BALTIMORE, MD 21201**

IMPORTANT INFORMATION ABOUT YOUR PROJECT

Corps Permit Tracking No.: _____ Date: _____
Permittee/Project Name: _____
MDSPGP-6 Activity No.: _____

Dear Applicant:

The U. S. Army Corps of Engineers, Baltimore District, has determined that the proposed work meets the enclosed terms and conditions of the Maryland State Programmatic General Permit-6 (MDSPGP-6). A requisite of permit issuance requires that the applicant comply with any specific terms and conditions associated with the authorized project (conditions enclosed). This MDSPGP-6 verification is provided pursuant to Section 10 of the Rivers and Harbors Act of 1899 and/or Section 404 of the Clean Water Act. If any of the information contained in your application and/or plans is later found to be in error, the MDSPGP-6 authorization for your project may be modified, suspended, or revoked.

Please note that as of the date of this authorization, your project is in compliance with Section 7 of the Endangered Species Act (ESA); however, new species may be listed or additional populations found. Therefore, it is your responsibility to ensure that construction of the authorized work does not adversely affect any existing or newly listed federally endangered or threatened species. Information on threatened and endangered species and their critical habitat can be obtained from the offices of the U.S Fish and Wildlife Service and National Marine Fisheries Service or their web pages at: <https://ecos.fws.gov/ipac> and <https://www.greateratlantic.fisheries.noaa.gov/protected/section7/guidance/maps/index.html> respectively.

Please be aware that the terms and conditions of this permit will continue to be binding on the new property owner(s) if structures or work authorized by this permit exist at the time of ownership transfer of the associated property. Although the construction period for work authorized by this MDSPGP-6 is finite, the permit itself, with its limitations, does not expire. To validate the transfer of this permit and the legal responsibility to comply with its terms and conditions, the transferee (new owner) must contact the Maryland Department of the Environment to request a permit transfer. If approved, the federal authorization will be transferred along with the state transferred permit.

Your MDSPGP-6 authorization is valid until September 30, 2026 unless the permit is modified, reissued, or revoked. You must remain informed of the changes to the MDSPGP-6. When changes to the MDSPGP-6 occur, a public notice announcing the changes will be issued. Be advised that you have 12 months from the effective date of the MDSPGP-6's expiration, modification or revocation to complete the work under the present terms and conditions provided you have commenced construction or are under contract to commence construction of the authorized work.

If the work cannot be completed within 12 months from the expiration date, the MDSPGP-5 reauthorization would not require written re-authorization for previously verified Category A MDSPGP permits as long as the proposed project meets the MDSPGP-6 terms and conditions AND impacts to jurisdictional aquatic resources have not changed. If the project no longer meets the Category A terms and conditions of MDSPGP-6 OR exceeds established MDSPGP-6 thresholds, authorization under an alternative Corps permit will be required. In order for this authorization to be valid, you must obtain all required Federal, State, and local permits.

Donald R. Bole
Acting Chief, Regulatory Branch
