Logger_Maintenance	N/A ¹	Optional	Optional	Optional	Optional	Optional	N/A ¹	Optional	Optional	Optional	N/A ¹

¹ The jurisdiction opted into the CBT's Pooled Monitoring and is neither required to generate this monitoring data nor to submit this table with the Annual Report.

² Jurisdictions collecting data to fulfill both BMP Effectiveness and Chloride Monitoring at the same site have the flexibility to submit all their specific conductance data in one of the two tables: *BMP_CondMonitoring_Base-Storm* or *Watershed_ChloMonitoring*.

³ Bacteria monitoring requirement not applicable to jurisdictions with a TMDL in shellfish harvesting areas, or in the absence of a TMDL or WLA.

⁴ PCB Monitoring parameter is not applicable to this jurisdiction due to the absence of a TMDL, WLA, or WLA reduction.
