Re: Report required by State Government Article § 4-802 (MSAR #12147)

I am pleased to provide you with the *Annual Report on Environmental Violations, 2020*, prepared as required in Section 4-802(d) of the Environment Article, *Annotated Code of Maryland* (MSAR #12147). The October 2020 revisions to Maryland's erosion and sediment control program resulted in new reporting requirements for the jurisdictions within the State of Maryland that are delegated the authority to enforce sediment and erosion control laws and regulations. Provided in this report is the Maryland Department of the Environment's summary of delegated authorities' environmental violations.

This report is the culmination of numerous local and state employees' work, your support, and the support of other elected officials. All are commended for their efforts in developing and implementing this important environmental program for improving local water resources and restoring the Chesapeake Bay.

If you or your staff would like to discuss any aspect of this report, please call me at 410-537-3084 or Mr. Lee Currey, Director, Water and Science Administration at 410-537-3567 or [lee.currey@maryland.gov](mailto:lee.currey@maryland.gov)

Sincerely,

A handwritten signature in black ink, appearing to read "Ben Grumbles".

Ben Grumbles  
Secretary

## I. Introduction

Environment Article, Title 4, Subtitle 1, requires the Maryland Department of the Environment (Department or MDE) to implement an erosion and sediment control program to control sediment-laden runoff from land disturbing activities. The law allows for the delegation of enforcement authority to local jurisdictions found capable of enforcing compliance with the provisions of this subtitle, and that have the capability comparable to that of the Department in terms of laws and procedures, manpower, equipment, and overall effectiveness. Obligations for delegation include reporting the number of permits issued and violations that occurred within the jurisdiction.

In 2019, Governor Hogan approved Chapters 517 and 518, of the Acts of 2019 (House Bill 703/Senate Bill 505). This law requires that delegated jurisdictions provide additional reporting to the Department on environmental violations in the Critical Area and Sensitive Areas of the state. In addition, the legislation requires the Department to publish the data submitted by the jurisdictions and submit the data to the Governor and General Assembly on or before March 1 of each year. To meet these requirements, the Department revised its data collection and submission process for the delegation of enforcement authority to reflect the recently enacted law. These changes included developing an internet-based data collection form that was shared with the delegated jurisdictions. This form included two new sections on inspection and enforcement in the Critical Area and Sensitive Areas.

This *Annual Report on Environmental Violations, 2020*, published May 2021 (Annual Report), fulfills the requirement of §4-802(d), Environment Article, Subtitle 8 of the *Annotated Code of Maryland*. The following summarizes the data collected by the Department from the delegated jurisdictions.

## II. Primary Information

The enforcement of erosion and sediment control laws and regulations has been delegated by the Department to 22 jurisdictions (see Table 1) that include 12 Counties, nine municipalities and the Washington Suburban Sanitary Commission (WSSC). Delegation is granted to each jurisdiction for a period of two years, unless renewed by the Department. In the year preceding the expiration of the delegation authority, the Department conducts a review of each jurisdiction's program to determine if it should be granted continued delegation authority.

**Table 1. Delegated Jurisdictions for Erosion and Sediment Control**

<b>Counties:</b>		<b>Municipalities:</b>	
1.	Anne Arundel	1.	Aberdeen
2.	Baltimore	2.	Annapolis
3.	Calvert <sup>1</sup>	3.	Baltimore City
4.	Carroll	4.	Bel Air
5.	Charles	5.	Bowie

9.	Kent	9.	Rockville
10.	Montgomery	<b>Other:</b>	
11.	Prince George's	1.	WSSC
12.	Worcester		

<sup>1</sup> Calvert County has been delegated authority for single-lot residential construction only.

### III. Summary of Environmental Violations in Maryland

Data collected from the delegated jurisdictions are presented in Tables 2 through 8. The summary presented below covers data submitted by all 22 jurisdictions for fiscal year 2020 (i.e., July 1, 2019 to June 30, 2020) or FY20.

#### Permit Information

- A total of 4,015 major permits were issued. Major permits typically include grading, building, and sediment control associated with an engineered erosion and sediment control plan.
  - The total disturbed acreage for the major permits was 9,721 acres.
- A total of 4,552 other permits were issued. Other permits typically include those associated with a standard erosion and sediment control plan for minor earth disturbances or single-lot residential agreements in lieu of requiring custom designed or engineered plans.
  - The total disturbed acreage for these other issued permits was 4,233 acres.

*\*NOTE: In the following tables the use of “-” indicates that data were not reported by the local jurisdiction or were marked “N/A”.*

<sup>1</sup> Data were reported for CY20.

