

July 1, 2023

The Water and Science Administration has received the applications listed below. A preliminary review has indicated that the listed projects may be subject to the opportunity for a public hearing once the application is substantially complete. Projects may be significantly altered during the review process. The applications and related information are available for inspection and copying. You may also request written notice of any hearing opportunity by having your name placed on the interested persons list for each project in which you are interested. To inspect the file or to have your name placed on the interested persons list, contact the assigned division at the telephone number indicated below no later than Monday, July 31, 2023.

Water Supply Program - (410) 537-3590

County: Baltimore

BA2023G001/01: Pessoa Construction Company has applied to appropriate and use an annual average of 111,000 gallons of groundwater per day (gpd) and an average of 828,000 gpd during the month of maximum use to lower the water table to facilitate the installation of sewer pipes. Water will be withdrawn from multiple well points in the Patapsco Formation. The project is located along Lynch Road and within 500 feet from Bear Creek Pumping Station, Dundalk, Baltimore County, Maryland.

County: Caroline

CO2023G006/01: Shelly Fisher has applied to appropriate and use an annual average of 118,000 gallons of groundwater per day (gpd) and a maximum monthly use of 718,000 gpd from five wells in the unconfined Choptank aquifer for crop irrigation. The project is located at 22470 Hog Creek Road, Preston, Maryland.
