baltimore County completed the obligation to install BMPs providing 471 acres of impervious credit to replace annual practices that were used to meet our prior permit requirements.

Progress Toward the Current Permit

The final impervious accounting guidance for the next MS4 permit was released by MDE on November 5, 2021. Applying this final guidance, the County completed 2,493 acres of impervious surface restoration during the period between the expiration of the previous permit and the end of FY24 via perennial BMPs. After applying 471 of these acres to replace annual practices from the previous permit, 2,022 acres will apply towards the County's current MS4 permit requirement to restore 2,696 impervious acres.

Year 2 BMPs and Annual Benchmarks

Baltimore County completed BMPs equivalent to 270 impervious acres in year 3 of the permit. This brings the total EIA restored to 2,022 for the current permit. After accounting for annual practices the EIA is 2,060 acres, 76% of the restoration required by the permit. This exceeds the year 3 benchmark of 60% by 16%.

Next Year's BMPs

Baltimore County anticipates implementing BMPs equivalent to 701 impervious acres in fiscal year 2025.

F. Countywide TMDL Stormwater Implementation Plan

1. Addressing MDE Comments on Submitted TMDL Implementation Plans

Baltimore County responded to MDE comments on implementation plans for phosphorus and sediment in Liberty Reservoir watershed on Nov. 4, 2022.

2. Implementation Plans for New TMDLs

Baltimore County will continue to submit TMDL Implementation Plans for new TMDLs established as required by the NPDES Permit. The Baltimore Harbor Non-Tidal Sediment TMDL implementation plan was submitted on January 27, 2023 and approved by MDE on Sept. 20, 2023.

3. TMDL Compliance

Baltimore County continues to calculate its progress toward meeting applicable WLAs included in EPA approved TMDLs through its reporting, chiefly in Sections 6, 9, and the Countywide TMDL Summary Report (Appendix A) of this annual report. Our watershed monitoring program assists with tracking progress toward biological, bacterial, and chemical endpoints, while tracking the credited pollutant load reductions provides documentation on progress toward meeting assigned WLAs and assists with long range planning for implementation to better reach water quality endpoints of many types.

Progress toward addressing phosphorus WLAs has been challenging: 1 out of 5 watersheds have attained the WLA (Baltimore Harbor), 1 is at 75% (Back River), and 3 are 60% or less (Liberty, Prettyboy and Loch Raven Reservoirs). Both nitrogen WLAs have also been a challenge: Back River and Baltimore Harbor are at less than 50% of the target. Sediment WLAs have seen positive gains: 1 of 8 have attained the WLA (Jones Falls), 1 is set to baseline conditions (Loch Raven), and 6 are at 50% or less (Back River, Lower Gunpowder, Patapsco, Gwynns Falls, Baltimore Harbor and Liberty Reservoir). Progress on the trash WLA is on target (Baltimore Harbor). Implementation targets are based on deadlines set within each TMDL implementation plan. For most nutrient and sediment WLAs the self-imposed deadline had been 2025 (with the exception of Liberty Reservoir being 2030). The updates to the Watershed Model from Phase 5 to Phase 6 have pushed the WLA targets out of reach for these deadlines and have necessitated updates to estimated years of completion for a majority of the TMDLs. Details were provided in the addendum to the FY22 report titled "Baltimore County EPS Countywide TMDL Stormwater Implementation Plan 2022". Other WLAs (i.e. PCBs, bacteria, trash, etc., which have different methods of crediting implementation progress) have been given a 2035 deadline.

In the 2024 Integrated Report the 6 sulfate impairments for Baltimore County were moved from Category 5 to Category 2 due to an updated conservative sulfate screening threshold that was based on toxicity studies.

4. *Public Participation*

Baltimore County publishes all draft restoration plans on the County webpage for public review and comment. The public comment periods for these watershed assessments and restoration plans are at least 30 days, and a comment response document is produced and attached to each plan to publicly acknowledge and address received comments. Baltimore County is currently assessing other methods of driving public participation in its watershed assessment and restoration processes.

G. Assessment of Controls

In calendar year 2023, Baltimore County met the requirements for the watershed restoration and stormwater management assessment utilizing the Scotts Level Branch biological and physical habitat monitoring. In addition, the County has continued the following programs to assess the conditions of Baltimore County waters and locate areas in need of restoration, which aid the progress in meeting TMDL reduction targets:

- Bacteria monitoring program
 - 27 fixed sites countywide were monitored each month for the bacteria trend monitoring program generating 472 samples in CY2023
- Trash monitoring program
 - 24 fixed sites were monitored for trash accumulation in the Gwynns Falls and Jones Falls watershed in CY2023
- Chemical monitoring program
 - 40 fixed sites countywide were monitored each month for the chemical trend monitoring program generating 528 samples in CY2023
 - 12 Scotts Level Branch storm events were collected with 12 storm events at the instream monitoring location and 11 storm events at the outfall location. 12 rounds of baseflow monitoring were collected for a total of 225 samples.
- Biological monitoring programs
 - 50 randomly selected sites were sampled for the stream random point program
 - 39 additional randomly selected sites were sampled for the sediment TMDL biological monitoring program
 - 25 randomly selected sites were sampled for the tidal water random point program
 - 7 fixed sites were monitored for the reference site monitoring program
 - 19 fixed sites were monitored for the sentinel site monitoring program
- Geomorphological monitoring program
 - 14 fixed cross sections were measured in the Scotts Level watershed
- Restoration effectiveness monitoring program
 - 10 fixed biological monitoring sites were monitored in the Scotts Level watershed
 - 4 fixed biological monitoring sites were monitored in the Red Run watershed
- Special studies monitoring program
 - 7 tidal segments were monitored for the Submerged Aquatic Vegetation Monitoring Program

H. Program Funding

The EPS funding for capital and operating budgets for FY2024 are \$29,287,504 and \$8,570,816, respectively. The County designated additional funds in FY2024 for MS4 capital projects: \$10 million from Metropolitan District utility bonds. The County's total expenditures on impervious surface restoration during FY2024 were \$30,093,878.

