

April 1, 2022

The Water and Science Administration has received the applications listed below. A preliminary review has indicated that the listed projects may be subject to the opportunity for a public hearing once the application is substantially complete. Projects may be significantly altered during the review process. The applications and related information are available for inspection and copying. You may also request written notice of any hearing opportunity by having your name placed on the interested persons list for each project in which you are interested. To inspect the file or to have your name placed on the interested persons list, contact the assigned division at the telephone number indicated below no later than Saturday, April 30, 2022.

Water Supply Program - (410) 537-3590

County: Dorchester

DO1990G046/05: Marcella J DiGregorio has applied to increase an existing water appropriation from an annual average of 49,000 gallons of groundwater per day (gpd) and an average of 298,500 gpd during the month of maximum use to an annual average of 105,000 gpd and 639,000 gpd during the month of maximum use. Water will be withdrawn from one existing well and one new well, both in the Columbia aquifer and used for crop irrigation. The project is located on the northwest side of Steele Neck Road, 0.8 mile southwest of the intersection of New Bridge Road and Steele Neck Road, 3.1 miles southwest of Vienna, Dorchester County.

DO1996G001/03: Reginald & Kathy Sellers has applied to increase an existing appropriation from an annual average of 8,400 gallons of groundwater per day (gpd) and an average of 28,000 gpd during the month of maximum use, to an annual average of 40,000 gpd and an average of 243,500 gpd during the month of maximum use for crop irrigation. Water will be withdrawn from one well in the Columbia aquifer. The project is located at the northwest corner of the junction of Kraft Neck Road and Vienna Henry's Crossroad Road, Vienna, Dorchester County, Maryland.

DO2022G001/01: David G. Wilson has applied to appropriate and use an annual average of 80,000 gallons of groundwater per day (gpd) and an average of 488,000 gpd during the month of maximum use from one well in the Columbia aquifer for crop irrigation. The project is located at 3305 Ocean Gateway, Cambridge, Dorchester County, Maryland.

County: Somerset

SO2022G001/01: CleanBay Westover LLC has applied to appropriate and use an annual average of 291,320 gallons of groundwater per day (gpd) and 300,000 gpd during the month of maximum use for renewable energy and organic fertilizer production through anaerobic digestion of poultry litter at a processing plant. Water will be withdrawn from two wells in the Pocomoke aquifer. The project is located at 9434 Princess Anne Road, Westover, Somerset County, Maryland.

County: Washington

WA2021S002/01: Aaron Hawbaker has applied to appropriate and use an annual average of 25,000 gallons of water per day (gpd) and a maximum daily withdrawal of 432,000 gallons for crop irrigation. Water will be withdrawn from one intake on Little Antietam Creek. The project is located at 13811 Poplar Grove Road, Hagerstown, Washington County, Maryland.

County: Wicomico

WI1995G013/05: Pecan Farms LLC has applied to increase an existing appropriation from an annual average of 16,800 gallons of groundwater per day (gpd) and an average of 102,200 gpd during the month of maximum use to an annual average of 39,500 gpd and 240,000 gpd during the month of maximum use. The water will be withdrawn from one well in the unconfined Columbia aquifer and used for crop irrigation. The project is located at 28260 Nanticoke Road, Salisbury, Wicomico County, Maryland.

WI1998G044/04: Quantico Creek Sod Farms, Inc. has applied to increase an existing appropriation from an annual average of 88,500 gallons of groundwater per day (gpd) and an average of 120,000 gpd during the month of maximum use to an annual average of 537,500 gpd and an average of 729,000 gpd during the month of maximum use. The water will be withdrawn from one new well in the unconfined Manokin aquifer and used for sod irrigation. The project is located 0.2 mile east of the junction of Md Route 347 and Bailey Nursery Road, 0.9 mile northeast of Quantico, Wicomico County, Maryland.
