

### Status of Waiver Application – Summary

---

Schools may apply for one of three types of waivers from future testing: Type 1 (prior testing), Type 2 (bottled water) or Type 3 (lead-free building). Waivers are granted on a building-by-building basis; schools seeking waivers for multiple school buildings must apply for a waiver for each individual building.

As of October 30, 2024, MDE has received 409 applications for waivers from testing; 79 have been approved, 120 did not meet the strict requirements for approval, three were withdrawn, and the remaining 207 are under review at this time. The table below enumerates approval status by waiver type.