The County's annual Watershed Protection and Restoration Program Annual Report (WPRP) is submitted with this NPDES MS4 annual report. The report details the funding structure, deposits into the fund, and expenditures from the fund for FY 2024. Funds

deposited into the County's watershed protection and restoration fund in FY 2024 were sourced from general funds, metropolitan district funds, general obligation bonds, and state aid (grants).

The County's biennial Financial Assurance Plan is submitted with this NPDES MS4 annual report. The report focuses on demonstrating that the County has sufficient funding resources to meet the Impervious Surface Restoration requirement of the MS4 Permit, and shows that the County has sufficient funding in the current fiscal year and subsequent fiscal year budgets to meet its estimated cost as per Md. Code Ann. Environment § 4-202.1(j)(2).

Notes:

*To identify all "actions" required under the MS4 permit, provide an executive summary of the jurisdiction's MS4 programs. For planned actions to meet the impervious surface restoration plan, complete the above table.

1. Use BMP domains from MDE MS4 Geodatabase.
2. % ISR Complete compared to continued annual alternative ISR.
3. Insert additional rows as necessary.
4. Impervious Acres are the average for the time period, Implementation Costs are totaled.
5. % ISR Complete compared to ISR new permit.

COUNTY COUNCIL OF BALTIMORE COUNTY, MARYLAND
Legislative Session 2024, Legislative Day No. 22

Resolution No. 49-24

Mr. Izzy Patoka, Chairman
By Request of County Executive

By the County Council, December 2, 2024

A RESOLUTION approving the County's Financial Assurance Plan under the Watershed Protection and Restoration Program.

WHEREAS, § 4-202.1 of the Environment Article of the Annotated Code of Maryland (EN) requires that every political subdivision that has a National Pollutant Discharge Elimination System (NPDES) Phase I Municipal Separate Storm Sewer System Permit (MS4 Permit) must file a Financial Assurance Plan (FAP) with the Maryland Department of the Environment (MDE) on or before July 1, 2016 and then every two years thereafter on the anniversary date of the issuance of its MS4 Permit; and

WHEREAS, Baltimore County received its MS4 Permit on November 5, 2021; and

WHEREAS, in an email dated April 30, 2024, MDE stated that Baltimore County's FAP should be submitted by December 31, 2024; and

WHEREAS, EN § 4-202.1 requires the FAP to identify:

1. Actions that will be required of the county to meet the requirements of its NPDES Phase I MS4 Permit;
2. Projected annual and 5-year costs for the county to meet the impervious surface restoration plan requirements of its NPDES Phase I MS4 Permit;
3. Projected annual and 5-year revenues or other funds that will be used to meet the costs for the county to meet the impervious surface restoration plan requirements of its NPDES Phase I MS4 Permit;

4. Any source of funds that will be utilized by the county to meet the requirements of its NPDES Phase I MS4 Permit; and
5. Specific actions and expenditures that the county implemented in the previous fiscal years to meet its impervious surface restoration plan requirements under its NPDES Phase I MS4 Permit; and

WHEREAS, the County Executive will certify the FAP by December 31, 2024; and

WHEREAS, EN § 4-202.1 requires the county's local governing body to hold a public hearing on the FAP; and

WHEREAS, the County Council held the required public hearing on December 10, 2024; now, therefore

BE IT RESOLVED BY THE COUNTY COUNCIL OF BALTIMORE COUNTY, MARYLAND, that the County Council approves the Financial Assurance Plan; and

BE IT FURTHER RESOLVED, that the County Executive shall forward the Financial Assurance Plan to the Maryland Department of the Environment immediately on approval by the County Council; and

BE IT FURTHER RESOLVED, that this Resolution shall take effect from the date of its passage by the County Council.

READ AND PASSED this 16th day of DECEMBER, 2024

BY ORDER

Thomas H. Bostwick
Secretary

ITEM: RESOLUTION 49-24

CERTIFICATION

WHEREAS, the provisions of § 4-202.1 of the Environment Article of the Annotated Code of Maryland require Baltimore County to file a financial assurance plan to the Maryland Department of the Environment that demonstrates that it has sufficient funding to meet the impervious surface restoration plan requirements of the County's National Pollutant Discharge Elimination System Phase I Municipal Separate Storm Sewer System Permit; and

WHEREAS, the provisions of this law require that "a county or municipality may not file a financial assurance plan under this subsection until the local governing body of the county or municipality: (i) Holds a public hearing on the financial assurance plan; and (ii) Approves the financial assurance plan."

NOW, THEREFORE, I certify that:

1. A public hearing was held on the financial assurance plan on 12/10/2024 (Date);
2. The local governing body approves the aforementioned financial assurance plan; and
3. Under penalty of law, the information in this financial assurance plan is, to the best of my knowledge and belief, true, accurate, and complete.
