Dear Administrators,

This is my vote in favor of relicensing the Conowingo Dam. As Chair of the Energy Committee at Crosslands Retirement Community I organized a tour of the inner workings of Conowingo and came away impressed with the technical expertise with which it was constructed. We also were impressed with the emergency back-up that the Dam provides under power grid failure.

This is an environmentally sound part of our eastern seaboard infrastructure and I hope you will do the right thing and continue to relicense it!

Thank you,  
Richard Kline, PE
