Howard County no longer has a 20% Restoration Requirement.
The current NPDES MS4 Permit requires the completion of 1,345 acres of impervious surface area restoration by 12/29/2027.
As of the June 2024, the end of FY24, the County has completed 1,307 acres of impervious surface restoration.

As shown in the table, FY24 adds 392 acres of impervious surface restoration provided by permanent BMPs as well as implementation of annual practice BMPs to maintain a continued level of implementation claimed toward the 2011 permit.

Some projects listed are necessary repairs and retrofits that result in no additional credit.
