

April 1, 2026

The Water and Science Administration has received the applications listed below. A preliminary review has indicated that the listed projects may be subject to the opportunity for a public hearing once the application is substantially complete. Projects may be significantly altered during the review process. The applications and related information are available for inspection and copying. You may also request written notice of any hearing opportunity by having your name placed on the interested persons list for each project in which you are interested. To inspect the file or to have your name placed on the interested persons list, contact the assigned division at the telephone number indicated below no later than Thursday, April 30, 2026.

Water Supply Program - (410) 537-3590

County: Caroline

CO2025G002/01: Mark A. and Vicky L. Eck has applied to appropriate and use an annual average of 98,500 gallons of groundwater per day (gpd) and an average of 598,500 gpd in the month of maximum use for crop irrigation at the Bolt Farm. Water will be withdrawn from a dug pond in the Columbia aquifer. The project is located at 17072 Jones Road, Henderson, Caroline County, Maryland.

CO2025G003/01: Mark A. and Vicky L. Eck has applied to appropriate and use an annual average of 128,000 gallons of groundwater per day (gpd) and an average of 777,500 gpd in the month of maximum use for crop irrigation at the Holloway Farm. Water will be withdrawn from a dug pond in the Columbia aquifer. The project is located at 17386 Diggins Road, Henderson, Caroline County, Maryland.

CO2026G001/01: Byler Materials, LLC has applied to appropriate and use an annual average of 1,800,000 gallons of water per day (gpd) and an average of 2,500,000 gpd during the month of maximum use for sand and gravel transport and washing. Water will be withdrawn from a pit and will be returned to the same pit in the Columbia aquifer, after it is used for the transport of material for processing. The project is located at 25100 Goldsboro Road, Henderson, Caroline County, Maryland.

County: Cecil

CE2026G002/01: William Jeanes has applied to appropriate and use an annual average of 103,000 gallons of groundwater per day (gpd) and an average of 420,000 (gpd) during the month of maximum use for crop irrigation. Water will be withdrawn from up to two wells and a pond both in the unconfined Aquia aquifer. The project is located at 125 Wards Hill Road, Warwick, Cecil County, Maryland.

County: Dorchester

DO2005G113/01: Riverbend Waterfowl, LLC has applied to appropriate and use an annual average of 27,000 gallons of groundwater per day (gpd) and an average of 126,000 gpd during the month of maximum use for crop irrigation and the maintenance of wildlife ponds. Water will be withdrawn from one well in the Piney Point aquifer. The project is located on the east side of Maple Dam Road, 0.5 mile north of the intersection of Maple Dam Road and Greenbriar Road, Cambridge, Dorchester County, Maryland.
