

**June 1, 2024**

The Water and Science Administration has received the applications listed below. A preliminary review has indicated that the listed projects may be subject to the opportunity for a public hearing once the application is substantially complete. Projects may be significantly altered during the review process. The applications and related information are available for inspection and copying. You may also request written notice of any hearing opportunity by having your name placed on the interested persons list for each project in which you are interested. To inspect the file or to have your name placed on the interested persons list, contact the assigned division at the telephone number indicated below no later than Sunday, June 30, 2024.

**Water Supply Program - (410) 537-3590**

**County: Baltimore City**

BC2023G004/01: Baltimore Gas & Electric Company has applied to appropriate and use an annual average of 18,800 gallons of water per day (gpd) and an average of 76,300 gpd in the month of maximum use. The water will be withdrawn from up to 110 well points in the Lowland Deposits to lower the aquifer water level for construction of a new building and electrical substation. The project is located at 2804 Clare Street, Baltimore City, Maryland.

**County: Dorchester**

DO2024G001/01: High Probability, LLC has applied to appropriate and use an annual average of 77,000 gallons of groundwater per day (gpd) and an average of 330,000 gpd during the month of maximum use for crop irrigation and filling duck ponds. Water will be withdrawn from two new wells in the Piney Point aquifer. The project is located immediately southwest of the junction of Golden Hill Road and Blackwater Road, Church Creek, Dorchester County, Maryland.
