

June 1, 2023

The Water and Science Administration has received the applications listed below. A preliminary review has indicated that the listed projects may be subject to the opportunity for a public hearing once the application is substantially complete. Projects may be significantly altered during the review process. The applications and related information are available for inspection and copying. You may also request written notice of any hearing opportunity by having your name placed on the interested persons list for each project in which you are interested. To inspect the file or to have your name placed on the interested persons list, contact the assigned division at the telephone number indicated below no later than Friday, June 30, 2023.

Water Supply Program - (410) 537-3590

County: Caroline

CO2023G003/01: Dale Wright has applied to appropriate and use an annual average of 64,000 gallons of groundwater per day (gpd) and an average of 389,500 gpd during the month of maximum use for crop irrigation. Water will be withdrawn from three wells in the Columbia aquifer. The project is located at 27048 Chipmans Lane, Federalsburg, Caroline County, Maryland.

County: Wicomico

WI2023G002/01: Clifford Cooper has applied to appropriate and use an annual average of 133,000 gallons of groundwater per day (gpd) and an average of 806,000 (gpd) during the month of maximum use for crop irrigation. Water will be withdrawn from two wells in the Manokin aquifer. The project is located at 4745 Cooper Road, Eden, Wicomico County, Maryland.

WI2023G004/01: Steve Hurley has applied to appropriate and use an annual average of 93,500 gallons of groundwater per day (gpd) and an average of 568,500 (gpd) during the month of maximum use for crop irrigation. Water will be withdrawn from a burrow pit excavated into the Columbia aquifer. The project is located at 25714 Ocean Gateway, Mardela Springs, Wicomico County, Maryland.

WI2023G005/01: Christian Riall has applied to appropriate and use an annual average of 25,500 gallons of groundwater per day (gpd) and an average of 162,000 gpd during the month of maximum use for crop irrigation. Water will be withdrawn from one well in the Columbia aquifer. The project is located at 27538 Nanticoke Road, Salisbury, Wicomico County, Maryland.