## Site Inspections and Enforcement Efforts

### *Inspections*

- A total of 84,321 site inspections were performed to monitor earth disturbance activities.
- The inspections were performed by 118 inspectors.

### *Violations*

- A total of 5,343 sediment control violation notices were issued.
- A total of 3,479 building and grading violation notices were issued.
- A total of 422 stop work orders were issued.

### *Fines and Compliance Assistance*

- The sum of \$151,209 was collected in fines or securities.
- A total of 38 court cases were reported.
- 1,528 sediment control complaints were received.
- Assistance was provided to correct violations in 1,655 instances.

## Inspections and Enforcement in the Critical Area

- 11 jurisdictions indicated that they have Critical Area within their boundary.
- A total of 2,628 sediment control inspections were performed in the Critical Area.
- A total of 178 sediment control violation notices were issued.
- A total of 135 building and grading violation notices were issued.
- A total of 51 stop work orders were issued.
- The sum of \$20,000 was collected in fines or securities.
- 106 complaints were received.
- The jurisdictions provided assistance to correct violations in 80 instances.

## **II. Appendices**

## **Appendix A: Environment Article §4-802**

### **Environmental Violations - Reporting Requirements**

§4-802.

(a) (1) On or before January 1 each year, each jurisdiction that has delegated authority under Subtitle 1 of this title to enforce sediment and erosion control laws and regulations shall report to the Department on:

- ( i ) The total number of cases alleging violations of:
  - 1. Sediment and erosion control laws and regulations; and
  - 2. Building and grading permits; and
- ( ii ) The total number of cases alleging violations in the Critical Area of:
  - 3. Sediment and erosion control laws and regulations; and
  - 4. Building and grading permits.

(2) The information reported to the Department under paragraph (1) of this subsection shall include:

- ( i ) The number and nature of:
  - 1. Formal complaints issued by the jurisdiction and whether the complaint is in the Critical Area;
  - 2. Stop work orders issued by the jurisdiction; and
  - 3. Alleged violations reported by citizens to the jurisdiction;
- ( ii ) The number of court proceedings involving an alleged violation, including the final disposition of each court proceeding;
- ( iii ) The dollar amount of fines levied and collected by the jurisdiction as a result of a violation;
- ( iv ) The dollar amount of civil and criminal penalties imposed and collected as a result of a violation;
- ( v )
  - 1. Whether the jurisdiction provided compliance assistance to correct a violation and the nature of that assistance; and
  - 2. Whether the compliance assistance provided by the jurisdiction led to compliance; and
- ( vi ) The number of inspectors and other staff of the jurisdiction assigned to inspection and enforcement of:
  - 1. Title 8, Subtitle 18 of the Natural Resources Article;
  - 2. Sensitive areas ordinances;
  - 3. 100-year floodplain ordinances;
  - 4. Sediment and erosion control laws and regulations; and
  - 5. Building and grading permits.

## Appendix B: Instructions to Jurisdictions on Using the Web Application to Submit the Requested Data

Step 1: Navigate to the Department's Application Page:

The screenshot displays the Maryland Department of the Environment website. At the top, there is a navigation bar with links for Maryland.gov, Phone Directory, State Agencies, Online Services, and an En Español button. Below this is a header section featuring the Maryland state logo and the text "MARYLAND Department of the Environment". A search bar with the placeholder "Enter search term" and a magnifying glass icon is positioned to the right of the header. Below the header is a blue navigation bar with links for HOME, ABOUT MDE, AIR, LAND, WATER, MARYLANDER, PERMITS, and NEWSROOM. The main content area is divided into two columns. The left column is titled "Stormwater Management Program" and contains a list of links: "Soil Erosion & Sediment Control", "Stormwater Management", "Dam Safety", and "SSDS Home". The right column is titled "Delegation of Erosion and Sediment Control Enforcement Authority" and "2019 Application Form". It contains a paragraph stating: "Please use [this online form](#) to apply for the 2019 Delegation of Erosion and Sediment Control Enforcement Authority." followed by an "IMPORTANT" note: "When you first access the form, click the check box for 'Check if you have no code' then click 'Submit'. This will open the form with an 'Anonymous Login Code'. Make sure to copy this code. It will enable you to go back and update your form entries/responses over a period of 30 days." and a contact instruction: "If you have any questions, please contact Mary Dewa at [mary.dewa@maryland.gov](mailto:mary.dewa@maryland.gov)." The footer section is dark blue and contains links for "Contact Us", "Privacy", and "Accessibility", along with the address "1800 Washington Boulevard, Baltimore, MD 21230" and the phone number "(410) 537-3000". Social media icons for Facebook, Twitter, YouTube, and RSS are also present in the footer.
